Re: Interest to continue serving on the STOR committee

Please consider this letter as sincere interest to continue serving on the Sustainable Tourism and Outdoor Recreation committee.

I have been proud to be a part of this committee since it's inception, and feel that the very stakeholders that have a part to play in regards to tourism and outdoor recreation should indeed have a presence. I am proud of the work accomplished to date, and for the opportunity to meet with such a diverse group of stakeholders to discuss and look to progressive and sustainable solutions in regards to the charter of the STOR committee, and the issues we continue to face in this time of increased tourism and backcountry impacts.

I feel the STOR committee really has 'legs' underneath it at this point, and I would be so honored to continue in this service, in order to see more of the initiatives come to fruition and to finish much of what has been started.

CBMBA is proud to have a seat on this committee and feel that it complements the very goals, plans, and initiatives that CBMBA has advocated.

I hope you will consider my request to continue service on the STOR committee.
