Subject: PILT Allocation - Action Needed
Importance: High

Public Lands Counties –

As you read this federal House and Senate Allocation staffers are deciding on funding for PILT.

NACO and CCI Public Lands are urging commissioners to adopt resolutions and send letters to Congress helping to educate the Appropriations committees on the importance of these funds to Colorado counties.

Counties may find contact information for both committees here. Both Colorado Senators have repeatedly stated on record their support for PILT. Most of Colorado's Representatives also support PILT, but it does not hurt to follow up with members to ensure their support.

Thank you all for your attention to this important issue!

Andy
