To Whom It May Concern,

For the last couple of years I have had the privilege of serving on the Historic Preservation Commission. I am interested in continuing to serve our community in this role. My educational background is a master's degree in cultural resource management. Additionally, I am a history teacher at Gunnison High School.

Moreover, I truly love this community and believe serving on the commission is a way to give back. Our history directly affects the modern development facing our valley. Modernity does not have to compete with history, and I am interested in helping integrate technology into the educational efforts of the commission. The commission and I have discussed creating social media accounts and regular posts to educate locals and tourists alike. The social media project is what I would like to tackle during my next term.

Thank you for your consideration,

Jordan Selk- Johnson, M.A.
