Dear Land Use Change Applicant,

The Gunnison County Trails Commission, formed and appointed by the Gunnison County Commissioners in 1995, encourages you to incorporate trails into your planning process. Many trail systems, exist in Gunnison County on public and private land and we are currently developing future trail corridors through a county-wide planning process. We hope you will take trails into consideration early in your planning process.

The Trails Commission believes that a well-planned trail system offers many benefits to people who reside in or visit the county. Alternative forms of transportation such as hiking, biking, horse-back riding, skiing & snowshoeing, not only get you there, they are excellent forms of fitness. In this day and age, exercise is emphasized as an important part of ones health. We believe that an alternative transportation system allow individuals the ability to get from place to place without being dependent on an automobile. In such beautiful surroundings, as we have here, it is an-asset to be outside. A well-planned trail system can be an inviting feature for your clientele and help to increase the value of your project.

Please feel free to contact us regarding your upcoming project as we have many ideas and suggestions. A member of our commission will contact you after you file your application with the Gunnison County Planning Department or you can give us a call at 970-349-6482.

Thank You for keeping trails in mind as a part of your project.

The Gunnison County Trails
Commission
