Project Description

Section P-401-3.6 AND P-501-3.4 of Advisory Circular 150/5370-10G, "Standards for Specifying Construction of Airports," require that testing laboratories meet certification requirements prior to the start of construction. These laboratories were used to develop job mix formulas and perform quality assurance tests for construction of bituminous and Portland cement pavements. We hereby certify that the testing laboratory listed below has met the requirements of ASTM D 3666 for bituminous pavement and ASTM C 1077 for Portland cement concrete pavement, and has shown evidence of participation in an accredited program.
