Subject: planning commission

To Whom It May Concern:

I am Joan Wenman and I am interested in serving on the Planning Commission for Gunnison County. I came with my family to Gunnison in 1951 and they were engaged in ranching here for their lifetimes. I have a real estate business called Apogee Real Estate and Property Management which I have owned since 1998.

I went through school in Gunnison and graduated from Western with a business degree/secondary teaching. I have been self-employed most of my life and am an advocate for entrepreneurship.

I feel I am qualified to serve on the Planning Commission because I am familiar with many of the concerns in this valley and I think proper planning will enable many people to reach their goals. I am an advocate for growth through good planning without making the process tedious. I have been in agriculture in this area and I have been a business owner for many years and I feel I could lend a perspective in those areas as well as others.

Thank you for your consideration!

Joan Wenman
