Gunnison County Administration Office
200 E. Virginia Avenue
Gunnison, CO 81230

Dear Gunnison County,

I want to express my interest in serving on the Environmental Health Board for another term. My interest stems from a career working in water quality assessment and wetlands work associated with the Clean Water Act. I found the few times that we met as a board in the past year to be informative and fair to those requesting variances.

At this time, I continue to complete wetland delineations in the valley, but on a limited basis. New regulations regarding our streams and wetlands will be issued as the Navigable Waters Protection Rule. I am in the midst of reading the new rule and intend to see how it may affect the valley's water, and hope to share that with colleagues and others that may be interested.

I am hopeful that I can continue to serve Gunnison County, and feel that I can make fair decisions based on the facts and other information presented

Thank you for your time.

Sincerely,

Lynn Cudlip
