The Board approved that County Manager is authorized to sign the document, if he approves, after his review.

The engineering cannot be done until a survey is finished. She informed that when she spoke with Skip, he commented that they need to be ready to mobilize. She reported that the estimate for the survey is \$8,000-\$10,000. The Board agreed that Deputy County Manager Crosby should go ahead and get the survey performed. She reported that the State expressed that they were very appreciative of the work that rural Public Health departments perform. Public Health Director Worrall informed that the State inquired from her what would help her department, and she replied that additional funding is necessary. She mentioned the four improvement areas that the Public Health staff is working on: Obesity Prevention, Mental Health and Substance Abuse, Clean Water and Safe Food. 2. Mental Health and Substance Abuse: She reported that they are working with the Center for Mental Health and trying to strengthen the collaboration. She reported that during the GCSAPP and FAST programs they have been asking parents what types of programs they need. She informed that the take away is that we have the services in the Gunnison Valley, but the public doesn't know that they are available.
3. Clean Water: She reported that there is nothing to report right now.

She reported that the items that are required for the grant have been taken care of.

She reported that the reimbursement did not incorporate reimbursement for the staff time it took to submit the reimbursement. She informed the Board that Public Health has a few small grants to help during the transition time, but the billing is not covered. RESOLUTION; ADJUSTING GROUND RENT FOR USE OF PREMISES AT THE GOLD BASIN INDUSTRIAL PARK: Moved by Commissioner Chamberland and seconded by Commissioner Houck to approve Resolution 2014-12: A Resolution Adjusting Ground Rent for Use of Premises at the Gold Basin Industrial Park. Motion carried unanimously.

RIVERLAND INDUSTRIAL PARK FIRE PROTECTION: County Attorney David Baumgarten, Deputy County Attorney Art Trezise, Community Development Building/Environmental Health Official Crystal Lambert, Community Development Director Russ Forrest, Assistant Community Development Director Neal Starkebaum and Shaner Life Safety Systems representative Deborah Shaner were present for discussion. Crested Butte Fire Protection District (CBFPD) Fire Chief Ric Ems, CBFPD Board Chair Paul Hird, CBFPD Manager Mike Miller, CBFPD Board member Jack Dietrich, and Riverland Industrial Park representatives Danny D'Aquilla, Norman Whitehead and John Nichols were also present for discussion.

Community Development Director Forrest reported that this discussion was scheduled as a follow-up from a meeting in October of 2013 where the Board gave him direction to try and achieve answers to the three questions:

1. Assessing the risk associated with life safety;
2. If there is an unacceptable risk, are there short term solutions; and
3. What are some reasonable long-term solutions to improve life safety and allow development to occur at Riverland Industrial Park?

Community Development Director Forrest reported that he hired Deborah Shaner with Shaner Life Safety Systems to review this by looking at it with a pragmatic standpoint with her years of experience. Ms. Shaner informed the Board that when she was first given the task she looked at it very broadly. Ms. Shaner reported to the Board that Section 303 in the Crested Butte Fire Protection District regulations, which references NFPA 1142, provides a reasonable alternative standard to the water supply rate and storage requirements prescribed by the International Fire Code. She opined that future development will be subject to the fire code that is adopted at the time of construction. In the meantime, she asked why not invest in the water supply to improve it and get it up to 500 gallons a minute, which would mean that the sprinkler systems in place will work better than they do now. Ms. Shaner opined that NFPA 1142 is an acceptable solution.

Community Development Director Forrest referenced the memo provided in the packet materials. The Board reviewed and discussed the options outlined in the staff memo:

1. Take no further action;
2. Withdraw the County's approval of the District's adoption of the Fire Code from 2008;
3. Unilateral BOCC Amendment of the Code is not an option;
4. BOCC "Waiver" is not an option; or
5. District approval of the solution by the independent Fire Protection Engineer.

CBFPD Fire Chief Ric Ems opined that the report by Ms. Shaner misinterpreted that there is a linkage between the alternative water supply and fire code, with the understanding that alternate water sources run in conjunction with the fire suppression system/sprinkler system. He opined that the report doesn't support the fire flows under Appendix B of the International Fire Code. He opined that under 303, the development of alternative water sources does not supersede the requirements of 402 for fire flows. He informed the Board that the CBFPD disagrees with MS. Shaner's recommendations. He informed the Board that CBFPD has been enforcing the code since 2008 and they do not want to set a precedent, because they have been holding all subdivisions in their jurisdiction to higher standards since 2008.

County Attorney Baumgarten inquired from the CBFPD, would they agree that the solution proposed would improve the current problem with life safety. The CBFPD agree that the solution proposed by Ms. Shaner would improve the life safety problem and improve the fire flows, but it does not serve the intent of the code. The CBFPD disagreed that the proposed solution is an existing solution available under the existing code.

There was discussion that the CBFPD disagrees with the solution proposed and the interpretation of the code. There was discussion that Gunnison County cannot make any waivers, a waiver must come from the CBFPD. Gunnison County can only give or take away the authority of the CBFPD to enforce the codes.

Chairperson Swenson inquired if CBFPD would be willing to take 30 days to discuss and take another look at this report and then reconsider their position on this solution. CBFPD Board Chair Hird inquired what would occur if they cannot change their position on the solution in 30 days. Chairperson Swenson replied that the Board would have to take a look at what to do with the district and the fire code that was adopted.

County Attorney Baumgarten informed the CBFPD that there are two solutions that can be considered during the next 30 days:

1. Language interpretation and clarification solution; and/or
2. Variance solution.

CBFPD Board Chair Hird informed the Board that they are willing to enforce any changes that the Board makes, but they will not make any waivers to the fire code.

County Manager Birnie inquired if the CBFPD will never grant waivers from the adopted code. CBFPD Board Chair Hird confirmed that "their current approach is not in the business of granting waivers" and they do not want to set a precedent. There was discussion that a regulator can't function without a waiver process.

The Board directed Gunnison County staff to work with the CBFPD, and attempt to come up with a solution. The Board reset this discussion on the 4/22/14 agenda.

CORRESPONDENCE WITH US FISH AND WILDLIFE SERVICE REGIONAL DIRECTOR NOREEN WALSH:

The Board reviewed the draft letter provided in the packet materials. **Moved** by Commissioner Houck and seconded by Commissioner Chamberland to approve and sign the letter to the US Fish and Wildlife Service. Motion carried unanimously.

UNSCHEDULED CITIZENS: There were no Unscheduled Citizens present for discussion.
