RE: Gunnison County Watershed Weed Commission

Dear Gunnison County Commissioners and Ms. Mense:

This letter is to express my interest in serving on the Gunnison County Watershed Weed Commission.

This commission brings together dedicated people throughout the region who are involved in weed control. It tackles a huge number of issues including science, techniques, budgets, personnel, field work, coordination, grants and awards, training, workshops, government regulations, public and private lands, and state and local initiatives.

Weed control is an effective and collaborative effort in Gunnison County largely due to this commission's leadership AND membership. It would be my honor to serve again as a "citizen" representative.

Thank you for your consideration.

Sincerely,

Lorraine Rup
