Gunnison County was recognized for its data-driven management and reporting efforts. He made the following statement regarding the award:

"I'm honored to announce that Gunnison County has received the 2018 Certificate of Excellence in Performance Management from the International City/County Management Association (ICMA)! Gunnison County is one of only 29 local governments across the nation to receive this distinction, which represents the highest of three distinction levels, and one of only 57 local governments to be recognized. As a point of reference, there are nearly 40,000 general purpose local governments in the United States, so receiving one of only 29 awards for Excellence in Performance Management is an incredible honor. We are one of only five counties in the country and one of only three local governments in Colorado to earn this distinction. I am so proud of the work we do every day at the County and to be included in such an elite group for our commitment to excellence is extremely gratifying. This Certificate of Excellence acknowledges our dedication to remain accountable and continually improve the results that we provide to our residents and visitors. Successful performance management requires a team effort, and I applaud the individual talents and efforts of all of the County employees that made this award possible. We could not have achieved this recognition without their hard work, so I thank each one of our dedicated employees."

The Board congratulated County Manager Birnie and the organization as a whole and asked that press release be done.

2. CM Birnie received an email from the new Saguache County Administrator inviting the Gunnison County BOCC to meet with the Saguache County BOCC.

DEPUTY COUNTY MANAGER'S REPORT: Deputy County Manager Marlene Crosby was not present for the meeting.

BREAK: The Board took a break at 1:55 pm. The meeting resumed at 1:59 pm.

Discussion; Iron Point 3D Seismic Project:

Cathie Pagano, Director of Community and Economic Development and County Attorney David Baumgarten were present for the discussion. CA Baumgarten explained that within the last two days he has had communication with the contractor who represents Gunnison Energy regarding this proposal. Based on what is being proposed, and what information is available, the County Attorney's office believes that Gunnison County oil and gas regulation permits may be required. As of now those permits have not been obtained. The County Attorney's Office (CAO) has upcoming meetings with proposal representatives and Delta County. The CAO has also been in contact with the United States Forest Service and Colorado Oil & Gas Commission regarding this proposal. Comments are due by October 26th, 2018. The CAO will submit comments on behalf of the BOCC.

Grant Agreement; Cox Ranch Conservation Easement:

Mike Pelletier, Geographic Information Services Manager and Stacy McPhail, Executive Director of Gunnison Ranchland Conservation Legacy were present for the discussion. The Cox Ranch Conservation Easement is a donation by the Cox family. The property is approximately 28 miles southwest of Gunnison on Alpine Plateau Road, which is south of the Arrowhead Subdivision. The Land Use Change permit approval for (LUC-18-00017) decision for Golden Eagle Trash Service, LLC has since been appealed. She explained that the purpose of the discussion today is for the BOCC to discuss the application and appeal to determine whether to hold an additional public hearing. County Attorney Baumgarten explained the process pertaining to Board consideration of the appeal from a legal standpoint. The consensus of the Board after discussion was that a site visit is necessary to make a decision. The Board opened the floor to comments from interested parties. Questions and comments from interested parties were welcomed and addressed accordingly. A site visit and public hearing will be scheduled for a later date.

Moved by Commissioner Messner, seconded by Commissioner Houck to conduct a public hearing regarding this application based on Board determination of availability at the time of review by the initial decision making body and that there will be additional testimony or evidence that may be ascertained, including a site visit and workflows from it, that would be significant.
