Working as a community to increase protective factors for our youth.

City of Gunnison and Gunnison County (GCSAPP)

GCSAPP has recently began integrating the Communities that Care (CTC) strategic model to the coalition framework.

Social Development Strategy: Opportunities. Skills. Recognition.

> - Providing young people with opportunities, skills and recognition strengthens bonding with family, school and community. Strong bonds motivate young people to adopt healthy standards for behavior.

YOUTH SHARED SPACE

We already have space in our community for youth – this will allow them to feel more connected to community, engage with healthy adults, be recognized and have a safe community space to be. All protective factors – suicide, substance abuse, bullying and delinquent behaviors.
