Subject: OPPI LPHA Partnership Mini-Request for Information, submit by July 8th
To: LPHA Directors, Partnership Coordinators and CHAPS points of contact

---

Good morning LPHA partners,

The Office of Planning, Partnerships and Improvement invites your partnership to apply for the **OPPI FFY 2019-20 Preventive Health and Health Services Block Grant (PBG) Mini-Request for Information** to support upcoming cross-jurisdictional and regional LPHA partnership activities and functions. This opportunity is open to all LPHAs, current and previously funded LPHA partnerships, informal or formal partnerships across county jurisdictions.

This funding was discussed at the May 17th CALPHO meeting. A follow-up email is forthcoming this afternoon.

Purpose

The purpose of the mini-RFI is to help determine an equitable and effective allocation of CDPHE Preventive Health and Health Services Block Grant funding and OPPI support of LPHA partnerships efforts as they align with the new Foundational Public Health Services and Capabilities.

Support opportunity

- LPHAs serving as the fiscal agent can apply for funding for partnership (cross-jurisdictional, shared services) activities and functions to occur during the 12 month grant cycle, Oct. 1 2019-Sept. 30, 2020. Average award amounts are expected to be between $10,000-$50,000.
- Funded activities and functions can include current and/or new efforts to create and/or maintain partnership processes and relationships, build capacity to implement and achieve partnership outcomes, and/or evaluate partnership efforts for impact.
- Funding is not intended for community-level partnerships (e.g. coalitions or collaborations with nonprofit partners). Although we know these types of partnerships are best practice and invaluable, we are focusing support on LPHA cross-jurisdictional sharing and partnering.
- Award amounts will be based on proposed projects and needs, determined by CDPHE and LPHA staff (who are not applying).
- Responses to the mini-RFI questions will inform a partnership workplan to guide partnership activities and OPPI technical assistance. Support will be aligned with the Colorado Foundational Public Health Capability - Community Partnership Development.
- Grantees will be required to complete mutually-beneficial mid-year progress update and final reports.

Instructions

Please submit one **mini-Request for Information Form** per partnership. Be sure to indicate the primary contact and the fiscal agent(s).
Provide brief responses in either narrative or bullet format.
Complete the form by the end of the business day on **Monday, July 8th, 2019**.

You will receive a confirmation of your RFI form upon receipt by OPPI and notification of award by **Monday, July 15th, 2019**.

If you have questions at any time, please contact Haley Stewart at 303.692.2019 or haley.stewart@state.co.us Monday-Thursday or Anne-Marie Braga 303.692.2361 anne-marie.braga@state.co.us.

Thank you and enjoy the holiday weekend!

-Haley

Mini-Request for Information

Title: West Central Public Health Partnership Coordinator
Email: mwacker@gunnisoncounty.org

Phone: (970) 641 7913

Partnership name and/or description: West Central Public Health Partnership
If different from above, please list the primary contact for the partnership, including name, title and email: (put this in the box)
If different from above, please list the fiscal agent and point of contact, including agency, name, title and email.
What counties/LPHAs are/will be part of this partnership?

PARTNERSHIP & CJS FUNDING NEEDS

1. **What specific activities and outcomes will your partnership achieve over the next year?**

   In 2019, the West Central Public Health Partnership (WCPHP) will be focusing its' efforts on the Year 1 implementation strategies of our new PHIP, which includes goal areas related to Healthy Eating Active Living, Behavioral Health, Healthy Housing, and Health Equity. We also will be creating an evaluation plan and logic models related to the Public Health Improvement Plan and compiling regional baseline data to monitor impact going forward. Outcomes: Logic Model for PHIP, Evaluation Plan for PHIP, baseline data related to HEAL, Healthy Housing, and Behavioral Health.

   In addition, the partnership is continuing to build LPHA staff capacity related to Health Equity. Currently, the partnership is tracking this work through our Colorado Trust grant with partners: Valley Food Partnership and CALPHO. We incorporate a mini Health Equity training into each quarterly meeting based on the Human Impact Partners Guide. Also, as of May, the WCPHP now has three certified Second Circle trainers to host Health Equity events in our region. Outcomes: Second Circle implementation will occur over the next year with at least 3 held in our region by WCPHP staff. Health Equity baseline data related to PHIP compiled.

   The partnership is also working to build capacity related to our PHIP and potentially other essential services. We will be hosting a grant writing training in July for the partnership with an emphasis on upcoming Behavioral Health grant applications in order to leverage new funding to continue doing this work in our region. Outcomes: increased resources and capacity to address PHIP and essential services.

2. **Please state the requested funding amount and a budget narrative explaining how the funding will be used to achieve your outcomes. (Average award amounts are expected to be between $10,000-50,000.)**

The West Central Public Health Partnership is requesting $30,000 in funding. The majority of funding will be used for staff time for coordinating WCPHP, building capacity through regional grant trainings/applications, creating an evaluation plan and implementing our regional Public Health Improvement Plan. Staff time includes the WCPHP Coordinator, WCPHP Health Planner, and WCPHP AmeriCorps member. WCPHP Coordinator at 6 hours/week $14,854, WCPHP Planner at 6 hours per week, $7,110, and a half time AmeriCorps member is $4,750, which equals $26,714. Funding may also be used for travel to regionally for hosting WCPHP meetings and Second Circle trainings and to Public Health in the Rockies, estimated at $1,200. Computer costs for Gunnison County at $2,000. Other operating costs like meeting meals $86.

3. **If this is a newly formed partnership, please describe the original motivation or intent to partner across jurisdictions.**

4. **If your partnership has already formed, how would you like to see it improve?**

We would like to see improvement in the monitoring process for our regional work. The creation of an evaluation plan has been challenging because our PHIP has 3 goal areas with 3-4 strategies for each one. In addition, the monitoring process is typically grant/project focused.

We would also like continue and improve our work related to Behavioral Health. Our regional funding is ending soon and we are in need of additional funding in order to continue collaborative efforts in this area.

5. **What funding do the LPHAs in the partnership receive that require and/or encourage regional collaboration?**

1) Tobacco Prevention (STEPP) is a regional grant.
2) State Innovation Model (SIM) is a regional grant.
3) Health Equity funding through the Colorado Trust and our partners CALPHO and Valley Food Partnership
4) CDC Well Water Quality Grant
5) Radon grant.
6) Lead Prevention grant
7) Child Fatality Review Committee grant.
8) Waste Tire grant.
9) Nurse Family Partnership regional grant.
10) Early Childhood Council funding.
