Liz,

I received a letter stating that my term on the Sustainable Tourism and Outdoor Recreation Committee expires on February 1. I am interested in continuing my service on this committee and hopefully my previous experience on the STOR committee has been beneficial to the citizens of the county, visitors to the county and to the landscape. My service has included being committee chair for the past year, helping develop meeting agenda items, collaborating with Partners in the Outdoors and serving as a representative for hunters and anglers. I have attended every meeting except where I had a direct work conflict for one of them. I have also served on the National Forest Foundation committee associated with STOR. Thank you for considering my request to continue my service on the Gunnison County Sustainable Tourism and Outdoor Recreation Committee. I thoroughly enjoy my service on this committee and gain much personal satisfaction from being able to serve in this way.
