Proposal Information

Program or Service *
Youth Shared Space and Sources of Strength

Amount Requested *
$ 52,084.00

Description *
Provide a brief description of the program or service

The shared youth space (Gunny Hangouts) is a collaborative effort between the City of Gunnison and Gunnison County (GCSAPP) as well as local businesses to open up spaces in our community for our youth so that they will have more connections to positive adults, so they have places to hangout and feel connected and valued in our community and to decrease the likelihood of engaging in risky behavior such as using substances. The youth shared space follows the social development strategy which fosters the success and health of young people and promotes positive youth development. The youth shared space initiative provides high school youth with opportunities, skills and recognition within in the schools and community.
The Sources of Strength program is a initiative with GHS, GMS, GCSAPP and the City of Gunnison in order to increase protective factors in our youth and community members to minimize the likelihood of suicidal and bullying behaviors and to help youth and community members create strength based language in order to increase the likelihood to resiliently respond to negative life events.

Funding Impact *
Please describe the resulting impact to your program or service in the event funding is not approved or your application is only funded in part.

Youth Shared Space - if not funded at all the initiative will most likely end as it was created for the purpose of collaboration between the city and the county whereas by the county is facilitating the initiative and youth are driving it. If funded in part, the program will continue at whatever capacity we can.
Sources of Strength - if not funded or partially funded we will continue the program without the leadership development/workshop components. The youth value the leadership and workshop experiences so we would do what we can to continue it with funding from the state of Colorado, Gunnison County and the school system.

Population Served *
6th - 12th grade youth and community members

Justification *
Why do you think the program or service should be funded by the taxpayers of the City of Gunnison?

Both of these programs are for community health and wellness. They are primarily serving youth - which are the foundation and future of our community. We are only as healthy and as strong as our youth and thus we need to invest in their health and wellness. Additionally, our community has been greatly affected by suicide. In 2016 we lost 10 community members to death by suicide and in 2017 we are already at 7 community members lost by suicide. Two ways to build protective factors in our community is 1. increase the feeling of connectedness to others, families and the community and 2. increase the amount of positive adults and help seeking behaviors. The funds that are being requested directly address those two protective factors

Please list three measureable objectives and include how attainment of the goals/objectives will be measured.

Objective #1 *
Please see attached documents - statement of work

Objective #2 *
Please see attached documents-statement of work

Objective #3 *
please see attached documents-statement of work
