| | VHF Radio for IC vehicle | $1,328.85 | 1 | $1,328.85 |
| | Generator for IC vehicle | $2,300.00 | 1 | $2,300.00 |
| | Total | | | $17,421.65 |

JUSTIFICATION: Please provide a justification for the items and amounts requested. Identify relationship between kinds of missions, items requested, and financial or other local impacts.

Avalanche Beacons requested for two of our teams because of back country exposure compromizing safety of Rescue members. Both teams respond to areas remote from outside assistance and need to cover each other.

West Elk and Sestern State both need litters

11. Please answer the following questions and check those items that apply to teams and agencies within the county this past year:

a. Local effort to promote the CORSAR card: (check all that apply to the past calendar year):

y___ One or more teams or agencies sent a letter to vendors within the county encouraging them to promote the CORSAR card.

y___ One or more teams or agencies sponsored a meeting with vendors within the county encouraging them to promote the card on behalf of SAR teams.

b. Team fundraising: (check all that apply to the past calendar year):

y___ At least one team held one team fundraiser.

y___ At least one team or sheriff applied for one grant other than from the Colorado SAR fund.

y___ Teams and/or sheriff applied for two grants other than Colorado SAR fund.

c. Please suggest at least one action the State SAR Program could initiate to help promote sales.

Posting signs in entrances to Federal and State Parks

Facebook and Twitter to news reporters

d. Please provide comments regarding the use of these questions to evaluate local effort in regard to funding search and rescue operations.

Charging for false reports or unwarranted searches.

Additional Justifications for grant Request

The Suction Unit and EZ10 for Crested Butte is to enable them to provide additional care to victims that will have to transported for several hours from back country incidents.

Personal Flotation Devices and Helmets are for the protection of the rescuers when attempting a rescue in the rapid flow rivers and streams in our county. Requested by CBSAR.

Cascade Litter wheel is requested by West Elk SAR because much of their area is not accessible by ATV and victims may have to be carried for miles down rough terrain.

Carbon Fiber tanks requested by Western State are to limit the weight of rescue equipment, there for decreasing the time it will take to get to a victim,

The VHF Radio and the Generator are requested by Western State for their IC vehicle. They respond to counties where there is no such vehicle provided for headquarters.
