To whom it may concern,

Please find attached my professional resume in support of my interest in serving on the Gunnison County Trails board.
I hope that you will find my advanced education in natural resource management, in association with my own personal recreation driven pursuits, to be valuable assets to this boards' charter.

Being a fairly new member to this community, I am eager to extend myself into some leadership roles now, which may provide me and my family with connection to the larger citizenry into the future.

I am happy to provide you with any additional information required upon request.
