## **Introduction to the Healthy Kids Colorado Survey**

---

**INTRODUCTION**

This report summarizes findings from the Healthy Kids Colorado Survey (HKCS) administered in your school(s) during this school year. The HKCS is designed to assess students’ involvement in a wide range of health and risk behaviors as well as students’ attitudes about, and exposure to, a set of risk and protective factors that have been shown to affect these behaviors.

**Background**

The Healthy Kids Colorado Survey (HKCS) was developed to:

- Increase public awareness about health and behavior issues that impact youth
- Create healthy learning environments by improving school health education policies and programs
- Monitor how the priority health behaviors among middle and high school students increase, decrease, or remain the same over time
- Provide local, state, and national comparisons on youth health behaviors
- Educate leaders to shape effective public policy
- Bring funding into the state and local communities
- Meet the data collection and reporting needs of schools and programs receiving funding from multiple federal and state agencies

Specifically, the HKCS collects data that are commonly required by grants and programs offered through the following:

- U.S. Centers for Disease Control and Prevention
- U.S. Substance Abuse and Mental Health Services Administration and the Center for Substance Abuse Prevention
- U.S. Office of Juvenile Justice and Delinquency
- Programs of the Colorado Departments of Human Services (Division of Behavioral Health), Education, Public Health and Environment, Public Safety (Division of Criminal Justice and Office of Juvenile Justice) and Transportation

**Survey Measures**

The HKCS integrates items from two nationally recognized and validated surveys: the Centers for Disease Control and Prevention’s *Youth Risk Behavior Survey (YRBS)* and the *Communities that Care Survey*, developed by the Social Development Research Group, as well as additional items selected by Colorado state agencies. There are a total of 120 items on the high school HKCS and 105 items on the middle school HKCS. Youth behaviors measured on the HKCS include:

- |                            |                      |   |
|----------------------------|----------------------|---|
| • Substance Use            | • Family/Home        | • Physical Health, Activity and Nutrition                               |
| • Personal Safety/Violence | • Mental Health      | • Sexual Behavior (This section only appears on the High School survey) |
| • School                   | • Future Aspirations |   |

### Risk and Protective Factors

In addition to individual item results, multiple items from the survey are combined to calculate scores on several risk and protective factors. Risk and protective factors are characteristics demonstrated by research to increase or decrease, respectively, the likelihood of unhealthy and problem behaviors. Specifically, risk factors are the characteristics in a young person's environment that, if present, make it more likely that an individual will engage in risky behaviors. Protective factors, on the other hand, buffer against risk, and reduce the likelihood that an individual will engage in these risky behaviors. These risk and protective factors are assessed at four different levels, including the community, school, family, and peer/individual. Risk and protective factors assessed in the HKCS include:

#### **Risk Factors**

- Community: Perceived Availability of Drugs
- Community: Laws and Norms Favorable to Drug Use
- Family: Parental Attitudes Favorable to Drug Use
- School: Low Commitment
- Peer-Individual: Early Initiation of Drug Use
- Peer-Individual: Perceived Risk of Drug Use

#### **Protective Factors**

- Family: Opportunities for Pro-Social Involvement
- School: Opportunities for Pro-Social Involvement

More information on risk and protective factors can be found in Appendix C.

#### **School Administration and Resources**

The survey is administered by participating schools during the regular school year and generally requires 45 minutes for students to complete. In order to promote a smooth administration and to obtain accurate, high-quality data, schools work closely with OMNI Institute to plan their school survey administration. OMNI Institute is a non-profit social science research agency that coordinates the local administration of the HKCS.

To support Colorado's school survey effort, OMNI Institute provides the following services:

- Monitoring common state and federal data reporting requirements of schools and programs
- Assisting school officials in planning school survey administrations
- Supplying school survey materials
- Scanning and analyzing school survey data
- Developing user-friendly reports of HKCS data
- Assisting school officials and local coalition representatives in interpreting HKCS data for funders and stakeholders
- Assisting school officials and local coalition representatives in utilizing data for local program and service planning
- Providing additional analysis on HKCS data

To plan next year's school administration, or for more information regarding available technical support, please contact the survey team at OMNI Institute at [survey@omni.org](mailto:survey@omni.org) or 1-800-279-2070 ext. 101.

### Report Organization

Your school survey report is organized into several major health behavior topics. In many topic areas, a few select survey items are presented in charts to illustrate overall health behaviors and attitudes in the participating sample and differences across grade levels or gender. Tables presenting survey results for all items are also included in each health behavior section. Risk and protective factor scales are reported in a separate section at the end of the report. Please note that because the HKCS contains items from both the Youth Risk Behavior Survey and the Communities that Care Survey, "ATOD" (alcohol, tobacco and other drug use) and "drug use" are used interchangeably throughout this report.

### How to Use This Report

The purpose of this report is to provide schools and communities with the information and resources needed to: (a) develop an understanding of youth attitudes and behaviors in your community; (b) identify assets or problem areas among youth in your community; and (c) guide the selection of appropriate programs and prevention activities for your community. Please contact your Regional Prevention Consultant (See Appendix B) or visit the Regional Prevention Services website at [www.rpscolorado.org](http://www.rpscolorado.org) for technical assistance in utilizing this report.

We recommend examining your data in multiple ways:

- (1) Look for patterns within your report:** As you examine the report, pay attention to the relative percentages of youth reporting various attitudes and behaviors. Although many of these outcomes are not directly comparable and may differ in importance, noting any general patterns across these outcomes can help you identify and focus on what appear to be key problem areas or areas of strength.
- (2) Compare your results with state data:** State-level results may provide another valuable comparison point for your community's data and enable better understanding of the relative needs, strengths, and challenges for youth in your community. State data were most recently collected in the fall of 2011. To obtain a copy of the most recent state report, visit the Healthy Kids Colorado Survey website at <http://hkcs.omni.org>.
- (3) Compare your results to previous years' data from your community:** If your community participated in the HKCS in previous years, certain items may be comparable across years, enabling you to determine changes over time in key health and risk behaviors in your community. If you are interested in finding out more about cross-year comparisons of data or have any other questions, please contact the survey team at [survey@omni.org](mailto:survey@omni.org) or 1-800-279-2070 ext. 101.

## **Section II**

# **Data Quality**

## DATA QUALITY

### **Confidentiality**

A standard data suppression policy is used to protect the confidentiality of students so that responses cannot be associated with individual youth. Suppressed responses are not reported in data tables or in charts. When three or fewer students report a behavior or attitude, responses are indicated by “-” in the data tables and charts. In addition, when all or almost all students (within 3 of the total sample) report a behavior or attitude, responses are indicated by “+” in the data tables and charts. There are times when student responses are suppressed within sub-populations (i.e. grade and gender) but are totaled in the “All” category. This will occur when the number within a sub-population is less than three, but across grades and/or gender is large enough that confidentiality does not need to be protected.

### **Honesty and Data Validity**

In general, the majority of students complete most or all of the survey items and research has shown that most students answer honestly. However, sometimes students do not pay adequate attention or do not respond honestly to survey questions. Certain techniques are used to determine when survey responses are inconsistent or dishonest. For example, if a student indicates on one question that he or she has never used tobacco but on another question reports having smoked 10 cigarettes in the last 30 days, the answer will be considered to be inconsistent for the domain of substance use. Students whose responses are inconsistent within a domain are considered ‘missing’ and not included in calculations for that domain, but are included for all other domains. This procedure allows for the inclusion of students who inadvertently respond incorrectly to questions, but are not deliberately dishonest throughout the survey. Data may also be coded as missing if a student does not provide either their age or grade. Students whose responses are inconsistent across three or more domains are considered ‘dishonest’ and removed entirely from the sample. Students are also excluded from the sample if they complete less than 25% of the entire survey. These steps are taken to ensure that the information presented in your report is an accurate reflection of self-reported youth behavior.

### **Response Rates**

High overall response rates are desirable for surveys because they help ensure that the data are representative of a given population (school or community) instead of only the students who complete the survey. There are several factors that influence how representative the data are of a particular school, district, or community. First, for a district or community level report, consider how many schools participated out of all the schools in your district/community. If all or almost all schools participated, then data are more likely to represent the entire population. If only a few schools participated, then data may only represent those particular schools.

Second, consider what percentage of students participated in the survey. In general, the higher the response rate, the more certain you can be that results reflect the behaviors and attitudes of the larger population instead of just the students that took the survey. If you have a response rate over 80%, you can be very confident that results reflect the larger population (the entire school). As response rates decrease, data are considered less representative of the larger population. Response rates of less than 60% may not be able to be generalized to the larger population, and instead may be representative only of the students who participated in the survey.

Finally, examine the item level response rate. Even if overall response rates are high, it is possible that some students completing the survey did not respond to every question. The extent of missing data can influence the interpretation of the results. Therefore, the response rate for each item is provided in the data tables. Similar to the explanation above, if the item response rate is above 80%, the results for that item can be more confidently interpreted as representative of the larger student population, whereas response rates of less than 60% may only be representative of the students who responded to that particular item.

## **Section III**

# **Demographics**

*Schools Included in Report*

District	School	Percentage of Report Sample
GUNNISON WATERSHED RE1J		100.0%
	CRESTED BUTTE COMMUNITY SCHOOL	32.8%
	GUNNISON HIGH SCHOOL	32.8%
	GUNNISON MIDDLE SCHOOL	34.4%
<b>Total Report Sample Percent</b>		<b>100%</b>

**Demographics and Data Quality - The response rate for Gunnison Watershed Re1J = 89.4%**

Demographic	Number (N)	N / Total Sample	CDE Enrollment*	CDE N / CDE Enrollment
Total	777	100%	869	100%
Female	376	48.4%	418	48.1%
Male	401	51.6%	451	51.9%
6th Grade	132	17%	146	16.8%
7th Grade	139	17.9%	144	16.6%
8th Grade	121	15.6%	132	15.2%
9th Grade	95	12.2%	108	12.4%
10th Grade	96	12.4%	105	12.1%
11th Grade	112	14.4%	133	15.3%
12th Grade	82	10.6%	101	11.6%
Hispanic or Latino	106	13.6%	114	13.1%
American Indian or Alaska Native	33	4.2%	7	.8%
Asian	9	1.2%	4	.5%
Black or African American	5	.6%	N/A	N/A
Native Hawaiian or Other Pacific Islander	6	.8%	1	.1%
White	629	81%	722	83.1%
Multi-ethnic	29	3.7%	21	2.4%

All data are based only on participating schools

\*Enrollment numbers from the Colorado Department of Education (CDE), October 2012 Pupil Membership. Enrollment numbers reflect all students in grades 6-12.

**This table can be used to better understand the demographic composition of students who took the survey compared to the overall population of their school(s).**

**1) Survey response rate from your school(s).**

The response rate listed at the top of this page is equal to the total number of students that took the survey divided by the total number of students enrolled at the school(s). As noted in the introduction, the higher the response rate, the more representative your data are of the larger school(s) population. Reports with response rates of less than 60% reflect only the students that took the survey and not the larger school(s) population.

**2) The demographic composition of the students from your school(s) who took the survey.**

The two left hand columns show the total number of students who took the survey, and the demographic composition of these students. This allows you to better understand the grade, gender and race/ethnic breakout of survey respondents.

**3) The demographic composition of the larger school(s) total population.**

The data in the two right hand columns shows the overall school(s) enrollment according to CDE. Similarly, these data can be used to understand the demographic composition of the school(s) as a whole.

**4) How each demographic group that took the survey compares to the number of students in that group that are enrolled in your school(s).**

To better understand how students that took the survey compare to the larger student population from the school(s), compare the Sample % with the Enrollment %. Comparing these two percentages can help to judge the quality of your data (e.g., how well it represents the school population). For example, if your school attempted to conduct a full census, you would want Sample %s for each demographic group to be close to the percentage reported in the overall enrollment column in order to accurately reflect that demographic group. Finally, you can also compare the number of students that took the survey within each demographic group to the total number of students in that group overall. Therefore, if 50 females took the survey and there are a total of 100 females enrolled at your school(s), then 50% of the female students participated in the survey.

**Demographics**

What is the language you use most often at home?	N: 761
	Response Rate: 97.9%

Response	Sex	Grade							
		Total	6th	7th	8th	9th	10th	11th	12th
English	Total	91%	92%	92%	89%	94%	90%	94%	89%
	Female	93%	94%	92%	92%	+	+	+	88%
	Male	90%	91%	92%	86%	94%	86%	93%	89%

Data are suppressed to ensure confidentiality when the number of students responding is within three (3) of having a response rate of 0% [indicated by a dash (-)] or 100% [indicated by a plus (+)]. All percentages are based on true totals that include confidential data. All percentages are rounded to the nearest integer.

## **Section IV Survey Results**

# Substance Use

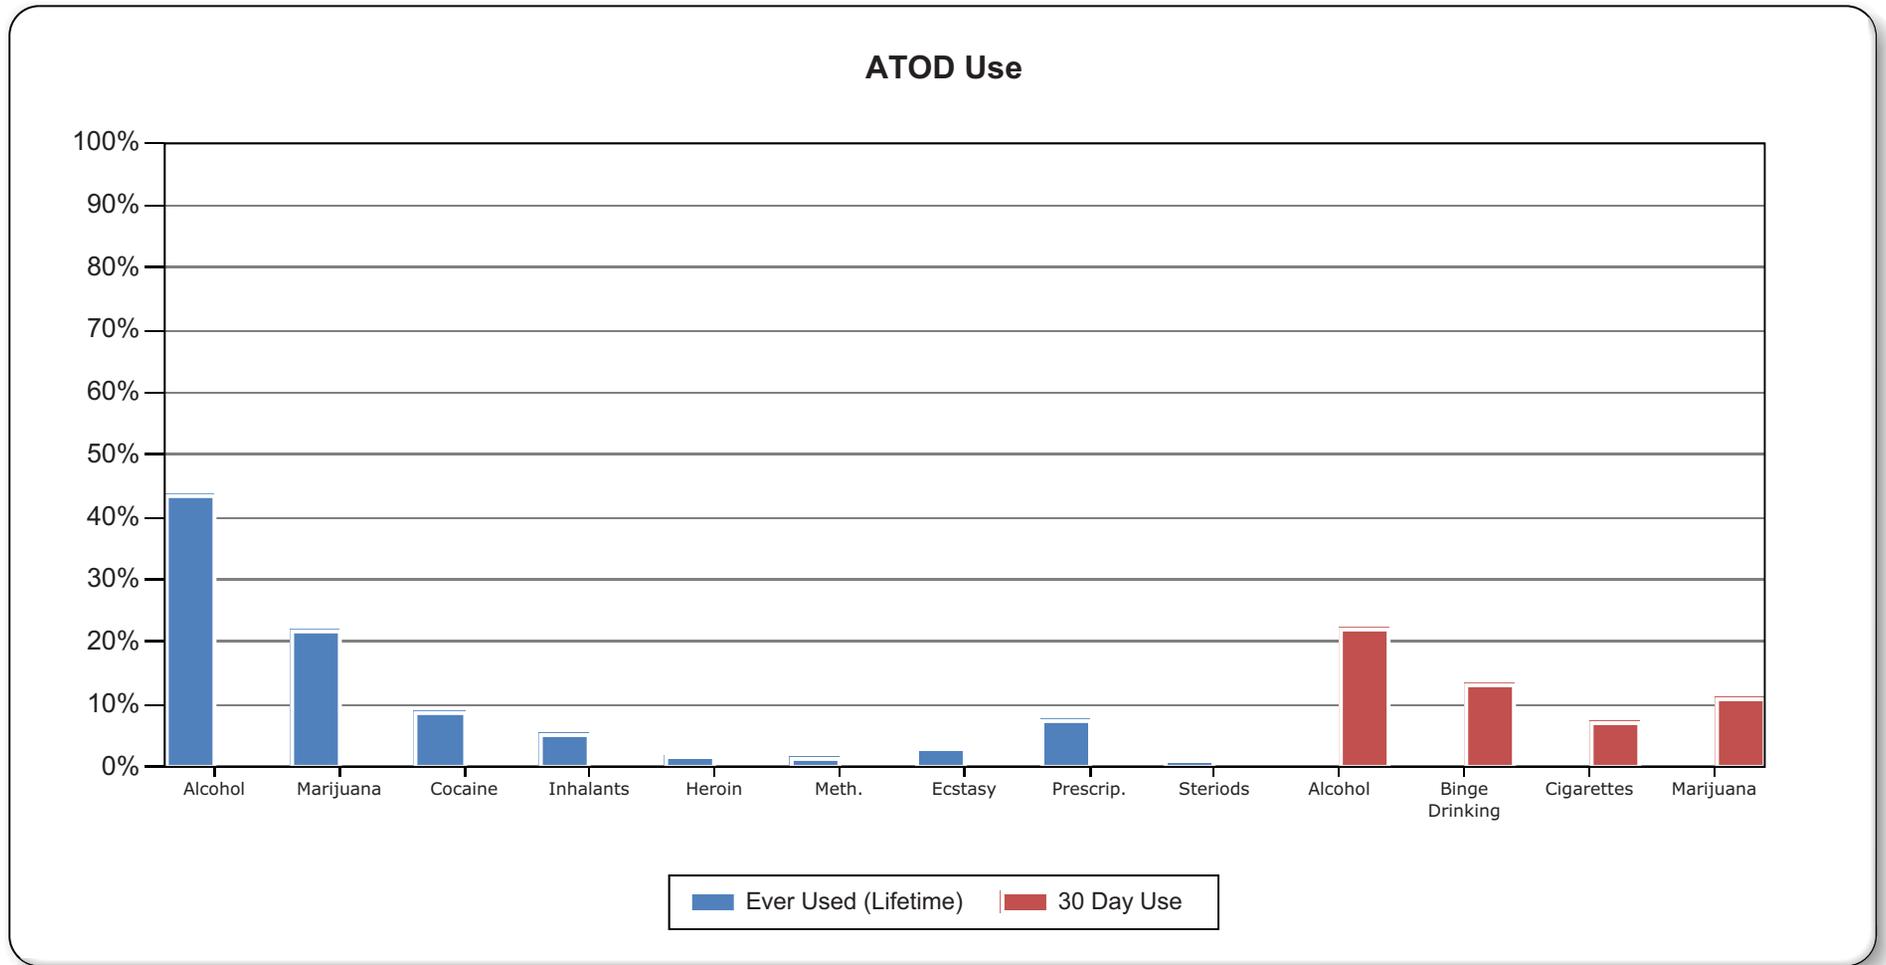

Substance Use

Data may not be graphed to ensure confidentiality. An "S-" will appear in any case where there are three (3) or fewer respondents. An "S+" will appear in cases where the number of respondents is within three (3) of the total number of participants.

**Substance Use**

**Grade: All**

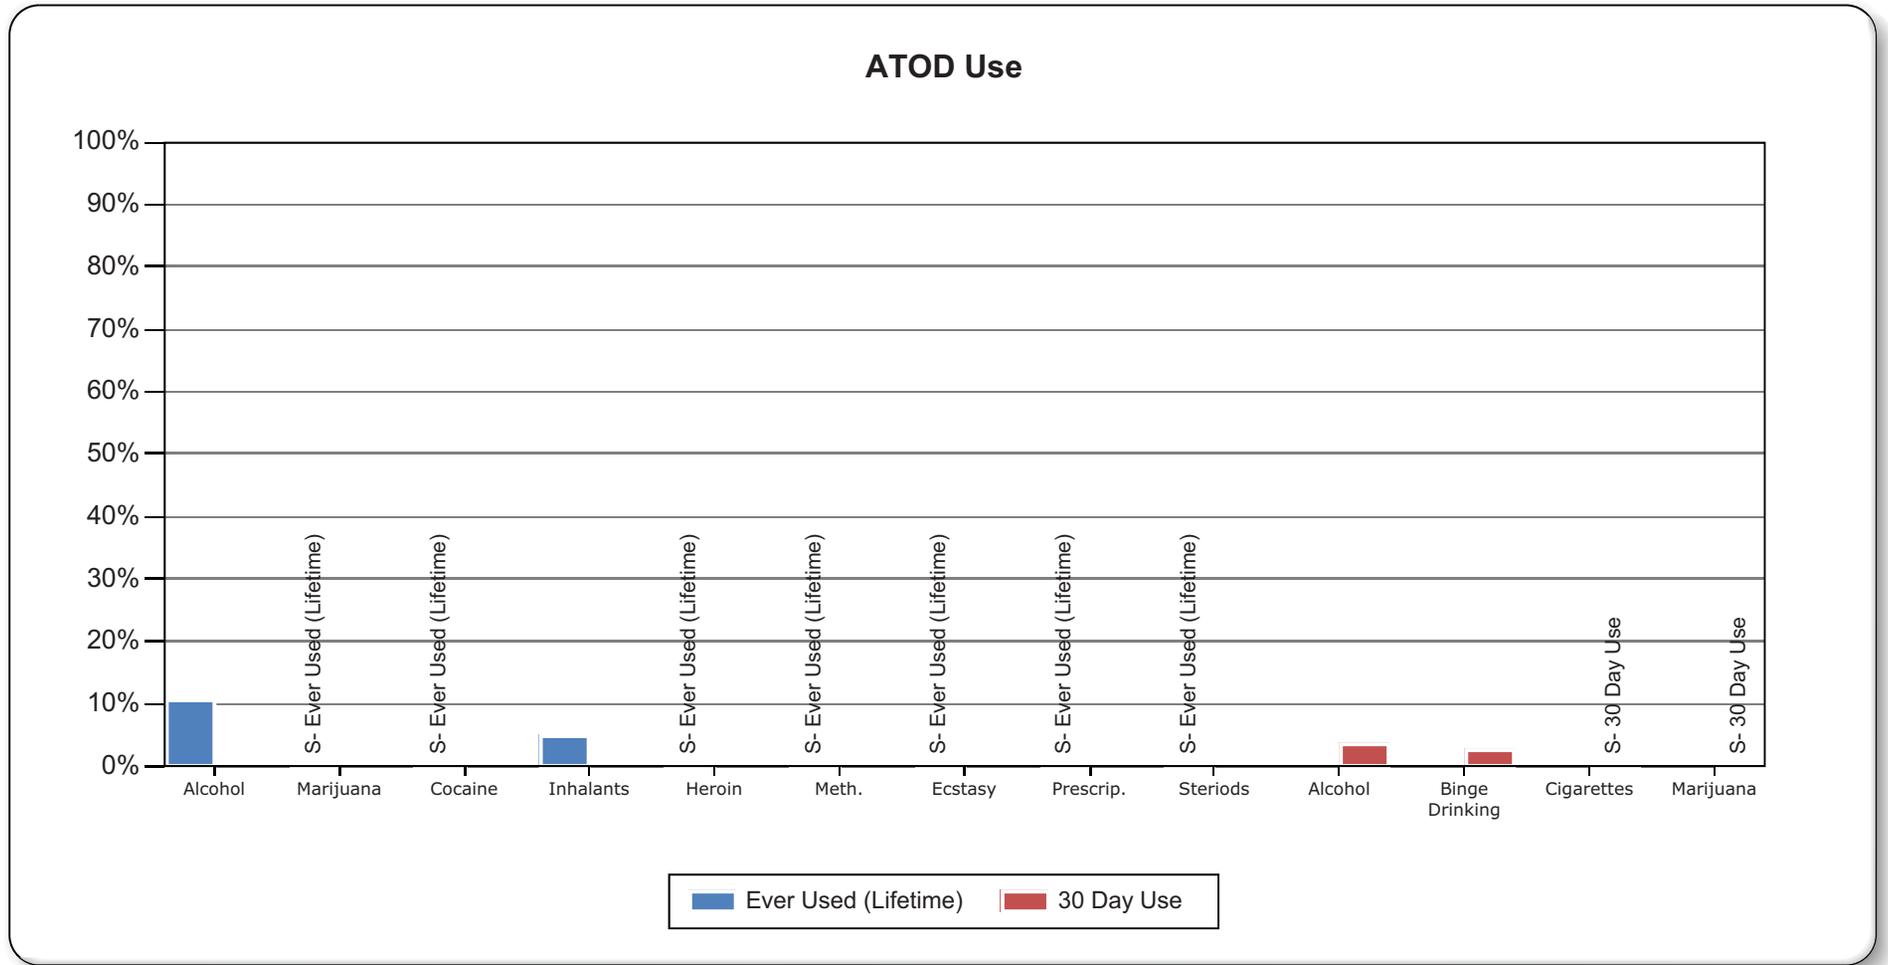

The "Ever Used (Lifetime)" section of the chart shows the percentage of students who reported using the substance at least once in their lives. The "30-day Use" section shows the percentage of students who reported using the substance at least once in the past 30 days.

The questions regarding lifetime use of cocaine, heroin, and steroids are only asked on the high school version of the survey. Percentages for these three substances are based only on the 9th-12th grade students who responded to these questions. Grades 6-8 will display as suppressed for these substances.

Substance Use

Grade: 6

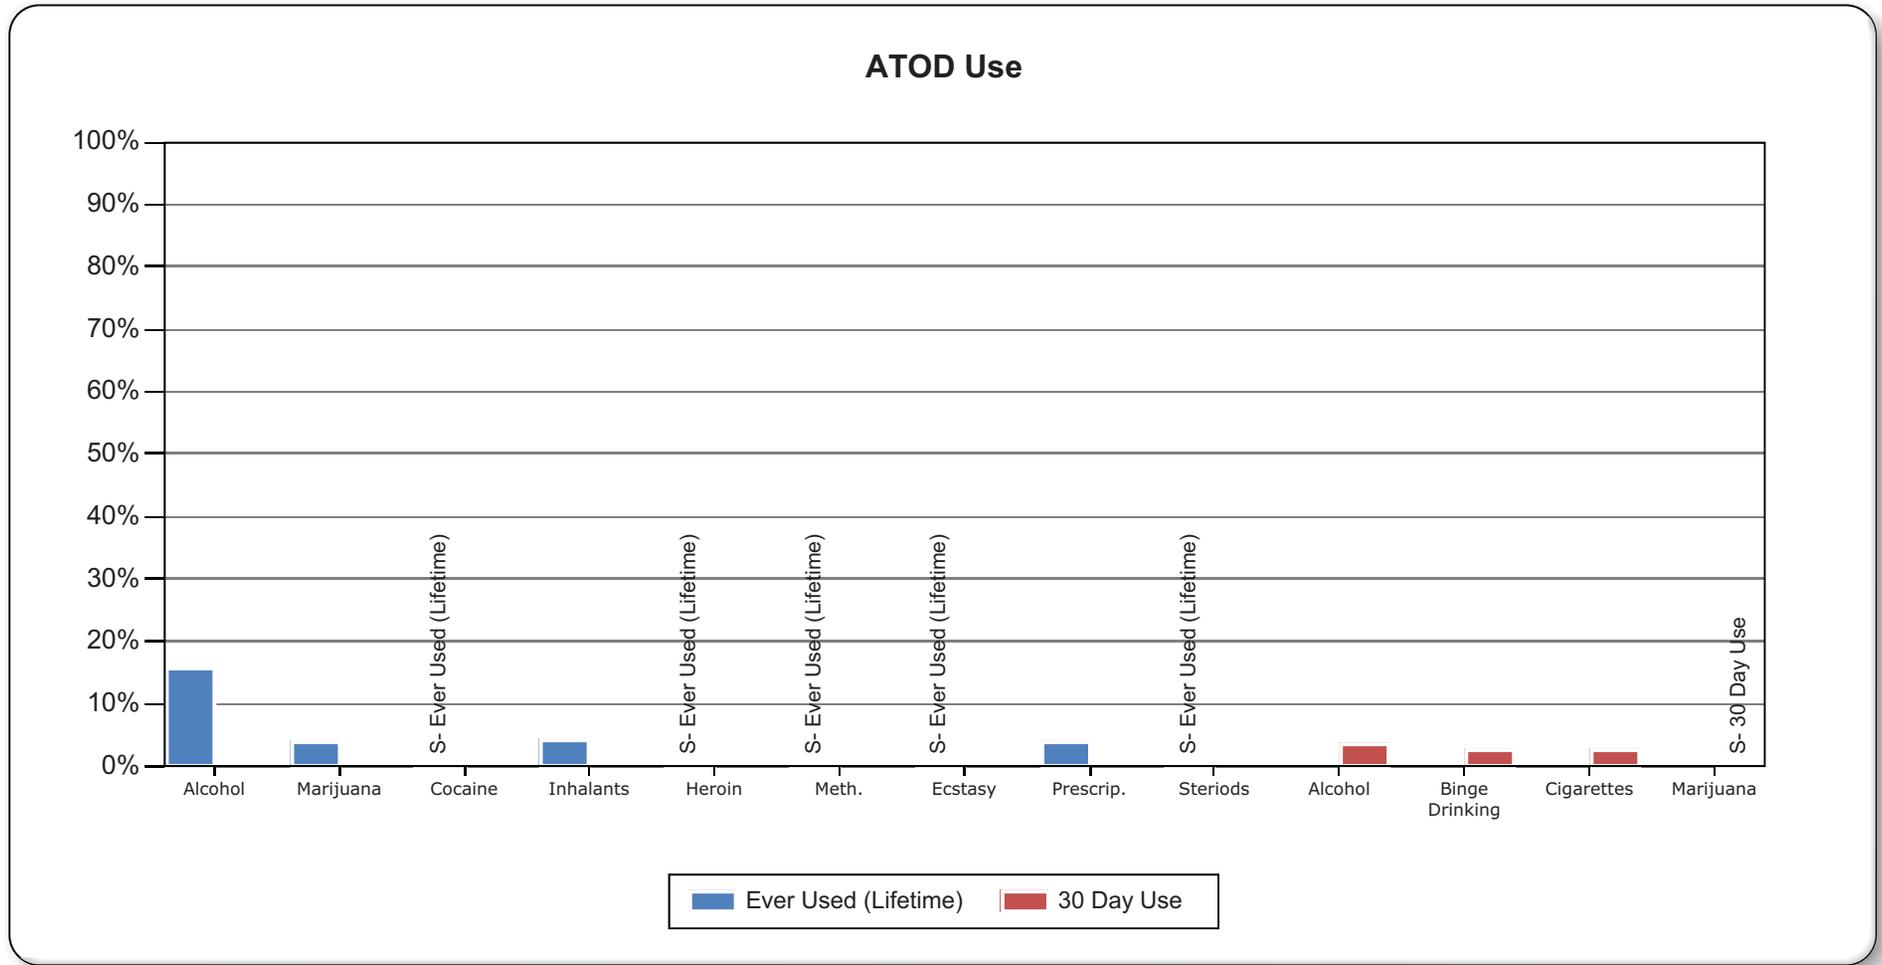

The "Ever Used (Lifetime)" section of the chart shows the percentage of students who reported using the substance at least once in their lives. The "30-day Use" section shows the percentage of students who reported using the substance at least once in the past 30 days.

The questions regarding lifetime use of cocaine, heroin, and steroids are only asked on the high school version of the survey. Percentages for these three substances are based only on the 9th-12th grade students who responded to these questions. Grades 6-8 will display as suppressed for these substances.

Substance Use

Grade: 7

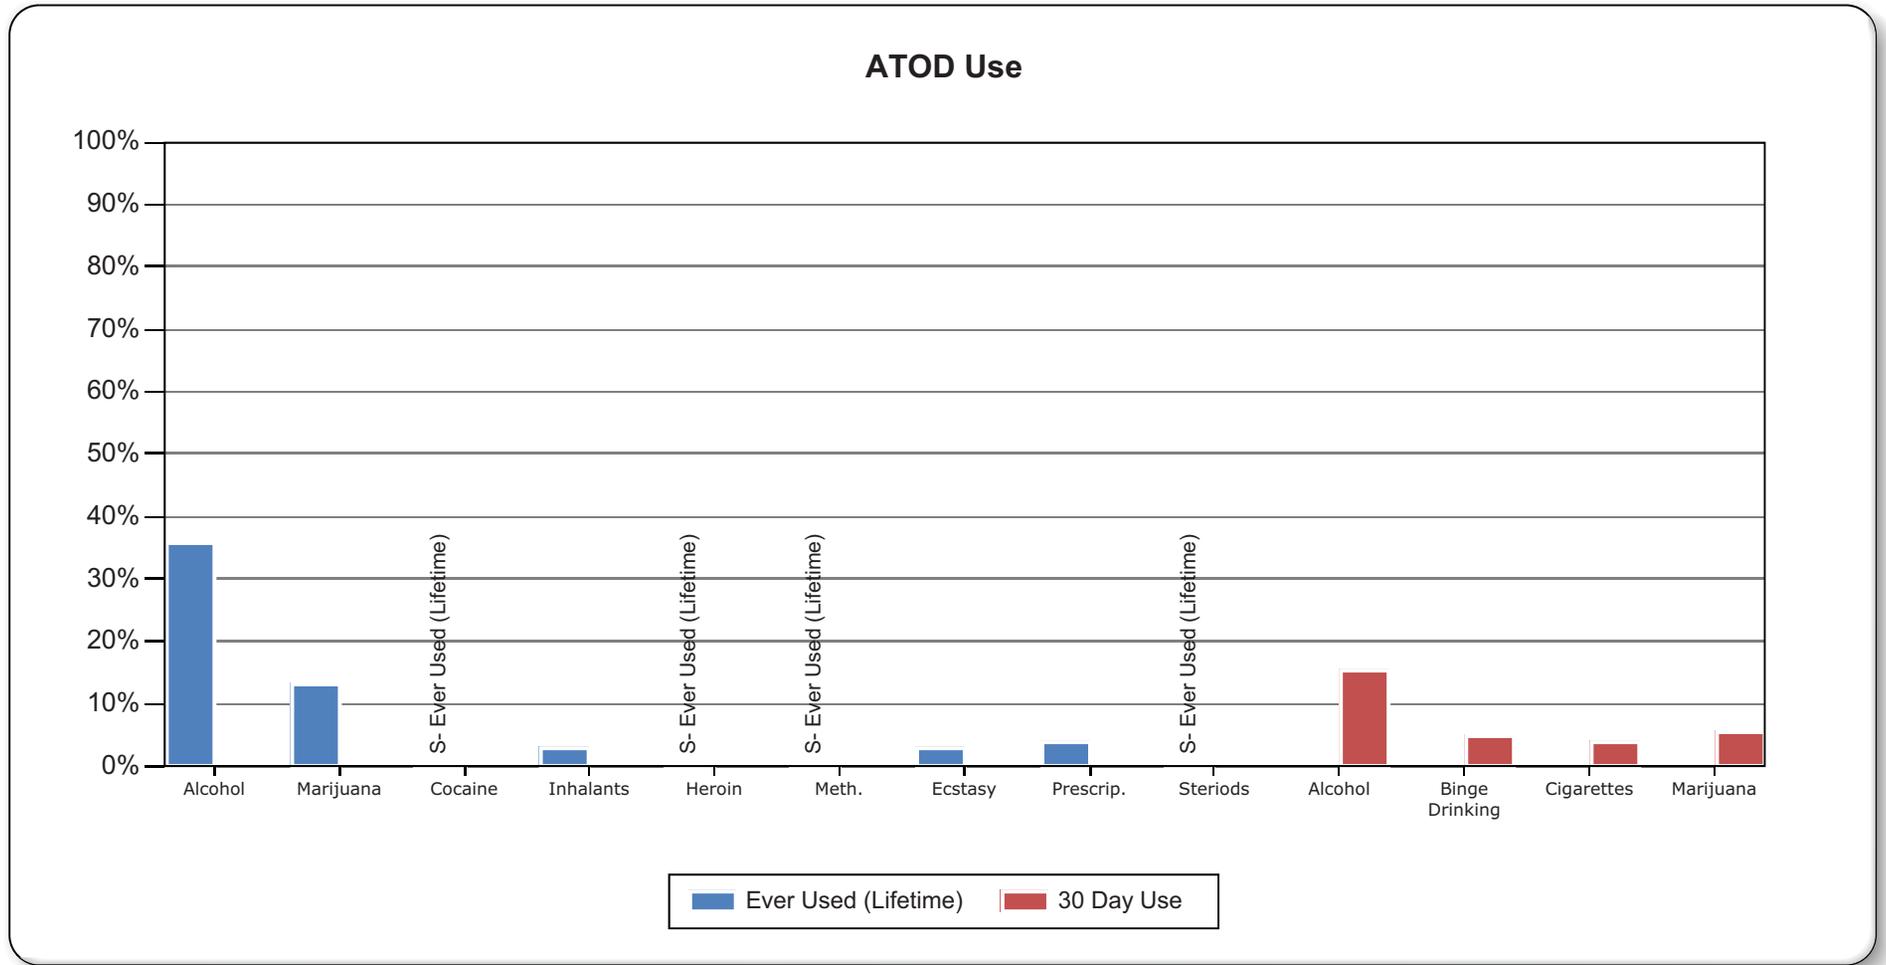

The "Ever Used (Lifetime)" section of the chart shows the percentage of students who reported using the substance at least once in their lives. The "30-day Use" section shows the percentage of students who reported using the substance at least once in the past 30 days.

The questions regarding lifetime use of cocaine, heroin, and steroids are only asked on the high school version of the survey. Percentages for these three substances are based only on the 9th-12th grade students who responded to these questions. Grades 6-8 will display as suppressed for these substances.

Substance Use

Grade: 8

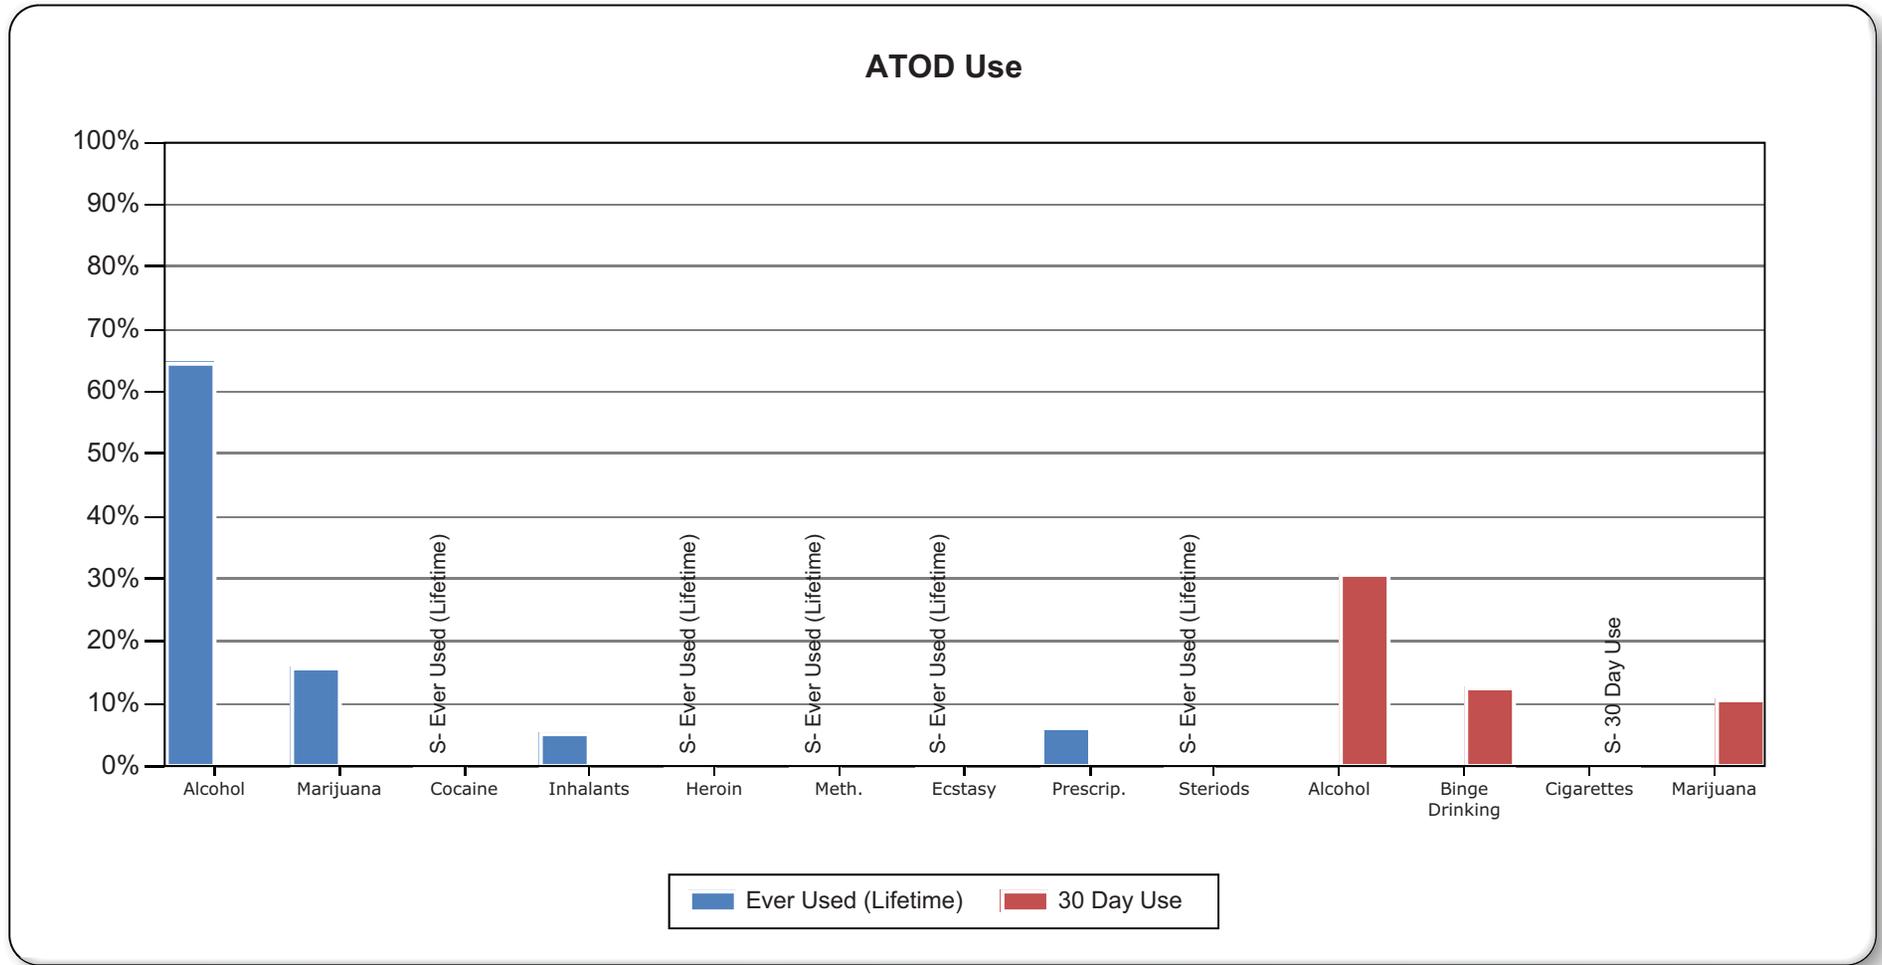

The "Ever Used (Lifetime)" section of the chart shows the percentage of students who reported using the substance at least once in their lives. The "30-day Use" section shows the percentage of students who reported using the substance at least once in the past 30 days.

The questions regarding lifetime use of cocaine, heroin, and steroids are only asked on the high school version of the survey. Percentages for these three substances are based only on the 9th-12th grade students who responded to these questions. Grades 6-8 will display as suppressed for these substances.

Substance Use

Grade: 9

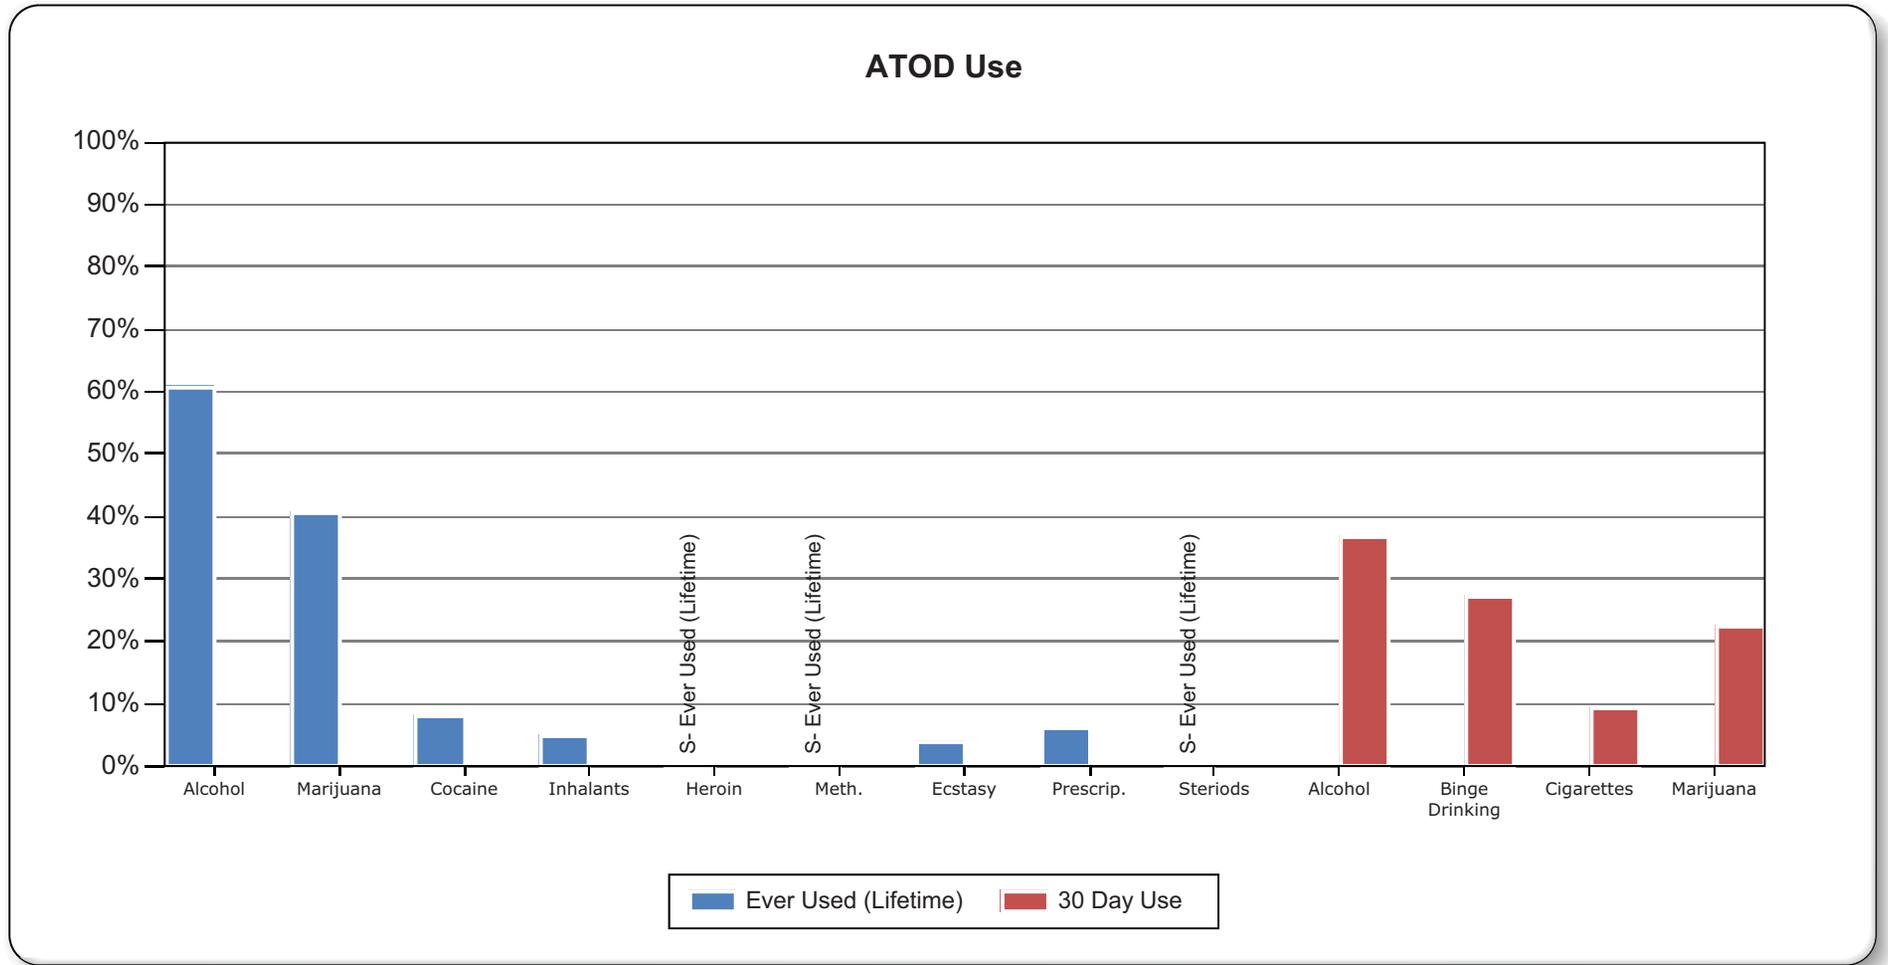

The "Ever Used (Lifetime)" section of the chart shows the percentage of students who reported using the substance at least once in their lives. The "30-day Use" section shows the percentage of students who reported using the substance at least once in the past 30 days.

Data may not be graphed to ensure confidentiality. An "S-" will appear in any case where there are three (3) or fewer respondents. An "S+" will appear in cases where the number of respondents is within three (3) of the total number of participants.

Substance Use

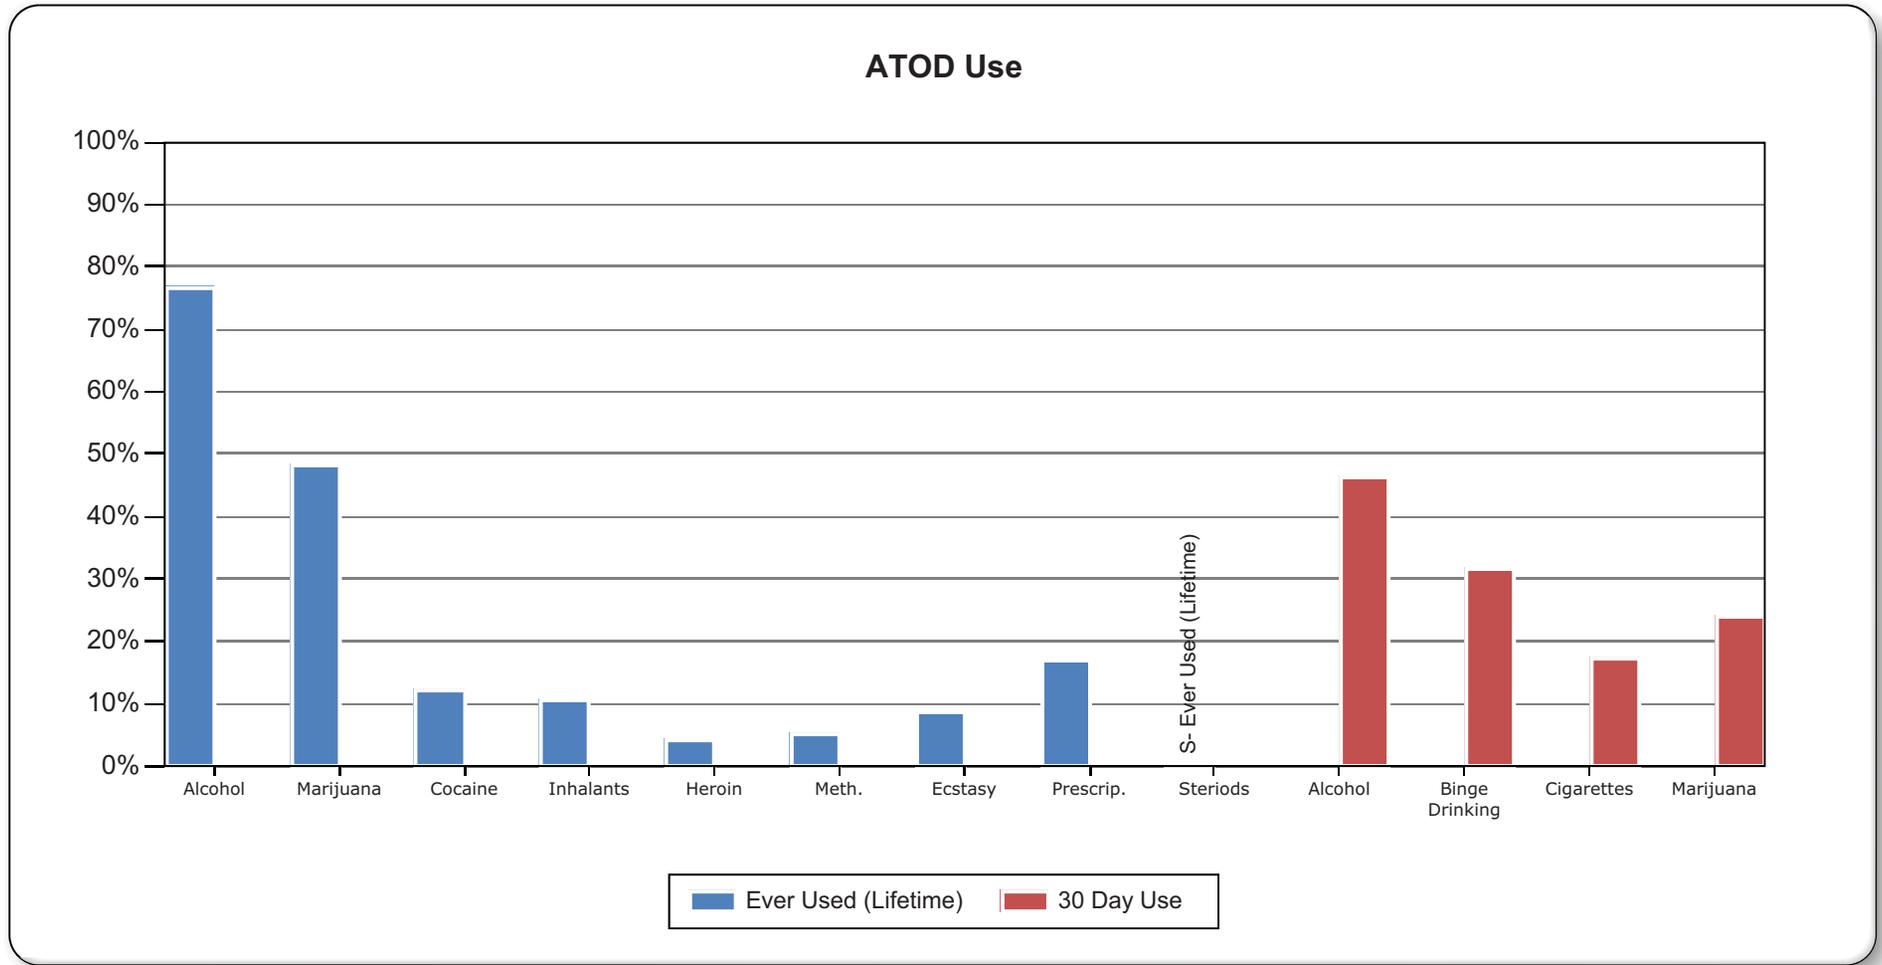

Grade: 10

The "Ever Used (Lifetime)" section of the chart shows the percentage of students who reported using the substance at least once in their lives. The "30-day Use" section shows the percentage of students who reported using the substance at least once in the past 30 days.

Substance Use

Grade: 11

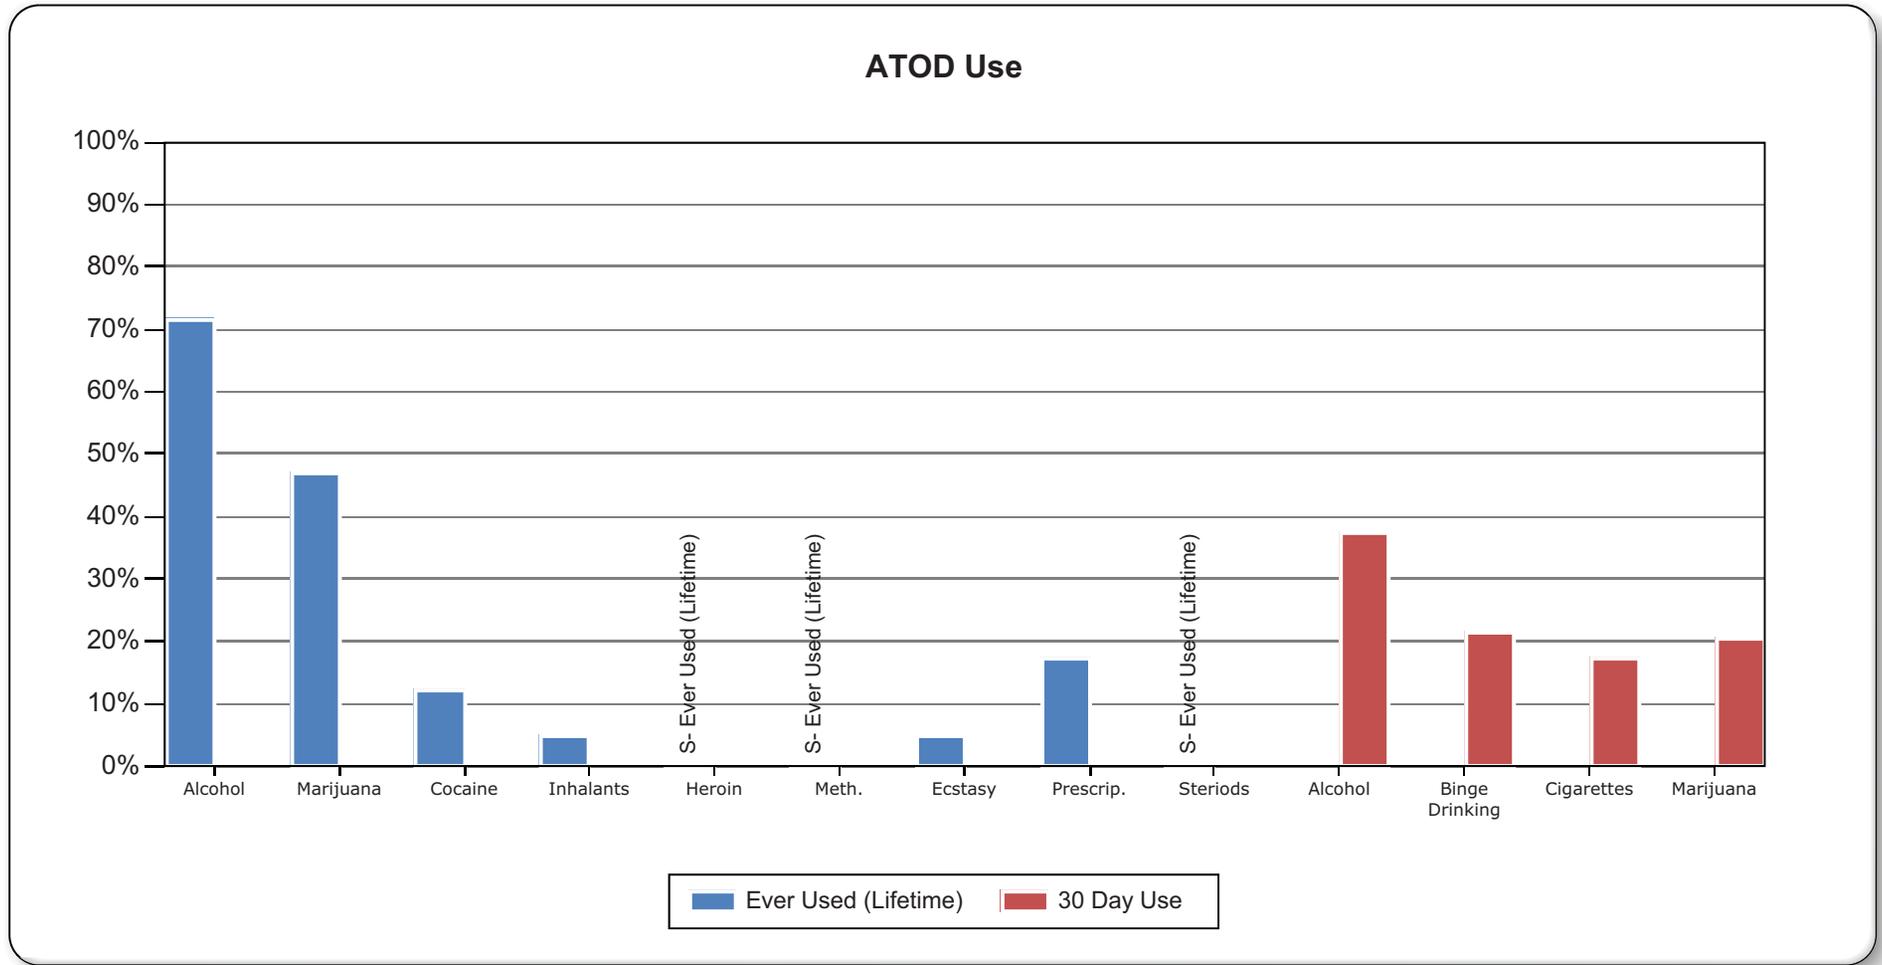

The "Ever Used (Lifetime)" section of the chart shows the percentage of students who reported using the substance at least once in their lives. The "30-day Use" section shows the percentage of students who reported using the substance at least once in the past 30 days.

Data may not be graphed to ensure confidentiality. An "S-" will appear in any case where there are three (3) or fewer respondents. An "S+" will appear in cases where the number of respondents is within three (3) of the total number of participants.

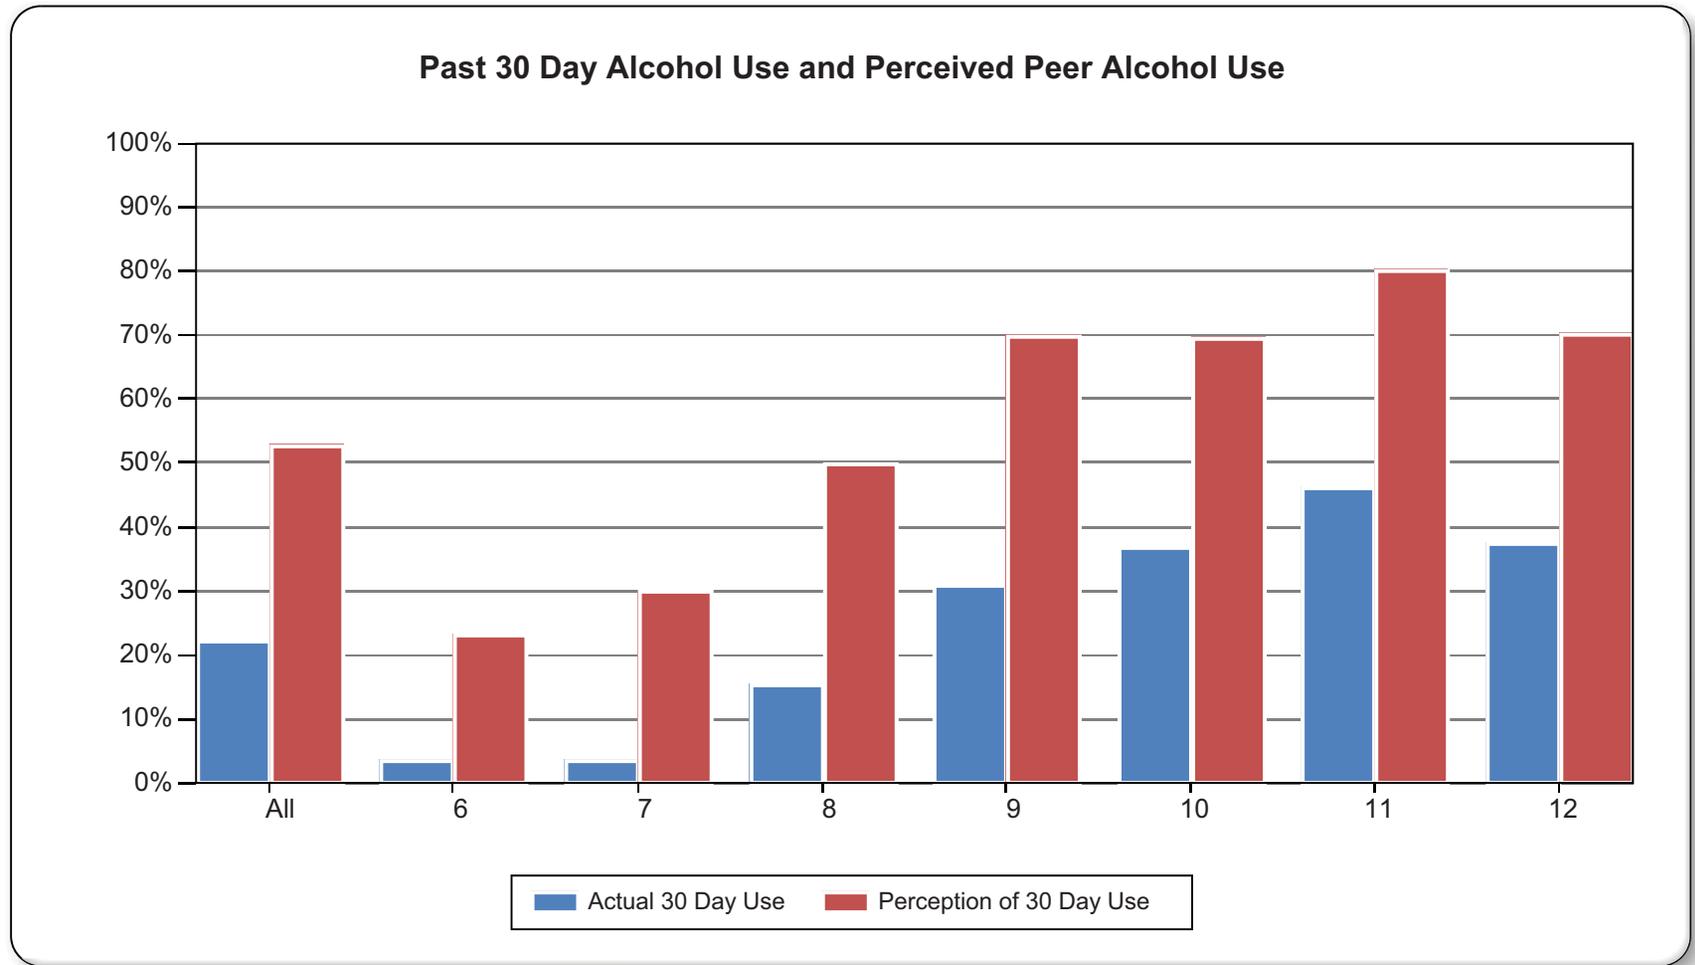

Substance Use

Grade: 12

The "Ever Used (Lifetime)" section of the chart shows the percentage of students who reported using the substance at least once in their lives. The "30-day Use" section shows the percentage of students who reported using the substance at least once in the past 30 days.

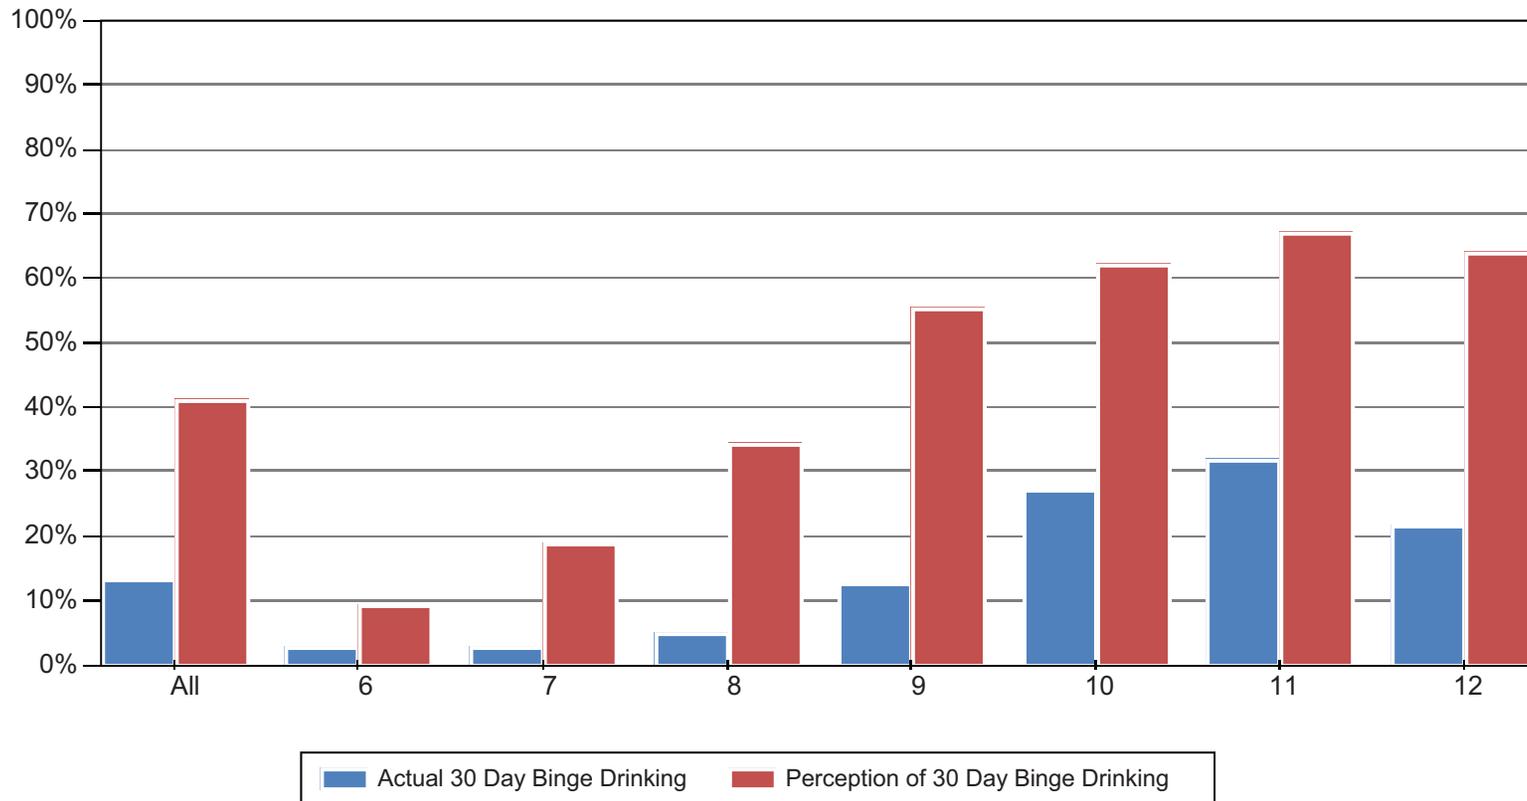

Substance Use

\*Perceived peer alcohol use represents responses for the question "During the past 30 days, on how many days do you think a typical student at your school drank alcohol?"

Substance Use

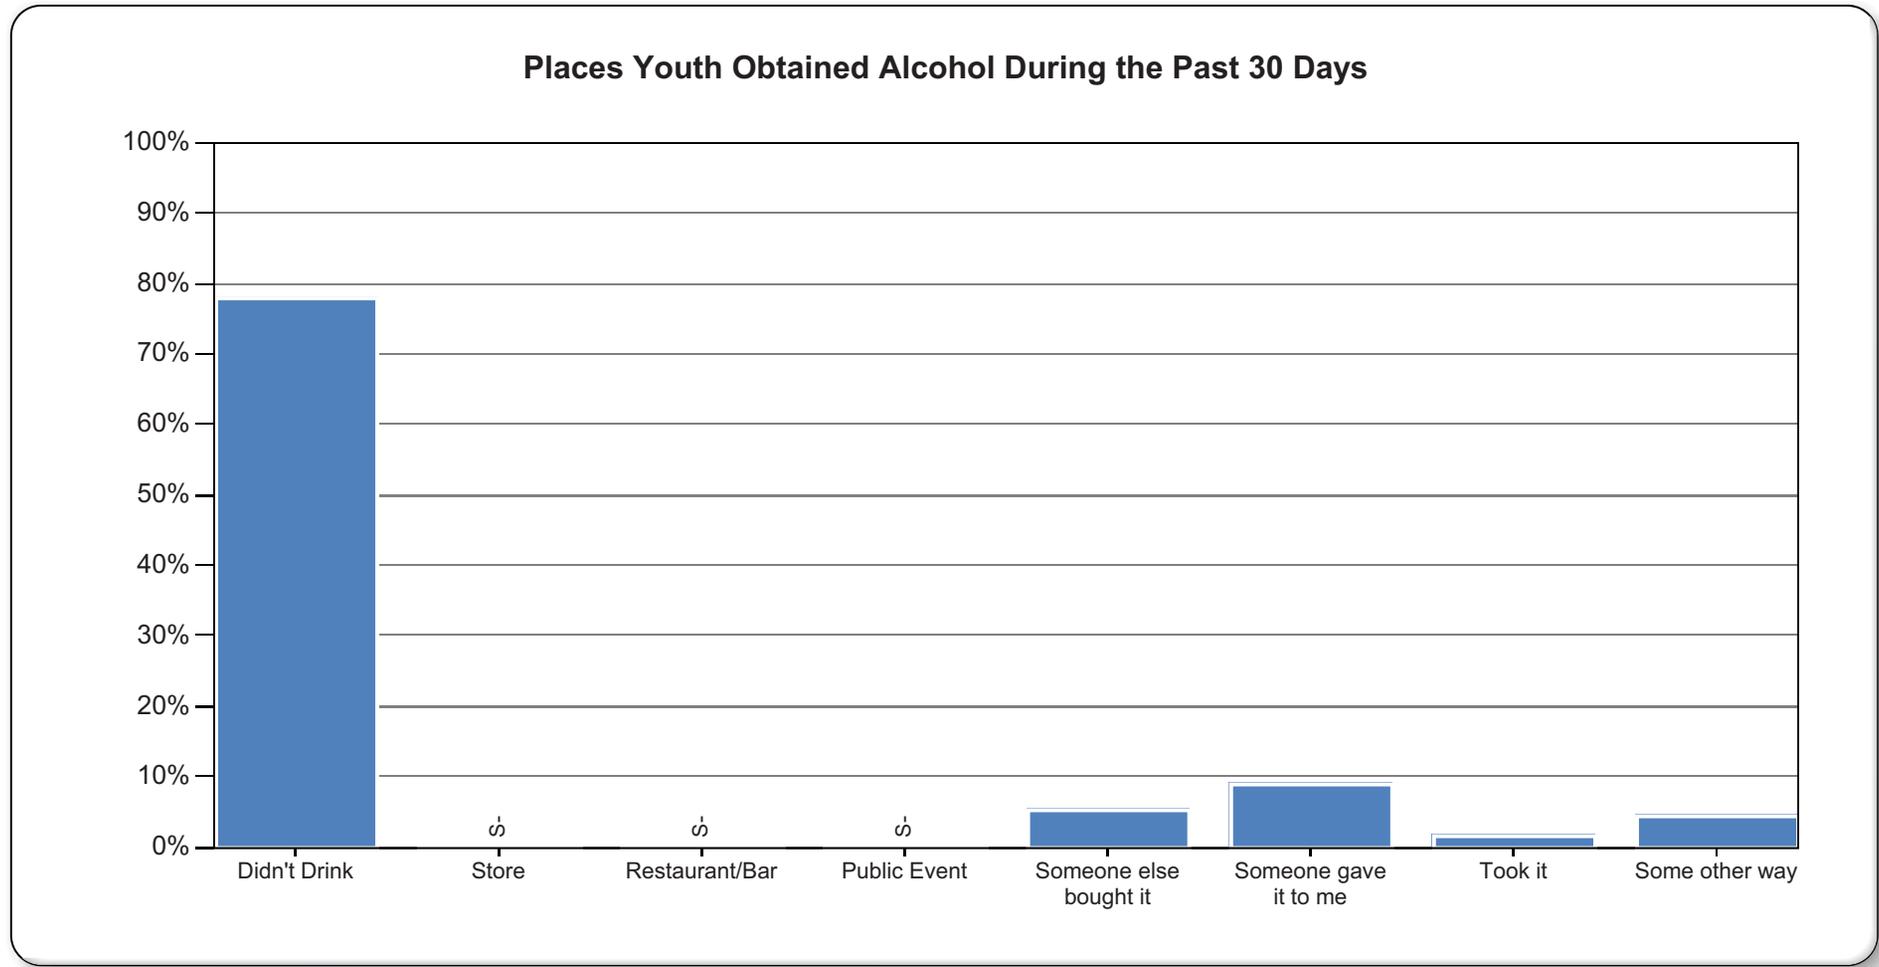

Past 30 Day Binge Alcohol Use and Perceived Peer Binge Alcohol Use

\*Perceived peer alcohol use represents responses for the question "During the past 30 days, on how many days do you think a typical student at your school had 5 or more drinks of alcohol?"

**Substance Use**

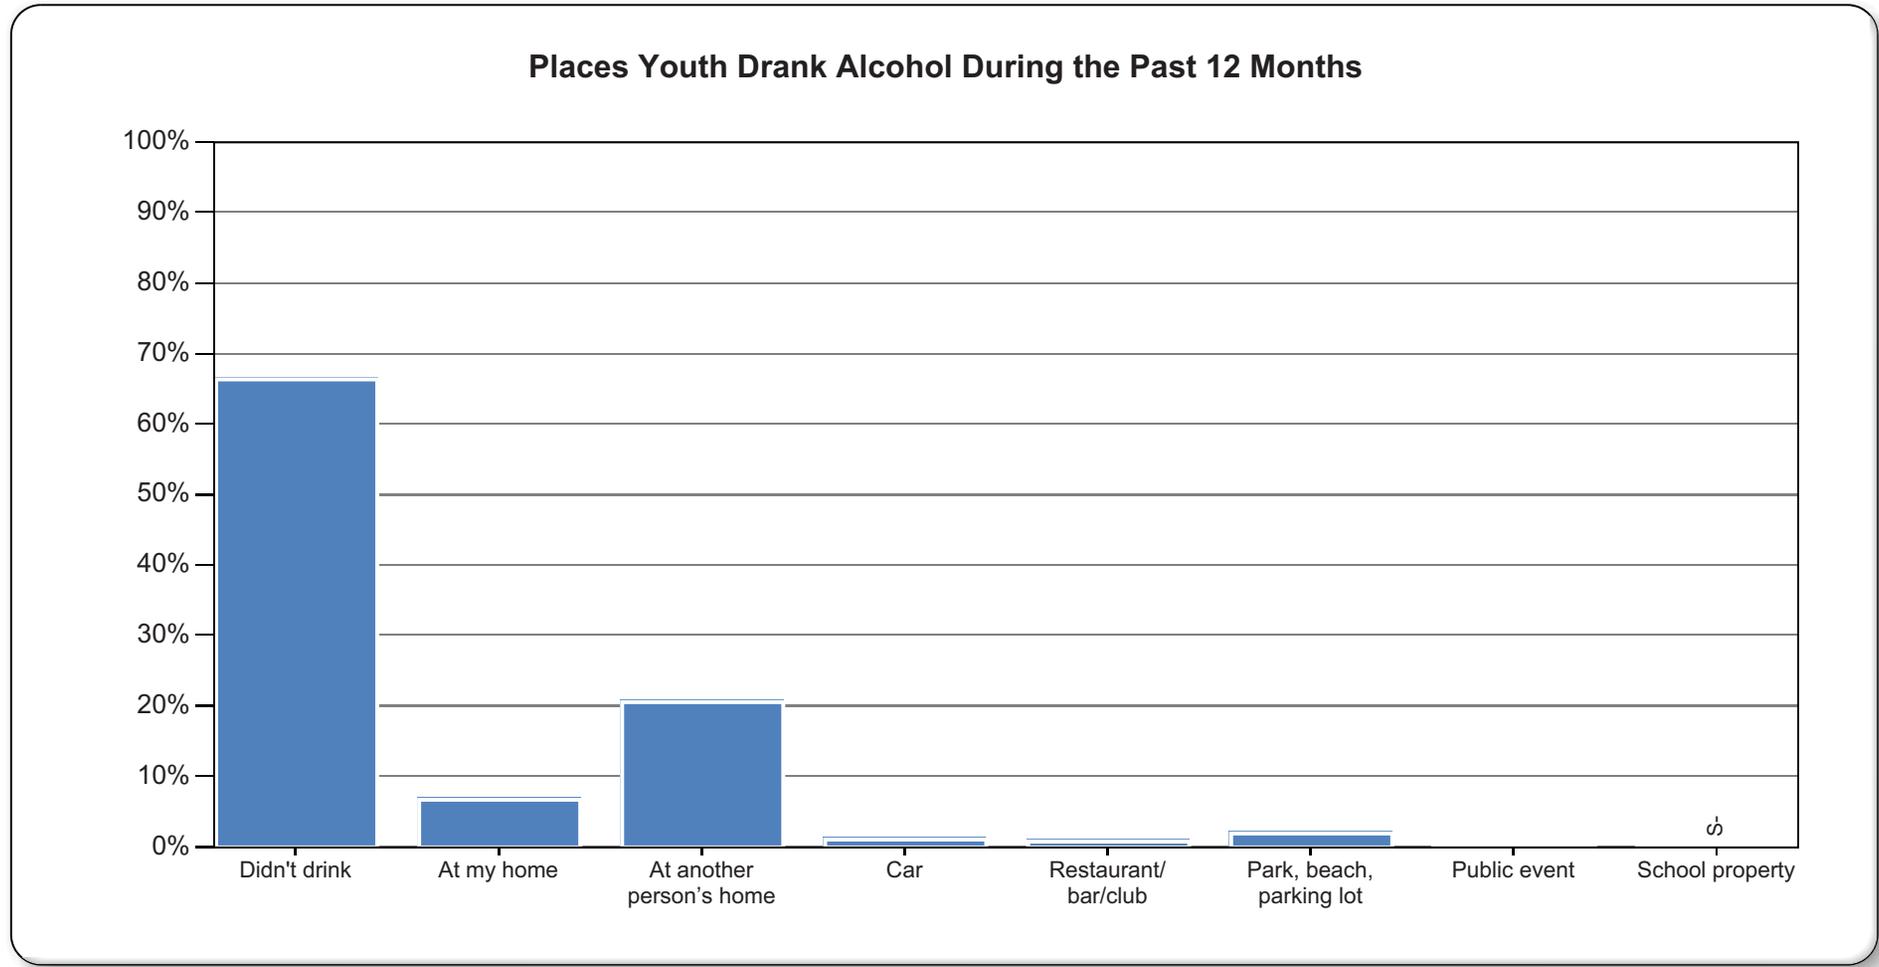

**Grade: All**

Data may not be graphed to ensure confidentiality. An "S-" will appear in any case where there are three (3) or fewer respondents. An "S+" will appear in cases where the number of respondents is within three (3) of the total number of participants.

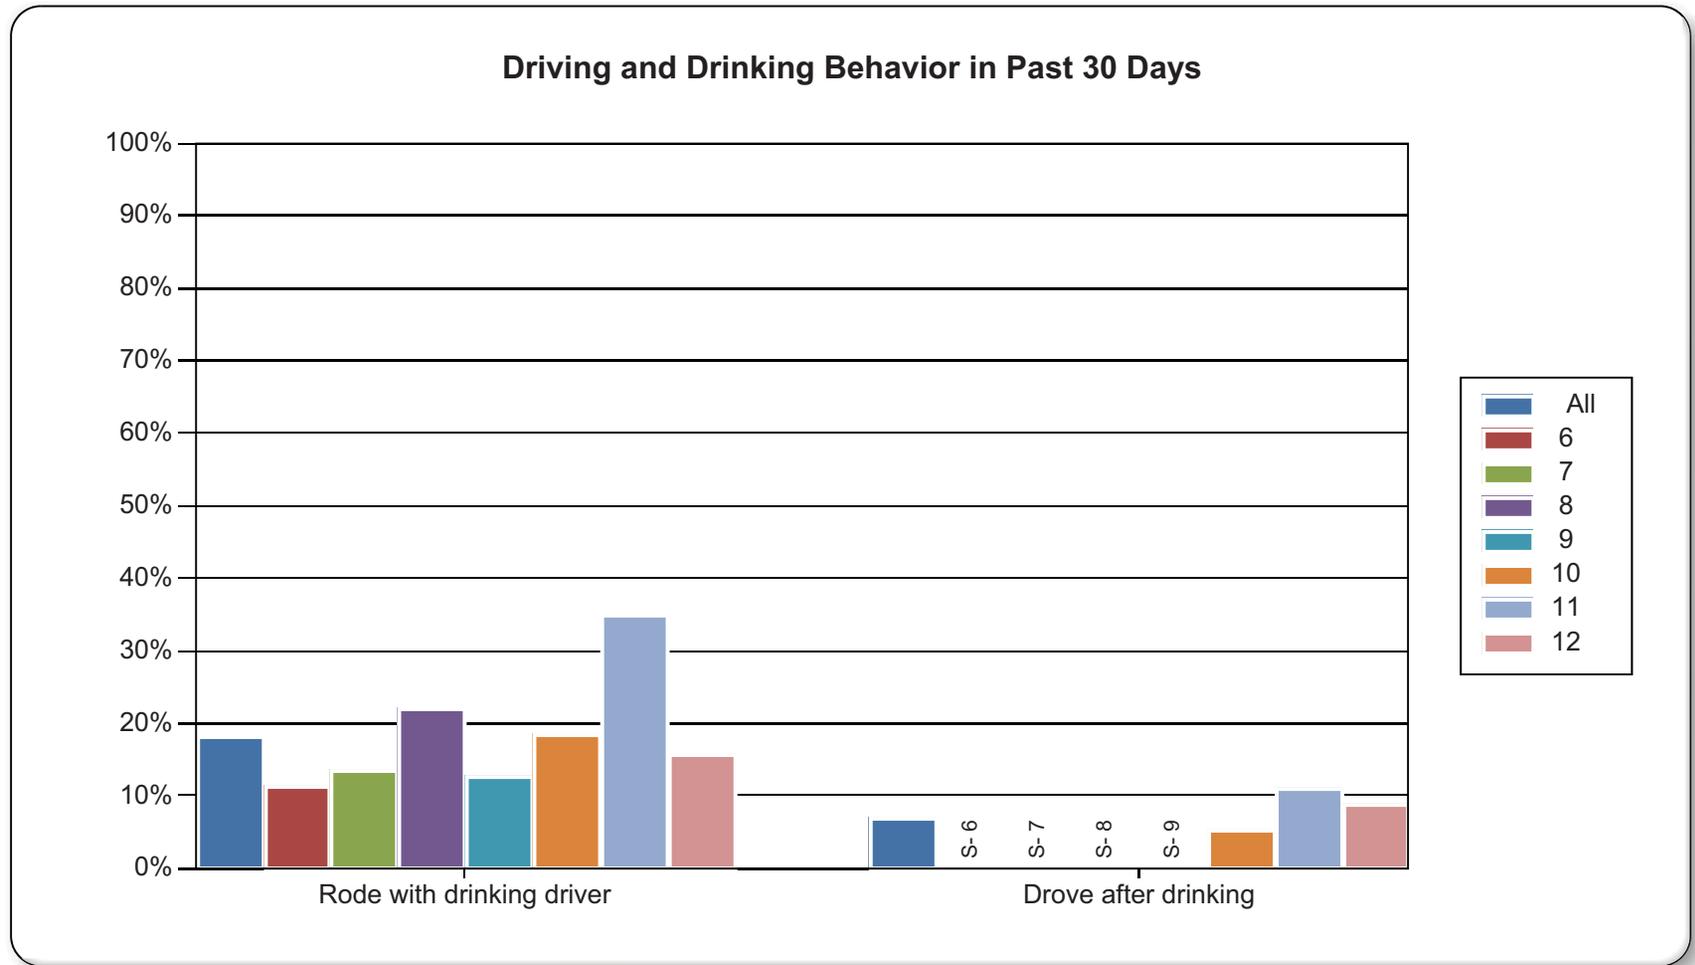

Substance Use

Grade: All

Data may not be graphed to ensure confidentiality. An "S-" will appear in any case where there are three (3) or fewer respondents. An "S+" will appear in cases where the number of respondents is within three (3) of the total number of participants.

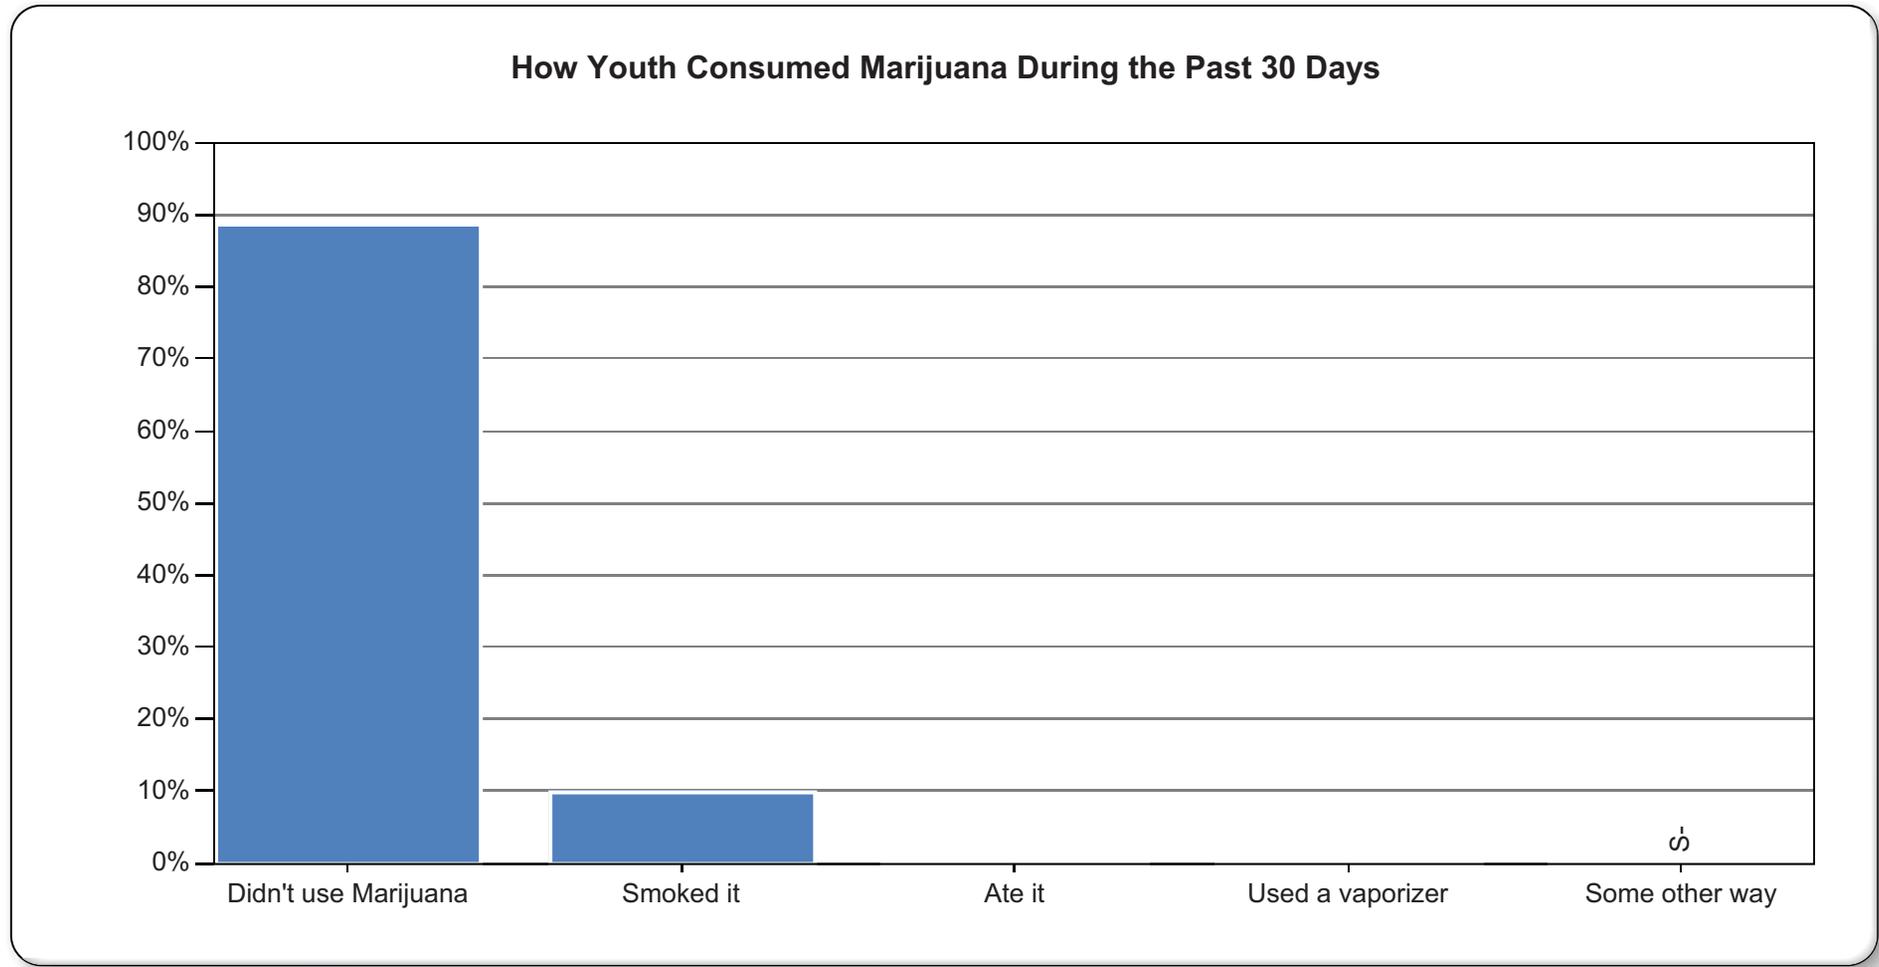

Substance Use

The question "During the past 30 days, how many times did you drive a car or other vehicle when you had been drinking alcohol?" is asked only on the high school version of the survey. Response rates are calculated based only on the number of 9th-12th grade students who participated. Grades 6-8 will display as suppressed for this question.

Substance Use

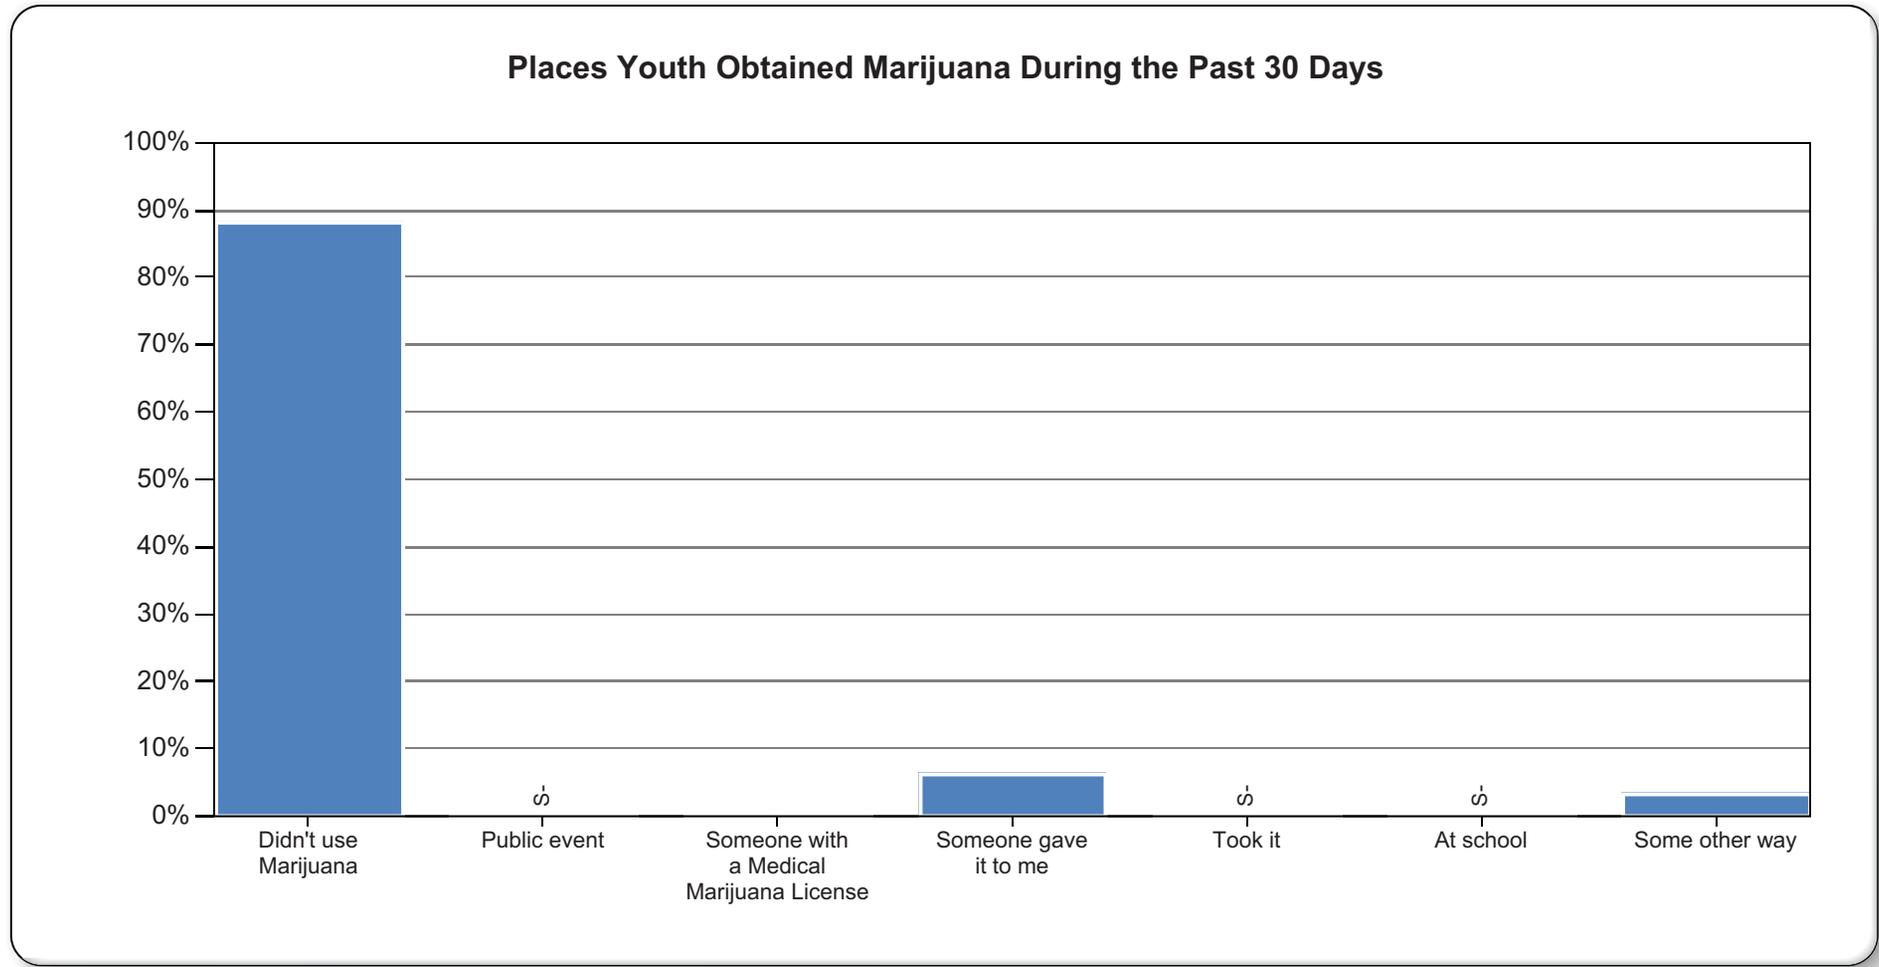

Grade: All

Data may not be graphed to ensure confidentiality. An "S-" will appear in any case where there are three (3) or fewer respondents. An "S+" will appear in cases where the number of respondents is within three (3) of the total number of participants.

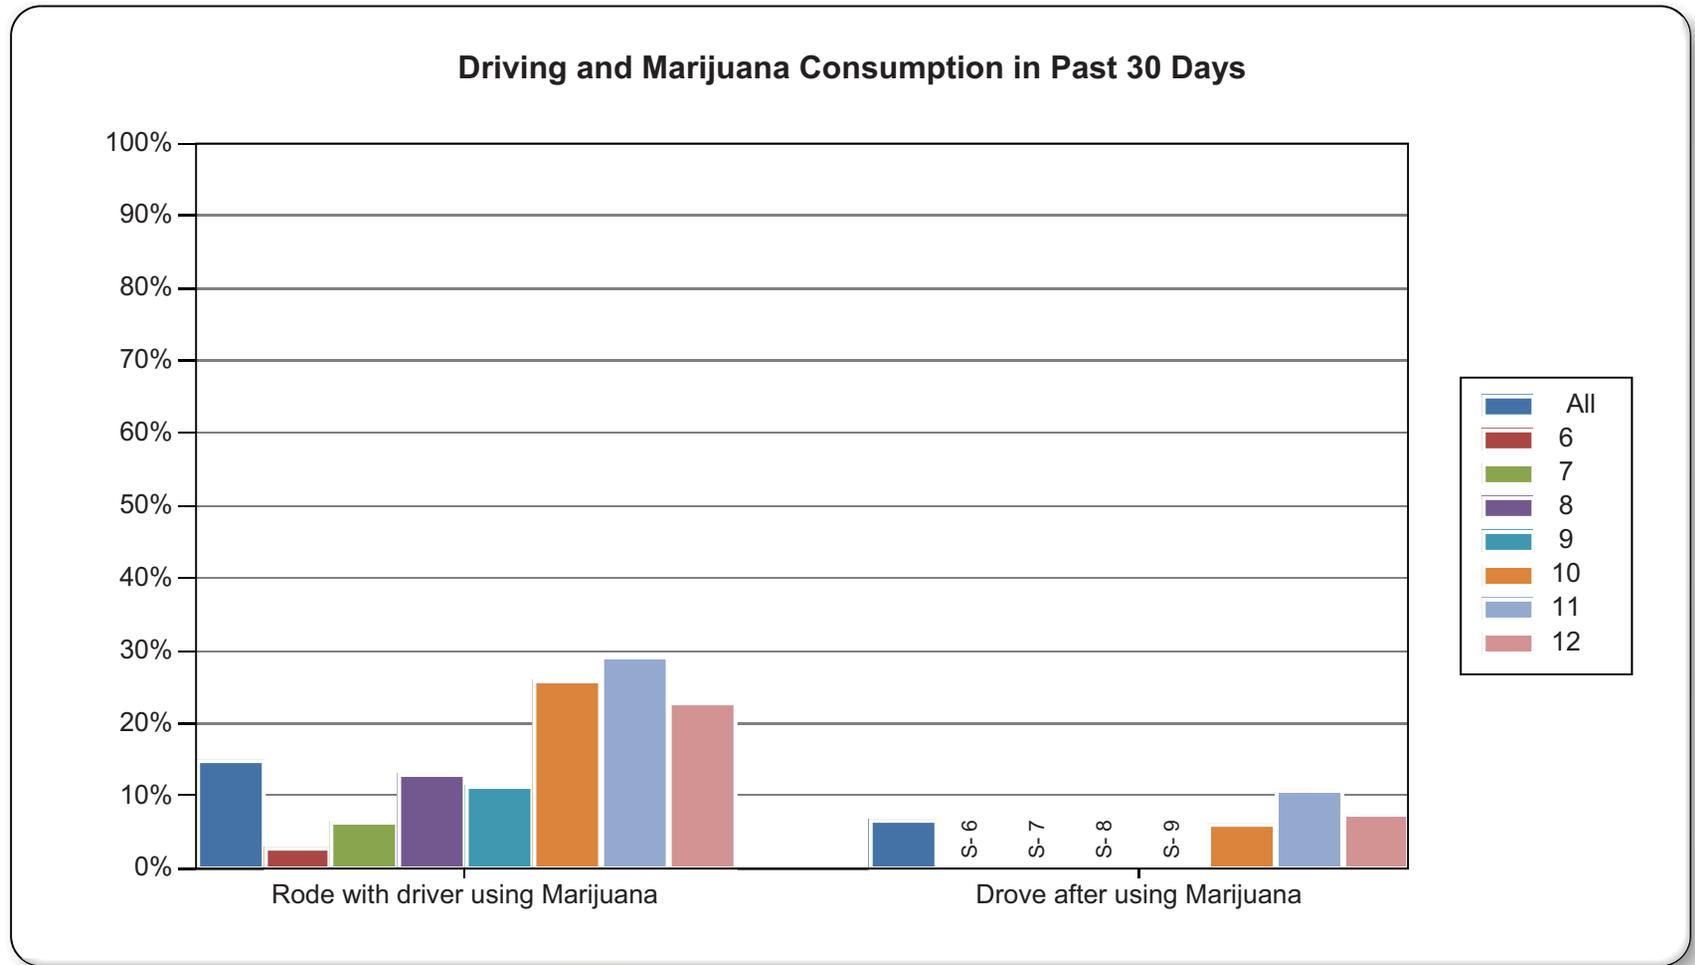

Substance Use

Grade: All

Data may not be graphed to ensure confidentiality. An "S-" will appear in any case where there are three (3) or fewer respondents. An "S+" will appear in cases where the number of respondents is within three (3) of the total number of participants.

Substance Use

The question "During the past 30 days, how many times did you drive a car or other vehicle when you had been using marijuana?" is asked only on the high school version of the survey. Response rates are calculated based only on the number of 9th-12th grade students who participated. Grades 6-8 will display as suppressed for this question.

**Substance Use - Alcohol**

During your life, on how many days have you had at least one drink of alcohol? N: 732  
Response Rate: 94.2%

Response	Sex	Grade								
		Total	6th	7th	8th	9th	10th	11th	12th

# Risk and Protective Factors

---

## Risk and Protective Factors

Risk and protective factors are scales that combine the responses from a set of variables to assess the likelihood of unhealthy and problem behaviors. The risk and protective factor scales on the HKCS are based on Hawkins and Catalano's Risk and Protective Factor framework, a well-known research model used nationally. **Risk factors** are characteristics of youth, their peers, and their environment (e.g. school, family, community) that if present, make it more likely that an individual will engage in problem behaviors. For example, youth who have peers who use substances are more likely to engage in substance use themselves. **Protective factors** are positive characteristics that buffer against the negative influences of risk. Protective factors such as strong bonding to family, positive peer interaction, and school engagement have been shown to reduce the likelihood that youth will participate in risky behaviors. These risk and protective factors are assessed in four different domains: community; school; family; and peer/individual.

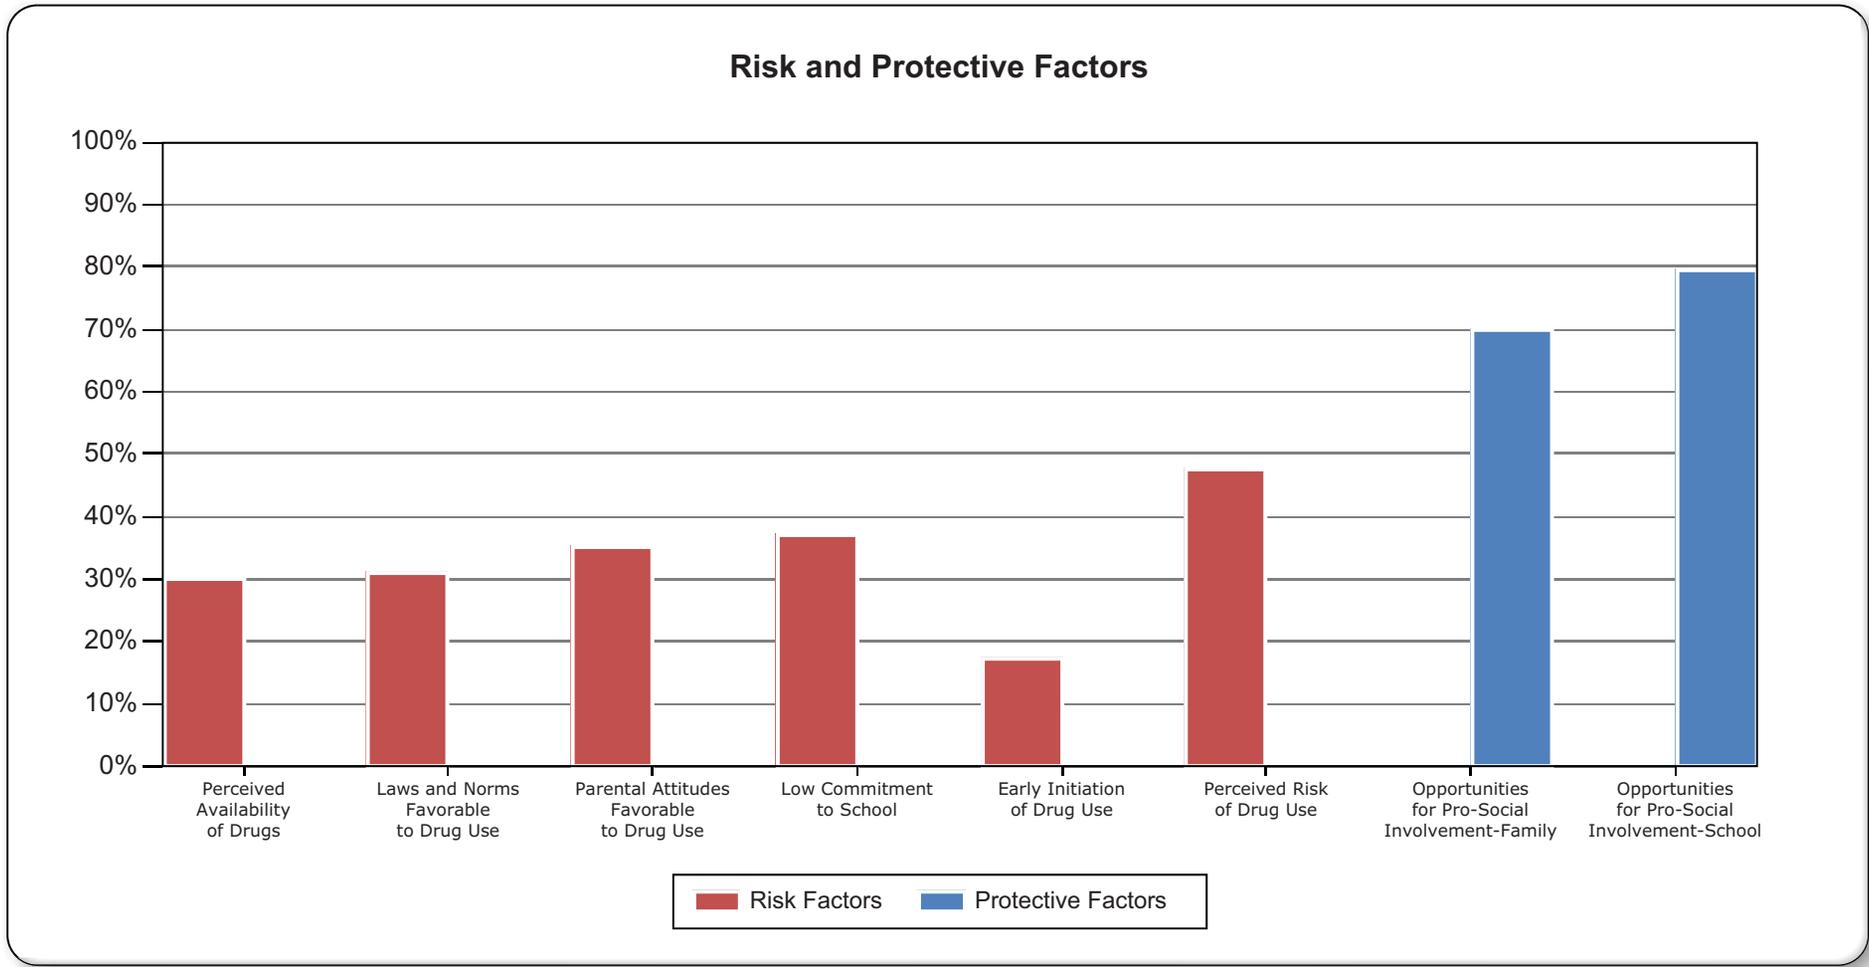

The HKCS includes six risk factor and two protective factor scales. Each factor scale is derived from a combination of scientifically-validated questions that measure the same underlying construct. For example, the risk factor scale labeled "Perceived Risk of Drug Use" includes 4 questions that ask how harmful it is to try different substances. These questions are then used to create a more robust profile of responses related to perceived risk of drug use. In order to create these scale scores, each student's mean score for each of the risk and protective factor scales is determined. From there, the distribution of all students' mean scores on each factor are examined and compared to a national cut-point (number used as a critical threshold for that factor). Students who are above the cut-point for a risk factor are more likely to engage in risky behavior. Students who are above the cut-point for protective factors are less likely to engage in risky behavior. The graphs and tables in this report show the percentage of students who are above or below the cut-point for each factor. Ultimately, it is desirable to have a small percentage of students above the cut-point for risk factors and a large percentage above the cut-point for protective factors. This would indicate that your community of students experiences less risk and more protection against risk compared to nationally-established standards.

The important thing to understand is that the more risk factors youth are exposed to, the more problem behaviors they are likely to exhibit. Conversely, the more protective factors that are present, the less likely problem behaviors will arise. Schools and communities can use this information to better understand where the youth population as a whole exhibits increased risk, and can work to target these behaviors through programs and policies. Likewise, results can also show what protective factors are present in these youth, and programs or policies to enhance these characteristics can be identified. School and community programs that reduce risk factors and enhance protective factors have been shown to positively impact the future health behavior outcomes of youth.

For more information, see Appendix C in this report.

Above Cutpoint	Total	70%	68%	68%	74%	76%	62%	72%	72%
	Female	70%	78%	67%	70%	66%	63%	73%	72%
	Male	70%	58%	70%	78%	81%	60%	71%	72%

Data are suppressed to ensure confidentiality when the number of students responding is within three (3) of having a response rate of 0% [indicated by a dash (-)] or 100% [indicated by a plus (+)]. All percentages are based on true totals that include confidential data. All percentages are rounded to the nearest integer.

**Risk and Protective Factors**

<b>School: Opportunities for Pro-Social Involvement (Protective)</b>	<b>N: 746</b>
	<b>Response Rate: 96%</b>

Response	Sex	Grade							
		Total	6th	7th	8th	9th	10th	11th	12th
Below Cutpoint	Total	20%	24%	18%	17%	14%	26%	25%	16%

## APPENDIX A

### FREQUENTLY ASKED QUESTIONS

**What is the HKCS?**

The Healthy Kids Colorado Survey is a school survey administered statewide that explores many topics about the health related attitudes and behaviors of Colorado students. The HKCS integrates items from two nationally recognized and validated surveys: the Youth Risk Behavior Survey (YRBS) and the Communities that Care Survey, with additional items selected by Colorado state agencies. Specifically, questions on the survey ask about: unintentional injuries and violence, including mental health, school safety and physical fighting; substance use; physical activity and nutrition; sexual behaviors; basic demographic questions; and risk and protective factor questions.

**Who participates in the HKCS?**

Both middle schools and high schools throughout Colorado voluntarily participate in the HKCS in order to collect school, district and/or community-level data. Results from a local administration of the HKCS can be used to compare to state level data, as well as monitor trends over time in a particular population.

**Do the students have to participate?**

No. Participation in the HKCS is always voluntary. Parents are notified of the survey ahead of time, and are asked to give permission for their child to participate. Depending on district policy, either active consent (parents opt in to the survey) or passive consent (parents opt out of the survey) is used. Students are also informed that participation in the survey is voluntary and that they may opt out at any time during the administration. In addition, students are reminded that they can skip any questions they do not wish to answer.

**How is student confidentiality protected?**

Students are asked not to include identifying information on the surveys. Furthermore, teachers are provided with instructions that enhance confidentiality practices such as: not walking around the classroom during administration; having students insert their completed surveys directly into the mailing envelope; and sealing the envelope containing completed surveys in the presence of students before returning the completed surveys to OMNI Institute, which prevents survey tampering. Additionally, data are aggregated across all students who participate, and no individual's data are ever identified.

**How is the survey administered?**

In most cases, the survey is administered by classroom teachers during regular class periods on a specified day during the school year. A contact person from each school and/or district typically works with survey coordinators at various community based organizations to ensure a successful administration.

**How long does the survey take?**

The survey administration process takes approximately 45 minutes, and is typically conducted during a single class period. The administration process includes: the distribution of surveys to participating students; providing direction to the students on how to complete the survey; and collecting completed surveys.

### **Are data representative of the student population?**

The more students that participate from a certain grade, school, or district, the more representative the data will be of the population in that grade, school, or district. For example, when the response rate is 80% or greater, one can be *very* confident that the data reflect the experiences of the population being assessed. When the response rate is 60% or greater, one can be *fairly* confident that the data reflect the experiences of the population being assessed. When response rates are below 60%, one can be *less* confident that they accurately represent the experiences of the entire student population, and instead reflect only the students who participated in the survey.

### **Why does the HKCS ask questions about sensitive topics?**

Questions pertaining to sensitive topics are included on the survey because they represent the leading causes of illness, injury, death and social problems among youth in the United States. Having data on current behavior among youth in Colorado can help schools and their surrounding communities provide the resources and education necessary to prevent unhealthy behaviors and promote healthy behaviors.

### **Why are the questions worded in the way they are?**

The structure and wording of the questions are based on extensively researched methodologies that allow data to be collected in a meaningful and valid manner. Questions and response options are constructed to be easily understood by students in order to yield the most accurate response. All questions pertaining to behavior provide a response option for students to report that they have never engaged in the behavior. Additionally, skip patterns are not included on the questionnaire. This technique helps to safeguard privacy because all students are asked to answer all questions. When skip patterns are included, students who engage in many risk behaviors take much longer to complete the survey than students who engage in few risk behaviors. This would violate the privacy of both groups because students and survey administrators could infer that those who take longer to complete the survey are engaging in a larger number of the behaviors assessed on the HKCS. Also, having all students answer all questions reduces the possibility that a student will feel that his or her answer may be undesirable or negative because they are less likely to compare themselves to their peers while they take the survey.

### **Can answering these questions cause students to engage in negative behaviors?**

The causes and determinants of health risk behaviors are very complex. Most students are regularly exposed to information about substance use, violence, and sexuality through the media, their peers, friends, parents and their surrounding community. Responding to a survey with a small number of questions on any of these topics is not likely to cause significant changes in behavior – either good or bad.

### **Who may receive a HKCS report?**

Schools and districts that participate in the HKCS may receive a report(s) without a signed release form as they have ownership over data collected in their school(s). In many cases, a third party such as a community coalition or task force may work with a school and/or district in order to coordinate the survey administration and the reporting of school, district or community level data. In these cases, a school or district official authorized to release data must sign a Report Release Form authorizing OMNI Institute to share school and/or district HKCS summary reports with the recipients listed on the release form. OMNI will not release school or district level reports to entities outside of the school and/or district in which the survey was administered without a signed Report Release Form from the Authorized District/School Official.

PREVENTION CONTACTS - REGIONAL PREVENTION SERVICES**

The Regional Prevention Services Project is a regionally-based system funded by the Division of Behavioral Health of the Colorado Department of Human Services. Regional Prevention Consultants can help you interpret and use your HKCS data. For more information, please visit the RPS website at [www.rpscolorado.org](http://www.rpscolorado.org) or contact the Regional Prevention Consultant (RPC) in your region below.

**Region 1:**

**APPENDIX C  
RISK AND PROTECTIVE FACTOR SCALE DESCRIPTIONS AND SIGNIFICANCE**

<b>Community Domain</b>	
<i><b>Risk Factors</b></i>	
Perceived Availability of Drugs	Youth report that it would be easy for them to obtain cigarettes, alcohol, marijuana, or other illegal drugs. Perceived availability of drugs is a primary factor associated with greater risk of adolescent substance use.
Laws and Norms Favorable to Drug Use	Youth report that laws regulating alcohol and other drug sales and use are poorly enforced. Further, youth perceive that adults communicate that it is acceptable for minors to use alcohol or other drugs. Research has demonstrated that in communities where drug use is explicitly or implicitly condoned, youth are more likely to engage in drug use and other antisocial behavior.

<b>Family Domain</b>	
<i><b>Risk Factors</b></i>	
Parental Attitudes Favorable to Drug Use	Parents are tolerant of their youth’s alcohol or drug use. In families where parents use illegal drugs, are heavy users of alcohol, or condone youths’ use, youth are more likely to become drug abusers during adolescence. The risk is further increased if parents involve youth in their own drug (or alcohol) using behavior, for example, asking the youth to light the parent’s cigarette or get a beer from the refrigerator.
<i><b>Protective Factors</b></i>	
Opportunities for Pro-Social Involvement	Opportunities are present for children and youth to participate meaningfully in the responsibilities and activities of the family. Research has shown that youth who are involved in family decision-making engage in lower rates of delinquent behavior and substance use.

School Domain	
<b><i>Risk Factors</i></b>	
Low Commitment	Youth report poor grades and that they are not keeping up with other students academically. Factors such as liking school, spending time on homework, perceiving the coursework as relevant, and expecting to attend college are associated with lower rates of drug use.
<b><i>Protective Factors</i></b>	
Opportunities for Pro-Social Involvement	Opportunities are available for youth to participate meaningfully in their classroom and school. When young people are given more opportunities for pro-social involvement, they are less likely to engage in drug use and other negative outcomes.

Peer-Individual	
<b><i>Risk Factors</i></b>	
Early Initiation of Drug Use	Youth report that they first used alcohol and other drugs at an early age (prior to the age of 15). Research shows that the early incidence of drug use also predicts greater involvement in later drug use and abuse, as well as antisocial behavior.
Perceived Risk of Drug Use	Youth report that alcohol and drug use is not likely to cause people harm. A low perception of harm associated with drug use can make it more likely that youth will engage in drug use.

---

**APPENDIX C**  
**RISK AND PROTECTIVE FACTOR ITEMS**

**DOMAIN: COMMUNITY****Risk Factors*****Perceived Availability of Drugs***

This scale assesses the degree to which respondents find it easy to obtain alcohol or other substances.

## Survey Questions:

- If you wanted to get some beer, wine or hard liquor, how easy would it be for you to get some?
- If you wanted to get some cigarettes, how easy would it be for you to get some?
- If you wanted to get some marijuana, how easy would it be for you to get some?
- If you wanted to get a drug like cocaine, LSD, amphetamines, or any other illegal drug, how easy would it be for you to get some?

***Laws and Norms Favorable to Drug Use\****

This scale assesses the degree to which respondents find it easy to obtain alcohol or other substances.

## Survey Questions:

- If a kid drank alcohol in your neighborhood, or the area around where you live, would he or she be caught by the police?
- If a kid used marijuana in your neighborhood, or the area around where you live, would he or she be caught by the police?
- How wrong would most adults in your neighborhood, or the area around where you live, think it is for kids your age to drink alcohol?
- How wrong would most adults in your neighborhood, or the area around where you live, think it is for kids your age to smoke cigarettes?
- \*\*How wrong would most adults in your neighborhood, or the area around where you live, think it is for kids your age to use marijuana?

\*Two questions from the CTC version of this scale are not included in this survey (“if a kid carried a handgun in your neighborhood, would he or she be caught by the police?” and “If a kid smoked a cigarette in your neighborhood, would he or she be caught by the police?”); the scale is calculated with five items.

\*\*This question from the CTC version of this scale states “smoke marijuana”.

**DOMAIN: FAMILY**

**Risk Factors**

***Parental Attitudes Favorable to Drug Use***

This scale assesses the degree to which respondents report their parents would feel it is wrong if they (the respondents) drink liquor, smoke marijuana, or smoke cigarettes.

Survey Questions:

- How wrong do your parents or guardians feel it would be for you to drink alcohol regularly (at least once or twice a month)?
- How wrong do your parents or guardians feel it would be for you to smoke cigarettes?
- \*\*How wrong do your parents or guardians feel it would be for you to use marijuana?

\*\*This question from the CTC version of this scale states “smoke marijuana”.

**Protective Factors**

***Opportunities for Pro-Social Involvement***

This scale assesses the degree to which respondents report that they have opportunities to participate in family decision making and family activities.

Survey Questions:

- If I had a personal problem, I could ask my parents or guardians for help.
- My parents or guardians ask me what I think before most family decisions affecting me are made.
- My parents or guardians give me lots of chances to do fun things with them.

**DOMAIN: SCHOOL****Risk Factors*****Low Commitment to School***

This scale assesses the degree to which students find school and homework interesting and important.

## Survey Questions:

- How often do you feel that the school work you are assigned is meaningful and important?
- How interesting are most of your courses to you?
- How important do you think the things you are learning in school are going to be for you later in life?
- Now thinking back over the past year in school, how often did you try to do your best work in school?
- Now thinking back over the past year in school, how often did you enjoy being in school?
- Now thinking back over the past year in school, how often did you hate being in school?
- During the LAST FOUR WEEKS how many whole days of school have you missed because you skipped or “cut”?

**Protective Factors*****Opportunities for Pro-Social Involvement***

This scale assesses the degree to which respondents feel that they can interact with teachers and can participate in school-related activities.

## Survey Questions:

- In my school, students have lots of chances to help decide things like class activities and rules.
  - Teachers ask me to work on special classroom projects.
  - There are a lot of chances for students in my school to get involved in sports, clubs, and other school activities outside of class.
  - There are lots of chances for students in my school to talk with a teacher one-on-one.
  - There are lots of chances to be part of class discussions or activities.
-

**DOMAIN: PEER/INDIVIDUAL****Risk Factors*****\*Early Initiation of Drug Use:***

This scale assesses the age at which respondents report first drinking alcohol and trying other substances.

## Survey Questions:

- How old were you when you had your first drink of alcohol other than a few sips?
- How old were you when you first began drinking alcohol regularly, that is, at least once or twice a month?
- \*\* How old were you when you smoked a whole cigarette for the first time?
- \*\*\*How old were you when you tried marijuana for the first time?

\*The scale responses have been slightly modified from the original CTC version of the survey.

\*\*This question from the CTC version of this scale states "smoked a cigarette, even just a puff".

\*\*\*This question from the CTC version of this scale states "How old were you when you first smoked marijuana?".

***Perceived Risk of Drug Use***

This scale assesses the degree to which youth perceive the use of tobacco, alcohol, and marijuana to be harmful.

## Survey Questions:

- How much do you think people risk harming themselves (physically or in other ways) if they smoke one or more packs of cigarettes per day?
- How much do you think people risk harming themselves (physically or in other ways) if they have one or two drinks of alcohol nearly every day?
- How much do you think people risk harming themselves (physically or in other ways) if they use marijuana once or twice?
- How much do you think people risk harming themselves (physically or in other ways) if they use marijuana regularly?

**Directions**

- Use a #2 pencil only.
- Make dark marks.
- Fill in a response like this: A B ● D.
- If you change your answer, erase your old answer completely.

Throughout the survey you will see some questions with possible responses, big NO!, no, yes, or big YES!.

NO! means definitely not true for you, no means mostly not true for you, yes means mostly true for you, and YES! means definitely true for you.

Example: Chocolate is the best ice cream flavor.  
NO!, no, yes, YES!

1. How old are you?

- A 12 years old or younger
- B 13 years old
- C 14 years old
- D 15 years old
- E 16 years old
- F 17 years old
- G 18 years old or older

2. What is your sex?

- A Female
- B Male

3. In what grade are you?

- A 6th grade
- B 7th grade
- C 8th grade
- D 9th grade
- E 10th grade
- F 11th grade
- G 12th grade
- H Ungraded or other grade

4. Are you Hispanic or Latino?

- A Yes
- B No

5. What is your race? (Select one or more responses.)

- A American Indian or Alaska Native
- B Asian
- C Black or African American
- D Native Hawaiian or Other Pacific Islander
- E White

6. What is the language you use most often at home?

- A English
- B Spanish
- C Another language

The next 2 questions ask about safety.

7. During the past 30 days, how many times did you ride in a car or other vehicle driven by someone who had been drinking alcohol?

- A 0 times
- B 1 time
- C 2 or 3 times
- D 4 or 5 times
- E 6 or more times

8. During the past 30 days, how many times did you ride in a car or other vehicle driven by someone who had been using marijuana?

- A 0 times
- B 1 time
- C 2 or 3 times
- D 4 or 5 times
- E 6 or more times

The next 6 questions ask about violence-related behaviors.

9. During the past 30 days, on how many days did you carry a weapon such as a gun, knife, or club?

- A 0 days
- B 1 day
- C 2 or 3 days
- D 4 or 5 days
- E 6 or more days

10. During the past 30 days, on how many days did you carry a weapon such as a gun, knife, or club on school property?

- A 0 days
- B 1 day
- C 2 or 3 days
- D 4 or 5 days
- E 6 or more days

**The next 8 questions ask about tobacco use.**

22. How old were you when you smoked a whole cigarette for the first time?
- (A) I have never smoked a whole cigarette
  - (B) 8 years old or younger
  - (C) 9 or 10 years old
  - (D) 11 or 12 years old
  - (E) 13 or 14 years old
  - (F) 15 or 16 years old
  - (G) 17 years old or older
23. During the past 30 days, on how many days did you smoke cigarettes?
- (A) 0 days
  - (B) 1 or 2 days
  - (C) 3 to 5 days
  - (D) 6 to 9 days
  - (E) 10 to 19 days
  - (F) 20 to 29 days
  - (G) All 30 days
24. If you wanted to get some cigarettes, how easy would it be for you to get some?
- (A) Very hard
  - (B) Sort of hard
  - (C) Sort of easy
  - (D) Very easy
25. During the past 30 days, how did you **usually** get your own cigarettes? (Select only **one** response.)
- (A) I did not smoke cigarettes during the past 30 days
  - (B) I bought them in a store such as a convenience store, supermarket, discount store, or gas station
  - (C) I bought them from a vending machine
  - (D) I gave someone else money to buy them for me
  - (E) I borrowed (or bummed) them from someone else
  - (F) A person 18 years old or older gave them to me
  - (G) I took them from a store or family member
  - (H) I got them some other way
26. During the past 30 days, on how many days did you use **chewing tobacco, snuff, or dip**, such as Redman, Levi Garrett, Beechnut, Skoal, Skoal Bandits, or Copenhagen?
- (A) 0 days
  - (B) 1 or 2 days
  - (C) 3 to 5 days
  - (D) 6 to 9 days
  - (E) 10 to 19 days
  - (F) 20 to 29 days
  - (G) All 30 days

27. How much do you think people **risk harming themselves** (physically or in other ways), if they smoke one or more packs of cigarettes **per day**?
- (A) No risk
  - (B) Slight risk
  - (C) Moderate risk
  - (D) Great risk
28. How wrong do **your parents or guardians feel** it would be for **you** to smoke cigarettes?
- (A) Very wrong
  - (B) Wrong
  - (C) A little bit wrong
  - (D) Not wrong at all
29. How wrong would **most adults in your neighborhood**, or the area around where you live, think it would be for **kids your age** to smoke cigarettes?
- (A) Very wrong
  - (B) Wrong
  - (C) A little bit wrong
  - (D) Not wrong at all

**The next 18 questions ask about drinking alcohol. This includes drinking beer, wine, wine coolers, and liquor (such as rum, gin, vodka, or whiskey). For these questions, drinking alcohol does not include drinking a few sips of wine for religious purposes.**

30. During your life, on how many days have you had at least one drink of alcohol?
- (A) 0 days
  - (B) 1 or 2 days
  - (C) 3 to 9 days
  - (D) 10 to 19 days
  - (E) 20 to 39 days
  - (F) 40 to 99 days
  - (G) 100 or more days
31. How old were you when you had your first drink of alcohol other than a few sips?
- (A) I have never had a drink of alcohol other than a few sips
  - (B) 8 years old or younger
  - (C) 9 or 10 years old
  - (D) 11 or 12 years old
  - (E) 13 or 14 years old
  - (F) 15 or 16 years old
  - (G) 17 years old or older

40. During the past 12 months, where did you **usually** drink alcohol? (Select only **one** response.)
- A I did not drink alcohol during the past 12 months
  - B At my home
  - C At another person's home
  - D When riding in or driving a car or other vehicle
  - E At a restaurant, bar, or club
  - F At a place such as a park, beach, or parking lot
  - G At a public event such as a concert or sporting event
  - H On school property
41. How much do you think people risk harming themselves (physically or in other ways), if they have one or two drinks of alcohol nearly **every day**?
- A No risk
  - B Slight risk
  - C Moderate risk
  - D Great risk
42. How much do you think people risk harming themselves (physically or in other ways), if they have 5 or more drinks of alcohol **once or twice each weekend**?
- A No risk
  - B Slight risk
  - C Moderate risk
  - D Great risk
43. How wrong do **you** think it is for **someone your age** to drink alcohol regularly (at least once or twice a month)?
- A Very wrong
  - B Wrong
  - C A little bit wrong
  - D Not wrong at all
44. How wrong do **your parents or guardians feel** it would be for **you** to drink alcohol regularly (at least once or twice a month)?
- A Very wrong
  - B Wrong
  - C A little bit wrong
  - D Not wrong at all
45. How wrong would **most adults in your neighborhood**, or the area around where you live, think it is for **kids your age** to drink alcohol regularly (at least once or twice a month)?
- A Very wrong
  - B Wrong
  - C A little bit wrong
  - D Not wrong at all

46. If a kid drank alcohol in your neighborhood, or the area around where you live, would he or she be caught by the police?
- A NO!
  - B no
  - C yes
  - D YES!
47. Think of your **four best friends** (the friends you feel closest to). In the past year (12 months), how many of your best friends have tried beer, wine, or hard liquor when their parents didn't know about it?
- A None of my friends
  - B 1 of my friends
  - C 2 of my friends
  - D 3 of my friends
  - E 4 of my friends

**The next 14 questions ask about marijuana use. Marijuana also is called grass or pot.**

48. During your life, how many times have you used marijuana?
- A 0 times
  - B 1 or 2 times
  - C 3 to 9 times
  - D 10 to 19 times
  - E 20 to 39 times
  - F 40 to 99 times
  - G 100 or more times
49. How old were you when you tried marijuana for the first time?
- A I have never tried marijuana
  - B 8 years old or younger
  - C 9 or 10 years old
  - D 11 or 12 years old
  - E 13 or 14 years old
  - F 15 or 16 years old
  - G 17 years old or older
50. During the past 30 days, how many times did you use marijuana?
- A 0 times
  - B 1 or 2 times
  - C 3 to 9 times
  - D 10 to 19 times
  - E 20 to 39 times
  - F 40 or more times

51. During the past 30 days, how did you **most often** use marijuana? (Select only **one** response.)
- A I did not use marijuana during the past 30 days
  - B I smoked it
  - C I ate it (in an edible, candy, tincture or other food)
  - D I used a vaporizer
  - E I consumed it in some other way
52. If you wanted to get some marijuana, how easy would it be for you to get some?
- A Very hard
  - B Sort of hard
  - C Sort of easy
  - D Very easy
53. During the past 30 days, how did you **usually** get the marijuana that you used? (Select only **one** response.)
- A I did not use marijuana during the past 30 days
  - B I got it at a public event such as a party, bar, club, restaurant, concert, or sporting event
  - C I got it from someone with a Medical Marijuana License (Card)
  - D Someone gave it to me
  - E I took it from a family member
  - F I got it at school
  - G I got it some other way
54. During the past 30 days, how many times did you use marijuana **on school property**?
- A 0 times
  - B 1 or 2 times
  - C 3 to 9 times
  - D 10 to 19 times
  - E 20 to 39 times
  - F 40 or more times
55. How much do you think people risk harming themselves (physically or in other ways), if they use marijuana **once or twice**?
- A No risk
  - B Slight risk
  - C Moderate risk
  - D Great risk

56. How much do you think people risk harming themselves (physically or in other ways), if they use marijuana **regularly**?
- A No risk
  - B Slight risk
  - C Moderate risk
  - D Great risk
57. How wrong do **you** think it is for **someone your age** to use marijuana?
- A Very wrong
  - B Wrong
  - C A little bit wrong
  - D Not wrong at all
58. How wrong do **your parents or guardians** feel it would be for **you** to use marijuana?
- A Very wrong
  - B Wrong
  - C A little bit wrong
  - D Not wrong at all
59. How wrong would **most adults in your neighborhood**, or the area around where you live, think it is for **kids your age** to use marijuana?
- A Very wrong
  - B Wrong
  - C A little bit wrong
  - D Not wrong at all
60. If a kid used marijuana in your neighborhood, or the area around where you live, would he or she be caught by the police?
- A NO!
  - B no
  - C yes
  - D YES!
61. Do you know anyone with a Medical Marijuana License or Card (for example a friend or family member)?
- A Yes
  - B No
  - C Not sure

72. During the past 30 days, where did you **most often** see or hear advertisements or messages **promoting or encouraging** the use of tobacco, alcohol, or other drugs? (Select only **one** response.)

- (A) I did not see or hear any advertisements or messages about promoting the use of alcohol, tobacco, or other drugs
- (B) On a sign or billboard
- (C) In a TV or radio ad
- (D) At a sporting event or sports stadium
- (E) At school
- (F) In a magazine or newspaper
- (G) On the internet
- (H) In another place

**The next 2 questions ask about body weight.**

73. How do **you** describe your weight?

- (A) Very underweight
- (B) Slightly underweight
- (C) About the right weight
- (D) Slightly overweight
- (E) Very overweight

74. Which of the following are you trying to do about your weight?

- (A) **Lose** weight
- (B) **Gain** weight
- (C) **Stay** the same weight
- (D) I am **not trying to do anything** about my weight

**The next 4 questions ask about food you ate or drank during the past 7 days. Think about all the meals and snacks you had from the time you got up until you went to bed. Be sure to include food you ate at home, at school, at restaurants, or anywhere else.**

75. During the past 7 days, how many times did you eat **fruit**? (Do **not** count fruit juice.)

- (A) I did not eat fruit during the past 7 days
- (B) 1 to 3 times during the past 7 days
- (C) 4 to 6 times during the past 7 days
- (D) 1 time per day
- (E) 2 times per day
- (F) 3 times per day
- (G) 4 or more times per day

76. During the past 7 days, how many times did you eat **vegetables**?

- (A) I did not eat vegetables during the past 7 days
- (B) 1 to 3 times during the past 7 days
- (C) 4 to 6 times during the past 7 days
- (D) 1 time per day
- (E) 2 times per day
- (F) 3 times per day
- (G) 4 or more times per day

77. During the past 7 days, how many times did you drink a **can, bottle, or glass of soda or pop**, such as Coke, Pepsi, or Sprite? (Do **not** count diet soda or diet pop.)

- (A) I did not drink soda or pop during the past 7 days
- (B) 1 to 3 times during the past 7 days
- (C) 4 to 6 times during the past 7 days
- (D) 1 time per day
- (E) 2 times per day
- (F) 3 times per day
- (G) 4 or more times per day

78. During the past 7 days, on how many days did you eat **breakfast**?

- (A) 0 days
- (B) 1 day
- (C) 2 days
- (D) 3 days
- (E) 4 days
- (F) 5 days
- (G) 6 days
- (H) 7 days

**The next 4 questions ask about physical activity.**

79. During the past 7 days, on how many days were you physically active for a total of **at least 60 minutes** per day? (Add up all the time you spent in any kind of physical activity that increases your heart rate and makes you breathe hard some of the time.)

- (A) 0 days
- (B) 1 day
- (C) 2 days
- (D) 3 days
- (E) 4 days
- (F) 5 days
- (G) 6 days
- (H) 7 days

91. Now thinking back over the past year in school, how often did you **hate** being in school?

- (A) Never
- (B) Seldom
- (C) Sometimes
- (D) Often
- (E) Almost always

92. Now thinking back over the past year in school, how often did you try to do your best work in school?

- (A) Never
- (B) Seldom
- (C) Sometimes
- (D) Often
- (E) Almost always

93. In my school, students have lots of chances to help decide things like class activities and rules.

- (A) NO!
- (B) no
- (C) yes
- (D) YES!

94. Teachers ask me to work on special classroom projects.

- (A) NO!
- (B) no
- (C) yes
- (D) YES!

95. There are a lot of chances for students in my school to get involved in sports, clubs, and other school activities outside of class.

- (A) NO!
- (B) no
- (C) yes
- (D) YES!

96. There are lots of chances for students in my school to talk with a teacher one-on-one.

- (A) NO!
- (B) no
- (C) yes
- (D) YES!

97. There are lots of chances to be part of class discussions or activities.

- (A) NO!
- (B) no
- (C) yes
- (D) YES!

98. I feel safe at my school.

- (A) NO!
- (B) no
- (C) yes
- (D) YES!

**These 3 questions ask about your future.**

99. How important is it to you to finish high school?

- (A) Very important
- (B) Important
- (C) Not very important
- (D) Not at all important

100. How important is it to you to go to college?

- (A) Very important
- (B) Important
- (C) Not very important
- (D) Not at all important

101. How important is it to you to be successful in a job or career?

- (A) Very important
- (B) Important
- (C) Not very important
- (D) Not at all important

**The next 4 questions ask about your home life.**

102. The rules in my family are clear.

- (A) NO!
- (B) no
- (C) yes
- (D) YES!

103. My parents or guardians give me lots of chances to do fun things with them.

- (A) NO!
- (B) no
- (C) yes
- (D) YES!

104. My parents or guardians ask me what I think before most family decisions affecting me are made.

- (A) NO!
- (B) no
- (C) yes
- (D) YES!

105. If I had a personal problem, I could ask my parents or guardians for help.

- (A) NO!
- (B) no
- (C) yes
- (D) YES!

**Directions**

- Use a #2 pencil only.
- Make dark marks.
- Fill in a response like this: A B ● D.
- If you change your answer, erase your old answer completely.

Throughout the survey you will see some questions with possible responses, big NO!, no, yes, or big YES!.

NO! means definitely not true for you, no means mostly not true for you, yes means mostly true for you, and YES! means definitely true for you.

Example: Chocolate is the best ice cream flavor.  
NO!, no, yes, YES!

1. How old are you?
- A 12 years old or younger
  - B 13 years old
  - C 14 years old
  - D 15 years old
  - E 16 years old
  - F 17 years old
  - G 18 years old or older

2. What is your sex?

- A Female
- B Male

3. In what grade are you?

- A 9th grade
- B 10th grade
- C 11th grade
- D 12th grade
- E Ungraded or other grade

4. Are you Hispanic or Latino?

- A Yes
- B No

5. What is your race? (Select one or more responses.)

- A American Indian or Alaska Native
- B Asian
- C Black or African American
- D Native Hawaiian or Other Pacific Islander
- E White

6. How tall are you without your shoes on?

Directions: Write your height in the shaded blank boxes. Fill in the matching oval below each number.

Example

Height	
Feet	Inches
5	7
<input type="radio"/> 3	<input type="radio"/> 0
<input type="radio"/> 4	<input type="radio"/> 1
<input checked="" type="radio"/> 5	<input type="radio"/> 2
<input type="radio"/> 6	<input type="radio"/> 3
<input type="radio"/> 7	<input type="radio"/> 4
	<input type="radio"/> 5
	<input type="radio"/> 6
	<input checked="" type="radio"/> 7
	<input type="radio"/> 8
	<input type="radio"/> 9
	<input type="radio"/> 10
	<input type="radio"/> 11

Height	
Feet	Inches
<input type="radio"/> 3	<input type="radio"/> 0
<input type="radio"/> 4	<input type="radio"/> 1
<input type="radio"/> 5	<input type="radio"/> 2
<input type="radio"/> 6	<input type="radio"/> 3
<input type="radio"/> 7	<input type="radio"/> 4
	<input type="radio"/> 5
	<input type="radio"/> 6
	<input type="radio"/> 7
	<input type="radio"/> 8
	<input type="radio"/> 9
	<input type="radio"/> 10
	<input type="radio"/> 11

7. How much do you weigh without your shoes on?

Directions: Write your weight in the shaded blank boxes. Fill in the matching oval below each number.

Example

Weight		
Pounds		
1	5	2
<input type="radio"/> 0	<input type="radio"/> 0	<input type="radio"/> 0
<input checked="" type="radio"/> 1	<input type="radio"/> 1	<input type="radio"/> 1
<input type="radio"/> 2	<input type="radio"/> 2	<input checked="" type="radio"/> 2
<input type="radio"/> 3	<input type="radio"/> 3	<input type="radio"/> 3
	<input type="radio"/> 4	<input type="radio"/> 4
	<input checked="" type="radio"/> 5	<input type="radio"/> 5
	<input type="radio"/> 6	<input type="radio"/> 6
	<input type="radio"/> 7	<input type="radio"/> 7
	<input type="radio"/> 8	<input type="radio"/> 8
	<input type="radio"/> 9	<input type="radio"/> 9

Weight		
Pounds		
<input type="radio"/> 0	<input type="radio"/> 0	<input type="radio"/> 0
<input type="radio"/> 1	<input type="radio"/> 1	<input type="radio"/> 1
<input type="radio"/> 2	<input type="radio"/> 2	<input type="radio"/> 2
<input type="radio"/> 3	<input type="radio"/> 3	<input type="radio"/> 3
	<input type="radio"/> 4	<input type="radio"/> 4
	<input type="radio"/> 5	<input type="radio"/> 5
	<input type="radio"/> 6	<input type="radio"/> 6
	<input type="radio"/> 7	<input type="radio"/> 7
	<input type="radio"/> 8	<input type="radio"/> 8
	<input type="radio"/> 9	<input type="radio"/> 9

17. During the past 12 months, how many times were you in a physical fight?

- (A) 0 times
- (B) 1 time
- (C) 2 or 3 times
- (D) 4 or 5 times
- (E) 6 or 7 times
- (F) 8 or 9 times
- (G) 10 or 11 times
- (H) 12 or more times

18. During the past 12 months, did your boyfriend or girlfriend ever hit, slap, or physically hurt you on purpose?

- (A) Yes
- (B) No

19. Have you ever been physically forced to have sexual intercourse when you did not want to?

- (A) Yes
- (B) No

**The next 2 questions ask about bullying. Bullying is when 1 or more students tease, threaten, spread rumors about, hit, shove, or hurt another student over and over again. It is not bullying when 2 students of about the same strength or power argue or fight or tease each other in a friendly way.**

20. During the past 12 months, have you ever been bullied on school property?

- (A) Yes
- (B) No

21. During the past 12 months, have you ever been **electronically** bullied? (Include being bullied through e-mail, chat rooms, instant messaging, web sites, or texting.)

- (A) Yes
- (B) No

**The next 5 questions ask about sad feelings and attempted suicide. Sometimes people feel so depressed about the future that they may consider attempting suicide, that is, taking some action to end their own life.**

22. During the past 12 months, did you ever feel so sad or hopeless almost every day for **two weeks or more in a row** that you stopped doing some usual activities?

- (A) Yes
- (B) No

23. During the past 12 months, did you ever **seriously** consider attempting suicide?

- (A) Yes
- (B) No

24. During the past 12 months, did you make a plan about how you would attempt suicide?

- (A) Yes
- (B) No

25. During the past 12 months, how many times did you actually attempt suicide?

- (A) 0 times
- (B) 1 time
- (C) 2 or 3 times
- (D) 4 or 5 times
- (E) 6 or more times

26. **If you attempted suicide** during the past 12 months, did any attempt result in an injury, poisoning, or overdose that had to be treated by a doctor or nurse?

- (A) **I did not attempt suicide** during the past 12 months
- (B) Yes
- (C) No

**The next 8 questions ask about tobacco use.**

27. How old were you when you smoked a whole cigarette for the first time?

- (A) I have never smoked a whole cigarette
- (B) 8 years old or younger
- (C) 9 or 10 years old
- (D) 11 or 12 years old
- (E) 13 or 14 years old
- (F) 15 or 16 years old
- (G) 17 years old or older

28. During the past 30 days, on how many days did you smoke cigarettes?

- (A) 0 days
- (B) 1 or 2 days
- (C) 3 to 5 days
- (D) 6 to 9 days
- (E) 10 to 19 days
- (F) 20 to 29 days
- (G) All 30 days

38. During the past 30 days, on how many days did you have at least one drink of alcohol?

- (A) 0 days
- (B) 1 or 2 days
- (C) 3 to 5 days
- (D) 6 to 9 days
- (E) 10 to 19 days
- (F) 20 to 29 days
- (G) All 30 days

39. During the past 30 days, on how many days did you have 5 or more drinks of alcohol in a row, that is, within a couple of hours?

- (A) 0 days
- (B) 1 day
- (C) 2 days
- (D) 3 to 5 days
- (E) 6 to 9 days
- (F) 10 to 19 days
- (G) 20 or more days

40. During the past 30 days, on how many days did you have at least one drink of alcohol **on school property**?

- (A) 0 days
- (B) 1 or 2 days
- (C) 3 to 5 days
- (D) 6 to 9 days
- (E) 10 to 19 days
- (F) 20 to 29 days
- (G) All 30 days

41. During the past 30 days, on how many days do you think a **typical student at your school** drank alcohol?

- (A) 0 days
- (B) 1 or 2 days
- (C) 3 to 5 days
- (D) 6 to 9 days
- (E) 10 to 19 days
- (F) 20 to 29 days
- (G) All 30 days

42. During the past 30 days, on how many days do you think a **typical student at your school** had 5 or more drinks of alcohol?

- (A) 0 days
- (B) 1 or 2 days
- (C) 3 to 5 days
- (D) 6 to 9 days
- (E) 10 to 19 days
- (F) 20 to 29 days
- (G) All 30 days

43. If you wanted to get some beer, wine, or hard liquor, how easy would it be for you to get some?

- (A) Very hard
- (B) Sort of hard
- (C) Sort of easy
- (D) Very easy

44. During the past 30 days, how did you **usually** get the alcohol you drank? (Select only **one** response.)

- (A) I did not drink alcohol during the past 30 days
- (B) I bought it in a store such as a liquor store, convenience store, supermarket, discount store, or gas station
- (C) I bought it at a restaurant, bar, or club
- (D) I bought it at a public event such as a concert or sporting event
- (E) I gave someone else money to buy it for me
- (F) Someone gave it to me
- (G) I took it from a store or family member
- (H) I got it some other way

45. During the past 12 months, where did you **usually** drink alcohol? (Select only **one** response.)

- (A) I did not drink alcohol during the past 12 months
- (B) At my home
- (C) At another person's home
- (D) When riding in or driving a car or other vehicle
- (E) At a restaurant, bar, or club
- (F) At a place such as a park, beach, or parking lot
- (G) At a public event such as a concert or sporting event
- (H) On school property

46. How much do you think people risk harming themselves (physically or in other ways), if they have one or two drinks of alcohol nearly **every day**?

- (A) No risk
- (B) Slight risk
- (C) Moderate risk
- (D) Great risk

58. During the past 30 days, how did you **usually** get the marijuana that you used? (Select only **one** response.)

- A I did not use marijuana during the past 30 days
- B I got it at a public event such as a party, bar, club, restaurant, concert, or sporting event
- C I got it from someone with a Medical Marijuana License (Card)
- D Someone gave it to me
- E I took it from a family member
- F I got it at school
- G I got it some other way

59. During the past 30 days, how many times did you use marijuana **on school property**?

- A 0 times
- B 1 or 2 times
- C 3 to 9 times
- D 10 to 19 times
- E 20 to 39 times
- F 40 or more times

60. How much do you think people risk harming themselves (physically or in other ways), if they use marijuana **once or twice**?

- A No risk
- B Slight risk
- C Moderate risk
- D Great risk

61. How much do you think people risk harming themselves (physically or in other ways), if they use marijuana **regularly**?

- A No risk
- B Slight risk
- C Moderate risk
- D Great risk

62. How wrong do **you** think it is for **someone your age** to use marijuana?

- A Very wrong
- B Wrong
- C A little bit wrong
- D Not wrong at all

63. How wrong do **your parents or guardians** feel it would be for **you** to use marijuana?

- A Very wrong
- B Wrong
- C A little bit wrong
- D Not wrong at all

64. How wrong would **most adults in your neighborhood**, or the area around where you live, think it is for **kids your age** to use marijuana?

- A Very wrong
- B Wrong
- C A little bit wrong
- D Not wrong at all

65. If a kid used marijuana in your neighborhood, or the area around where you live, would he or she be caught by the police?

- A NO!
- B no
- C yes
- D YES!

66. Do you know anyone with a Medical Marijuana License or Card (for example a friend or family member)?

- A Yes
- B No
- C Not sure

**The next 10 questions ask about other drugs.**

67. During your life, how many times have you used **any** form of cocaine, including powder, crack, or freebase?

- A 0 times
- B 1 or 2 times
- C 3 to 9 times
- D 10 to 19 times
- E 20 to 39 times
- F 40 or more times

68. During your life, how many times have you sniffed glue, breathed the contents of aerosol spray cans, or inhaled any paints or sprays to get high?

- A 0 times
- B 1 or 2 times
- C 3 to 9 times
- D 10 to 19 times
- E 20 to 39 times
- F 40 or more times

69. During your life, how many times have you used **heroin** (also called smack, junk, or China White)?

- A 0 times
- B 1 or 2 times
- C 3 to 9 times
- D 10 to 19 times
- E 20 to 39 times
- F 40 or more times

70. During your life, how many times have you used **methamphetamines** (also called speed, crystal, crank, or ice)?

- A 0 times
- B 1 or 2 times
- C 3 to 9 times
- D 10 to 19 times
- E 20 to 39 times
- F 40 or more times

71. During your life, how many times have you used **ecstasy** (also called MDMA)?

- A 0 times
- B 1 or 2 times
- C 3 to 9 times
- D 10 to 19 times
- E 20 to 39 times
- F 40 or more times

72. During your life, how many times have you taken a **prescription drug** (such as OxyContin, Percocet, Vicodin, codeine, Adderall, Ritalin, or Xanax) without a doctor's prescription?

- A 0 times
- B 1 or 2 times
- C 3 to 9 times
- D 10 to 19 times
- E 20 to 39 times
- F 40 or more times

73. During your life, how many times have you taken **steroid pills or shots** without a doctor's prescription?

- A 0 times
- B 1 or 2 times
- C 3 to 9 times
- D 10 to 19 times
- E 20 to 39 times
- F 40 or more times

74. If you wanted to get a drug like cocaine, LSD, amphetamines, or any other illegal drug, how easy would it be for you to get some?

- A Very hard
- B Sort of hard
- C Sort of easy
- D Very easy

75. During the past 12 months, has anyone offered, sold, or given you an illegal drug **on school property**?

- A Yes
- B No

76. During the past 12 months, have you talked with at least one of your parents about the dangers of tobacco, alcohol, or drug use?

- A Yes
- B No
- C Not sure

**The next 4 questions ask about advertisements that you may have heard or seen related to tobacco, alcohol, or other drug use.**

77. During the past 12 months, how often did you hear, read, or watch an advertisement about **preventing** tobacco, alcohol, or other drug use?

- A A lot
- B Sometimes
- C Hardly ever
- D Never
- E Not sure

78. During the past 30 days, where did you **most often** see or hear advertisements or messages about **preventing** use of tobacco, alcohol, or other drugs? (Select only **one** response.)

- A I did not see or hear any advertisements or messages about preventing use of alcohol, tobacco, or other drugs
- B On a sign or billboard
- C In a TV or radio ad
- D At a sporting event or sports stadium
- E At school
- F In a magazine or newspaper
- G On the internet
- H In another place

89. Which of the following are you trying to do about your weight?
- (A) Lose weight
  - (B) Gain weight
  - (C) Stay the same weight
  - (D) I am **not trying to do anything** about my weight

The next 4 questions ask about food you ate or drank during the past 7 days. Think about all the meals and snacks you had from the time you got up until you went to bed. Be sure to include food you ate at home, at school, at restaurants, or anywhere else.

90. During the past 7 days, how many times did you eat **fruit**? (Do **not** count fruit juice.)
- (A) I did not eat fruit during the past 7 days
  - (B) 1 to 3 times during the past 7 days
  - (C) 4 to 6 times during the past 7 days
  - (D) 1 time per day
  - (E) 2 times per day
  - (F) 3 times per day
  - (G) 4 or more times per day
91. During the past 7 days, how many times did you eat **vegetables**?
- (A) I did not eat vegetables during the past 7 days
  - (B) 1 to 3 times during the past 7 days
  - (C) 4 to 6 times during the past 7 days
  - (D) 1 time per day
  - (E) 2 times per day
  - (F) 3 times per day
  - (G) 4 or more times per day
92. During the past 7 days, how many times did you drink a **can, bottle, or glass of soda or pop**, such as Coke, Pepsi, or Sprite? (Do **not** count diet soda or diet pop.)
- (A) I did not drink soda or pop during the past 7 days
  - (B) 1 to 3 times during the past 7 days
  - (C) 4 to 6 times during the past 7 days
  - (D) 1 time per day
  - (E) 2 times per day
  - (F) 3 times per day
  - (G) 4 or more times per day

93. During the past 7 days, on how many days did you eat **breakfast**?
- (A) 0 days
  - (B) 1 day
  - (C) 2 days
  - (D) 3 days
  - (E) 4 days
  - (F) 5 days
  - (G) 6 days
  - (H) 7 days

The next 4 questions ask about physical activity.

94. During the past 7 days, on how many days were you physically active for a total of **at least 60 minutes** per day? (Add up all the time you spent in any kind of physical activity that increases your heart rate and makes you breathe hard some of the time.)
- (A) 0 days
  - (B) 1 day
  - (C) 2 days
  - (D) 3 days
  - (E) 4 days
  - (F) 5 days
  - (G) 6 days
  - (H) 7 days
95. On an average school day, how many hours do you watch TV?
- (A) I do not watch TV on an average school day
  - (B) Less than 1 hour per day
  - (C) 1 hour per day
  - (D) 2 hours per day
  - (E) 3 hours per day
  - (F) 4 hours per day
  - (G) 5 or more hours per day
96. On an average school day, how many hours do you play video or computer games or use a computer for something that is not school work? (Include activities such as Xbox, PlayStation, Nintendo DS, iPod touch, Facebook, and the Internet.)
- (A) I do not play video or computer games or use a computer for something that is not school work
  - (B) Less than 1 hour per day
  - (C) 1 hour per day
  - (D) 2 hours per day
  - (E) 3 hours per day
  - (F) 4 hours per day
  - (G) 5 or more hours per day

109. Teachers ask me to work on special classroom projects.

- (A) NO!
