Email Address [hezeilman@gmail.com](mailto:hezeilman@gmail.com)

Why would you like to serve on this Board or Commission? As a Gunnison resident, I am interested in the ongoing projects the County has both in the short and long term. I have experience in planning and development as a former capital project manager for the City of Long Beach, CA Department of Parks, Recreation and Marine, and also as a Planning Analyst for Wake County Parks, Recreation and Open Space in North Carolina.

I hope that my background might be an asset to the Gunnison County Planning Commission, and know that I will enjoy learning more about the local development application process as well as the future projects planned for the Valley in more detail.

Additional Comments If you have any questions, please do not hesitate to reach out to me directly.

## **FAA Form 5100-100, Application for Federal Assistance (Development and Equipment Projects)**

### **Paperwork Reduction Act Burden Statement**

A federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a currently valid OMB Control Number. The OMB Control Number for this information collection is 2120-0569. Public reporting for this collection of information is estimated to be approximately 28 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, completing and reviewing the collection of information. All responses to this collection of information are required under 49 U.S.C. Section 47105 to retain a benefit and to meet the reporting requirements of 2 CFR 200; no assurance of confidentiality is provided. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: Information Collection Clearance Officer, Federal Aviation Administration, 10101 Hillwood Parkway, Fort Worth, TX 76177-1524.

### **INSTRUCTIONS FOR FORM 5100-100**

#### **PART I – Application for Federal Assistance**

Part I of the Application for Federal Assistance consists of a completed Standard Form (SF) 424. The remaining parts of Form 5100-100 (Parts II, III and IV) represent continuation pages that the Sponsor must attach to the associated SF-424 form. The signature of the Sponsor's authorized representative on the SF-424 form represents acceptance of the representations and certifications made within the corresponding FAA 5100-100 form.

#### **PART II – Project Approval Information**

This information is necessary for the Federal Aviation Administration to evaluate this request for Federal assistance. Responses do not require an explanation unless explicitly requested by the question.

##### **SECTION A. STATUTORY CONDITIONS**

**Item 1** – Indicate whether the Sponsor maintains an active registration in the Federal System for Award Management (SAM). Pursuant to 2 CFR §25.200(b), a Sponsor must maintain an active registration in the Central Contractor Registration repository (housed within SAM) with current information at the time of the application and during the active period of the Federal award.

**Item 2** – Indicate whether the Sponsor can commence the project within the same fiscal year the grant is made or within 6 months of when the grant is made, whichever is later. Attach explanation for negative responses. This information is considered when allocating discretionary funds. (49 U.S.C. § 47115(d)(2))

**Item 3** – Indicate whether the Sponsor can complete the project without unreasonable delays. If applicable, provide listing of foreseeable events (winter shutdown, land acquisition issues, non-aeronautical events, etc.) that have potential to delay completion of the project. (49 USC § 47106(a))

**Item 4** – Indicate whether the environmental review (i.e. environmental assessment, mitigated FONSI, etc.) identified impacts or effects on the environment that require mitigating measures that lessen the impact or effect on the environment. If yes, provide a summary listing of mitigating measures. (49 U.S.C. § 47106(c))

**Item 5** – Indicate whether the project covered by this request is also covered by an approved Passenger Facility Charge (PFC) application or other Federal assistance program by selecting all applicable check boxes (49 U.S.C. § 40117(d) and 2 CFR § 200.403). If the approved PFC application only addresses the Sponsor's AIP matching share, select the appropriate check box.

If the project, or portions thereof, is covered by another Federal assistance program, identify the Federal assistance program by name and the Catalog of Federal Domestic Assistance (CFDA) number.

**Item 6** – Indicate whether the Sponsor intends to seek reimbursement of Sponsor indirect costs as defined by 2 CFR §200.414 and 2 CFR Appendix VII to Part 200. This information request **does not** include the indirect costs claimed by a for-profit entity (e.g. consultant).

- The de minimis rate may only be used if the Sponsor has not previously received a negotiated Indirect Cost Rate (ICR) and does not exceed the limitations prescribed in Appendix VII to Part 200.
- A Sponsor with an existing approved negotiated ICR must identify the ICR value, the name of the cognizant agency that approved the ICR and the date of approval.

#### **SECTION B. CERTIFICATION REGARDING LOBBYING**

This section addresses the Sponsor's declaration regarding lobbying activities. The declaration made in the section are under signature of the authorized representative as identified in box 21 of form SF-424, to which this form is attached.

Title 31 U.S.C. § 1352 establishes that no appropriated funds may be expended by a recipient of a Federal grant to pay any person for influencing or attempting to influence an officer or employee of any agency, Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this covered Federal assistance action. Pursuant to 40 CFR part 20, this certification attests that the Sponsor has not made, and will not make, any prohibited payment by 31 U.S.C. § 1352.

## SECTION C. REPRESENTATIONS AND CERTIFICATION

#### **SPECIFIC ASSURANCES**

Specific assurances required to be included in grant agreements by any of the above laws, regulations or circulars are incorporated by reference in this grant agreement.

---

#### **FOOTNOTES TO ASSURANCE C.1.**

- <sup>1</sup> These laws do not apply to airport planning sponsors.
- <sup>2</sup> These laws do not apply to private sponsors.
- <sup>3</sup> 49 CFR Part 18 and 2 CFR Part 200 contain requirements for State and Local Governments receiving Federal assistance. Any requirement levied upon State and Local Governments by this regulation and circular shall also be applicable to private sponsors receiving Federal assistance under Title 49, United States Code.
- <sup>4</sup> On December 26, 2013 at 78 FR 78590, the Office of Management and Budget (OMB) issued the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards in 2 CFR Part 200. 2 CFR Part 200 replaces and combines the former Uniform Administrative Requirements for Grants (OMB Circular A-102 and Circular A-110 or 2 CFR Part 215 or Circular) as well as the Cost Principles (Circulars A-21 or 2 CFR part 220; Circular A-87 or 2 CFR part 225; and A-122, 2 CFR part 230). Additionally it replaces Circular A-133 guidance on the Single Annual Audit. In accordance with 2 CFR section 200.110, the standards set forth in Part 200 which affect administration of Federal awards issued by Federal agencies become effective once implemented by Federal agencies or when any future amendment to this Part becomes final. Federal agencies, including the Department of Transportation, must implement the policies and procedures applicable to Federal awards by promulgating a regulation to be effective by December 26, 2014 unless different provisions are required by statute or approved by OMB.

- <sup>5</sup> Cost principles established in 2 CFR part 200 subpart E must be used as guidelines for determining the eligibility of specific types of expenses.
- <sup>6</sup> Audit requirements established in 2 CFR part 200 subpart F are the guidelines for audits.

**2. Responsibility and Authority of the Sponsor.**

a. Public Agency Sponsor:

It has legal authority to apply for this grant, and to finance and carry out the proposed project; that a resolution, motion or similar action has been duly adopted or passed as an official act of the applicant's governing body authorizing the filing of the application, including all understandings and assurances contained therein, and directing and authorizing the person identified as the official representative of the applicant to act in connection with the application and to provide such additional information as may be required.

b. Private Sponsor:

It has legal authority to apply for this grant and to finance and carry out the proposed project and comply with all terms, conditions, and assurances of this grant agreement. It shall designate an official representative and shall in writing direct and authorize that person to file this application, including all understandings and assurances contained therein; to act in connection with this application; and to provide such additional information as may be required.

**3. Sponsor Fund Availability.**

It has sufficient funds available for that portion of the project costs which are not to be paid by the United States. It has sufficient funds available to assure operation and maintenance of items funded under this grant agreement which it will own or control.

**4. Good Title.**

- a. It, a public agency or the Federal government, holds good title, satisfactory to the Secretary, to the landing area of the airport or site thereof, or will give assurance satisfactory to the Secretary that good title will be acquired.
- b. For noise compatibility program projects to be carried out on the property of the sponsor, it holds good title satisfactory to the Secretary to that portion of the property upon which Federal funds will be expended or will give assurance to the Secretary that good title will be obtained.

**5. Preserving Rights and Powers.**

- a. It will not take or permit any action which would operate to deprive it of any of the rights and powers necessary to perform any or all of the terms, conditions, and assurances in this grant agreement without the written approval of the Secretary, and will act promptly to acquire, extinguish or modify any outstanding rights or claims of right of others which would interfere with such performance by the sponsor. This shall be done in a manner acceptable to the Secretary.
- b. Subject to the FAA Act of 2018, Public Law 115-254, Section 163, it will not sell, lease, encumber, or otherwise transfer or dispose of any part of its title or other interests in the property shown on Exhibit A to this application or, for a noise compatibility program project, that portion of the property upon which Federal funds have been expended, for the duration of the terms, conditions, and assurances in this grant agreement without approval by the

Secretary. If the transferee is found by the Secretary to be eligible under Title 49, United States Code, to assume the obligations of this grant agreement and to have the power, authority, and financial resources to carry out all such obligations, the sponsor shall insert in the contract or document transferring or disposing of the sponsor's interest, and make binding upon the transferee all of the terms, conditions, and assurances contained in this grant agreement.

- c. For all noise compatibility program projects which are to be carried out by another unit of local government or are on property owned by a unit of local government other than the sponsor, it will enter into an agreement with that government. Except as otherwise specified by the Secretary, that agreement shall obligate that government to the same terms, conditions, and assurances that would be applicable to it if it applied directly to the FAA for a grant to undertake the noise compatibility program project. That agreement and changes thereto must be satisfactory to the Secretary. It will take steps to enforce this agreement against the local government if there is substantial non-compliance with the terms of the agreement.
- d. For noise compatibility program projects to be carried out on privately owned property, it will enter into an agreement with the owner of that property which includes provisions specified by the Secretary. It will take steps to enforce this agreement against the property owner whenever there is substantial non-compliance with the terms of the agreement.
- e. If the sponsor is a private sponsor, it will take steps satisfactory to the Secretary to ensure that the airport will continue to function as a public-use airport in accordance with these assurances for the duration of these assurances.
- f. If an arrangement is made for management and operation of the airport by any agency or person other than the sponsor or an employee of the sponsor, the sponsor will reserve sufficient rights and authority to insure that the airport will be operated and maintained in accordance Title 49, United States Code, the regulations and the terms, conditions and assurances in this grant agreement and shall insure that such arrangement also requires compliance therewith.
- g. Sponsors of commercial service airports will not permit or enter into any arrangement that results in permission for the owner or tenant of a property used as a residence, or zoned for residential use, to taxi an aircraft between that property and any location on airport. Sponsors of general aviation airports entering into any arrangement that results in permission for the owner of residential real property adjacent to or near the airport must comply with the requirements of Sec. 136 of Public Law 112-95 and the sponsor assurances.

**6. Consistency with Local Plans.**

The project is reasonably consistent with plans (existing at the time of submission of this application) of public agencies that are authorized by the State in which the project is located to plan for the development of the area surrounding the airport.

**7. Consideration of Local Interest.**

It has given fair consideration to the interest of communities in or near where the project may be located.

**8. Consultation with Users.**

In making a decision to undertake any airport development project under Title 49, United States Code, it has undertaken reasonable consultations with affected parties using the airport at which project is proposed.

**9. Public Hearings.**

In projects involving the location of an airport, an airport runway, or a major runway extension, it has afforded the opportunity for public hearings for the purpose of considering the economic, social, and environmental effects of the airport or runway location and its consistency with goals and objectives of such planning as has been carried out by the community and it shall, when requested by the Secretary, submit a copy of the transcript of such hearings to the Secretary. Further, for such projects, it has on its management board either voting representation from the communities where the project is located or has advised the communities that they have the right to petition the Secretary concerning a proposed project.

**10. Metropolitan Planning Organization.**

In projects involving the location of an airport, an airport runway, or a major runway extension at a medium or large hub airport, the sponsor has made available to and has provided upon request to the metropolitan planning organization in the area in which the airport is located, if any, a copy of the proposed amendment to the airport layout plan to depict the project and a copy of any airport master plan in which the project is described or depicted.

**11. Pavement Preventive Maintenance.**

With respect to a project approved after January 1, 1995, for the replacement or reconstruction of pavement at the airport, it assures or certifies that it has implemented an effective airport pavement maintenance-management program and it assures that it will use such program for the useful life of any pavement constructed, reconstructed or repaired with Federal financial assistance at the airport. It will provide such reports on pavement condition and pavement management programs as the Secretary determines may be useful.

**12. Terminal Development Prerequisites.**

For projects which include terminal development at a public use airport, as defined in Title 49, it has, on the date of submittal of the project grant application, all the safety equipment required for certification of such airport under section 44706 of Title 49, United States Code, and all the security equipment required by rule or regulation, and has provided for access to the passenger enplaning and deplaning area of such airport to passengers enplaning and deplaning from aircraft other than air carrier aircraft.

**13. Accounting System, Audit, and Record Keeping Requirements.**

- a. It shall keep all project accounts and records which fully disclose the amount and disposition by the recipient of the proceeds of this grant, the total cost of the project in connection with which this grant is given or used, and the amount or nature of that portion of the cost of the project supplied by other sources, and such other financial records pertinent to the project. The accounts and records shall be kept in accordance with an accounting system that will facilitate an effective audit in accordance with the Single Audit Act of 1984.
- b. It shall make available to the Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, for the purpose of audit and examination, any books, documents, papers, and records of the recipient that are pertinent to this grant. The Secretary may require that an appropriate audit be conducted by a recipient. In any case in which an independent audit is made of the accounts of a sponsor relating to the disposition of the proceeds of a grant or relating to the project in connection with which this grant was given or used, it shall file a certified copy of such audit with the Comptroller General of the United States not later than six (6) months following the close of the fiscal year for which the audit was made.

**14. Minimum Wage Rates.**

It shall include, in all contracts in excess of \$2,000 for work on any projects funded under this grant agreement which involve labor, provisions establishing minimum rates of wages, to be predetermined by the Secretary of Labor, in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a-276a-5), which contractors shall pay to skilled and unskilled labor, and such minimum rates shall be stated in the invitation for bids and shall be included in proposals or bids for the work.

**15. Veteran's Preference.**

It shall include in all contracts for work on any project funded under this grant agreement which involve labor, such provisions as are necessary to insure that, in the employment of labor (except in executive, administrative, and supervisory positions), preference shall be given to Vietnam era veterans, Persian Gulf veterans, Afghanistan-Iraq war veterans, disabled veterans, and small business concerns owned and controlled by disabled veterans as defined in Section 47112 of Title 49, United States Code. However, this preference shall apply only where the individuals are available and qualified to perform the work to which the employment relates.

**16. Conformity to Plans and Specifications.**

It will execute the project subject to plans, specifications, and schedules approved by the Secretary. Such plans, specifications, and schedules shall be submitted to the Secretary prior to commencement of site preparation, construction, or other performance under this grant agreement, and, upon approval of the Secretary, shall be incorporated into this grant agreement. Any modification to the approved plans, specifications, and schedules shall also be subject to approval of the Secretary, and incorporated into this grant agreement.

**17. Construction Inspection and Approval.**

It will provide and maintain competent technical supervision at the construction site throughout the project to assure that the work conforms to the plans, specifications, and schedules approved by the Secretary for the project. It shall subject the construction work on any project contained in an approved project application to inspection and approval by the Secretary and such work shall be in accordance with regulations and procedures prescribed by the Secretary. Such regulations and procedures shall require such cost and progress reporting by the sponsor or sponsors of such project as the Secretary shall deem necessary.

**18. Planning Projects.**

In carrying out planning projects:

- a. It will execute the project in accordance with the approved program narrative contained in the project application or with the modifications similarly approved.
- b. It will furnish the Secretary with such periodic reports as required pertaining to the planning project and planning work activities.
- c. It will include in all published material prepared in connection with the planning project a notice that the material was prepared under a grant provided by the United States.
- d. It will make such material available for examination by the public, and agrees that no material prepared with funds under this project shall be subject to copyright in the United States or any other country.
- e. It will give the Secretary unrestricted authority to publish, disclose, distribute, and otherwise use any of the material prepared in connection with this grant.

- f. It will grant the Secretary the right to disapprove the sponsor's employment of specific consultants and their subcontractors to do all or any part of this project as well as the right to disapprove the proposed scope and cost of professional services.
- g. It will grant the Secretary the right to disapprove the use of the sponsor's employees to do all or any part of the project.
- h. It understands and agrees that the Secretary's approval of this project grant or the Secretary's approval of any planning material developed as part of this grant does not constitute or imply any assurance or commitment on the part of the Secretary to approve any pending or future application for a Federal airport grant.

**19. Operation and Maintenance.**

- a. The airport and all facilities which are necessary to serve the aeronautical users of the airport, other than facilities owned or controlled by the United States, shall be operated at all times in a safe and serviceable condition and in accordance with the minimum standards as may be required or prescribed by applicable Federal, state and local agencies for maintenance and operation. It will not cause or permit any activity or action thereon which would interfere with its use for airport purposes. It will suitably operate and maintain the airport and all facilities thereon or connected therewith, with due regard to climatic and flood conditions. Any proposal to temporarily close the airport for non-aeronautical purposes must first be approved by the Secretary. In furtherance of this assurance, the sponsor will have in effect arrangements for-
  - 1) Operating the airport's aeronautical facilities whenever required;
  - 2) Promptly marking and lighting hazards resulting from airport conditions, including temporary conditions; and
  - 3) Promptly notifying airmen of any condition affecting aeronautical use of the airport. Nothing contained herein shall be construed to require that the airport be operated for aeronautical use during temporary periods when snow, flood or other climatic conditions interfere with such operation and maintenance. Further, nothing herein shall be construed as requiring the maintenance, repair, restoration, or replacement of any structure or facility which is substantially damaged or destroyed due to an act of God or other condition or circumstance beyond the control of the sponsor.
- b. It will suitably operate and maintain noise compatibility program items that it owns or controls upon which Federal funds have been expended.

**20. Hazard Removal and Mitigation.**

It will take appropriate action to assure that such terminal airspace as is required to protect instrument and visual operations to the airport (including established minimum flight altitudes) will be adequately cleared and protected by removing, lowering, relocating, marking, or lighting or otherwise mitigating existing airport hazards and by preventing the establishment or creation of future airport hazards.

**21. Compatible Land Use.**

It will take appropriate action, to the extent reasonable, including the adoption of zoning laws, to restrict the use of land adjacent to or in the immediate vicinity of the airport to activities and purposes compatible with normal airport operations, including landing and takeoff of aircraft. In addition, if the project is for noise compatibility program implementation, it will not cause or permit any change in land use, within its jurisdiction, that will reduce its compatibility, with

respect to the airport, of the noise compatibility program measures upon which Federal funds have been expended.

## 22. Economic Nondiscrimination.

- a. It will make the airport available as an airport for public use on reasonable terms and without unjust discrimination to all types, kinds and classes of aeronautical activities, including commercial aeronautical activities offering services to the public at the airport.
- b. In any agreement, contract, lease, or other arrangement under which a right or privilege at the airport is granted to any person, firm, or corporation to conduct or to engage in any aeronautical activity for furnishing services to the public at the airport, the sponsor will insert and enforce provisions requiring the contractor to-
  - 1) furnish said services on a reasonable, and not unjustly discriminatory, basis to all users thereof, and
  - 2) charge reasonable, and not unjustly discriminatory, prices for each unit or service, provided that the contractor may be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar types of price reductions to volume purchasers.
- c. Each fixed-based operator at the airport shall be subject to the same rates, fees, rentals, and other charges as are uniformly applicable to all other fixed-based operators making the same or similar uses of such airport and utilizing the same or similar facilities.
- d. Each air carrier using such airport shall have the right to service itself or to use any fixed-based operator that is authorized or permitted by the airport to serve any air carrier at such airport.
- e. Each air carrier using such airport (whether as a tenant, non-tenant, or subtenant of another air carrier tenant) shall be subject to such nondiscriminatory and substantially comparable rules, regulations, conditions, rates, fees, rentals, and other charges with respect to facilities directly and substantially related to providing air transportation as are applicable to all such air carriers which make similar use of such airport and utilize similar facilities, subject to reasonable classifications such as tenants or non-tenants and signatory carriers and non-signatory carriers. Classification or status as tenant or signatory shall not be unreasonably withheld by any airport provided an air carrier assumes obligations substantially similar to those already imposed on air carriers in such classification or status.
- f. It will not exercise or grant any right or privilege which operates to prevent any person, firm, or corporation operating aircraft on the airport from performing any services on its own aircraft with its own employees [including, but not limited to maintenance, repair, and fueling] that it may choose to perform.
- g. In the event the sponsor itself exercises any of the rights and privileges referred to in this assurance, the services involved will be provided on the same conditions as would apply to the furnishing of such services by commercial aeronautical service providers authorized by the sponsor under these provisions.
- h. The sponsor may establish such reasonable, and not unjustly discriminatory, conditions to be met by all users of the airport as may be necessary for the safe and efficient operation of the airport.

- i. The sponsor may prohibit or limit any given type, kind or class of aeronautical use of the airport if such action is necessary for the safe operation of the airport or necessary to serve the civil aviation needs of the public.

### **23. Exclusive Rights.**

It will permit no exclusive right for the use of the airport by any person providing, or intending to provide, aeronautical services to the public. For purposes of this paragraph, the providing of the services at an airport by a single fixed-based operator shall not be construed as an exclusive right if both of the following apply:

- a. It would be unreasonably costly, burdensome, or impractical for more than one fixed-based operator to provide such services, and
- b. If allowing more than one fixed-based operator to provide such services would require the reduction of space leased pursuant to an existing agreement between such single fixed-based operator and such airport. It further agrees that it will not, either directly or indirectly, grant or permit any person, firm, or corporation, the exclusive right at the airport to conduct any aeronautical activities, including, but not limited to charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity, and that it will terminate any exclusive right to conduct an aeronautical activity now existing at such an airport before the grant of any assistance under Title 49, United States Code.

### **24. Fee and Rental Structure.**

It will maintain a fee and rental structure for the facilities and services at the airport which will make the airport as self-sustaining as possible under the circumstances existing at the particular airport, taking into account such factors as the volume of traffic and economy of collection. No part of the Federal share of an airport development, airport planning or noise compatibility project for which a grant is made under Title 49, United States Code, the Airport and Airway Improvement Act of 1982, the Federal Airport Act or the Airport and Airway Development Act of 1970 shall be included in the rate basis in establishing fees, rates, and charges for users of that airport.

### **25. Airport Revenues.**

- a. All revenues generated by the airport and any local taxes on aviation fuel established after December 30, 1987, will be expended by it for the capital or operating costs of the airport; the local airport system; or other local facilities which are owned or operated by the owner or operator of the airport and which are directly and substantially related to the actual air transportation of passengers or property; or for noise mitigation purposes on or off the airport. The following exceptions apply to this paragraph:
  - 1) If covenants or assurances in debt obligations issued before September 3, 1982, by the owner or operator of the airport, or provisions enacted before September 3, 1982, in governing statutes controlling the owner or operator's financing, provide for the use of the revenues from any of the airport owner or operator's facilities, including the airport, to support not only the airport but also the airport owner or operator's general debt obligations or other facilities, then this limitation on the use of all revenues generated

by the airport (and, in the case of a public airport, local taxes on aviation fuel) shall not apply.

- 2) If the Secretary approves the sale of a privately owned airport to a public sponsor and provides funding for any portion of the public sponsor's acquisition of land, this limitation on the use of all revenues generated by the sale shall not apply to certain proceeds from the sale. This is conditioned on repayment to the Secretary by the private owner of an amount equal to the remaining unamortized portion (amortized over a 20-year period) of any airport improvement grant made to the private owner for any purpose other than land acquisition on or after October 1, 1996, plus an amount equal to the federal share of the current fair market value of any land acquired with an airport improvement grant made to that airport on or after October 1, 1996.
- 3) Certain revenue derived from or generated by mineral extraction, production, lease, or other means at a general aviation airport (as defined at Section 47102 of title 49 United States Code), if the FAA determines the airport sponsor meets the requirements set forth in Sec. 813 of Public Law 112-95.
  - b. As part of the annual audit required under the Single Audit Act of 1984, the sponsor will direct that the audit will review, and the resulting audit report will provide an opinion concerning, the use of airport revenue and taxes in paragraph (a), and indicating whether funds paid or transferred to the owner or operator are paid or transferred in a manner consistent with Title 49, United States Code and any other applicable provision of law, including any regulation promulgated by the Secretary or Administrator.
  - c. Any civil penalties or other sanctions will be imposed for violation of this assurance in accordance with the provisions of Section 47107 of Title 49, United States Code.

## 26. Reports and Inspections.

It will:

- a. submit to the Secretary such annual or special financial and operations reports as the Secretary may reasonably request and make such reports available to the public; make available to the public at reasonable times and places a report of the airport budget in a format prescribed by the Secretary;
- b. for airport development projects, make the airport and all airport records and documents affecting the airport, including deeds, leases, operation and use agreements, regulations and other instruments, available for inspection by any duly authorized agent of the Secretary upon reasonable request;
- c. for noise compatibility program projects, make records and documents relating to the project and continued compliance with the terms, conditions, and assurances of this grant agreement including deeds, leases, agreements, regulations, and other instruments, available for inspection by any duly authorized agent of the Secretary upon reasonable request; and
- d. in a format and time prescribed by the Secretary, provide to the Secretary and make available to the public following each of its fiscal years, an annual report listing in detail:
  - 1) all amounts paid by the airport to any other unit of government and the purposes for which each such payment was made; and
  - 2) all services and property provided by the airport to other units of government and the amount of compensation received for provision of each such service and property.

## **27. Use by Government Aircraft.**

It will make available all of the facilities of the airport developed with Federal financial assistance and all those usable for landing and takeoff of aircraft to the United States for use by Government aircraft in common with other aircraft at all times without charge, except, if the use by Government aircraft is substantial, charge may be made for a reasonable share, proportional to such use, for the cost of operating and maintaining the facilities used. Unless otherwise determined by the Secretary, or otherwise agreed to by the sponsor and the using agency, substantial use of an airport by Government aircraft will be considered to exist when operations of such aircraft are in excess of those which, in the opinion of the Secretary, would unduly interfere with use of the landing areas by other authorized aircraft, or during any calendar month that –

- a. Five (5) or more Government aircraft are regularly based at the airport or on land adjacent thereto; or
- b. The total number of movements (counting each landing as a movement) of Government aircraft is 300 or more, or the gross accumulative weight of Government aircraft using the airport (the total movement of Government aircraft multiplied by gross weights of such aircraft) is in excess of five million pounds.

## **28. Land for Federal Facilities.**

It will furnish without cost to the Federal Government for use in connection with any air traffic control or air navigation activities, or weather-reporting and communication activities related to air traffic control, any areas of land or water, or estate therein, or rights in buildings of the sponsor as the Secretary considers necessary or desirable for construction, operation, and maintenance at Federal expense of space or facilities for such purposes. Such areas or any portion thereof will be made available as provided herein within four months after receipt of a written request from the Secretary.

## **29. Airport Layout Plan.**

- a. Subject to the FAA Reauthorization Act of 2018, Public Law 115-254, Section 163, it will keep up to date at all times an airport layout plan of the airport showing:
  - 1) boundaries of the airport and all proposed additions thereto, together with the boundaries of all offsite areas owned or controlled by the sponsor for airport purposes and proposed additions thereto;
  - 2) the location and nature of all existing and proposed airport facilities and structures (such as runways, taxiways, aprons, terminal buildings, hangars and roads), including all proposed extensions and reductions of existing airport facilities;
  - 3) the location of all existing and proposed non-aviation areas and of all existing improvements thereon; and
  - 4) all proposed and existing access points used to taxi aircraft across the airport's property boundary. Such airport layout plans and each amendment, revision, or modification thereof, shall be subject to the approval of the Secretary which approval shall be evidenced by the signature of a duly authorized representative of the Secretary on the face of the airport layout plan. The sponsor will not make or permit any changes or alterations in the airport or any of its facilities which are not in conformity

with the airport layout plan as approved by the Secretary and which might, in the opinion of the Secretary, adversely affect the safety, utility or efficiency of the airport.

- b. Subject to the FAA Reauthorization Act of 2018, Public Law 115-254, Section 163, if a change or alteration in the airport or the facilities is made which the Secretary determines adversely affects the safety, utility, or efficiency of any federally owned, leased, or funded property on or off the airport and which is not in conformity with the airport layout plan as approved by the Secretary, the owner or operator will, if requested, by the Secretary (1) eliminate such adverse effect in a manner approved by the Secretary; or (2) bear all costs of relocating such property (or replacement thereof) to a site acceptable to the Secretary and all costs of restoring such property (or replacement thereof) to the level of safety, utility, efficiency, and cost of operation existing before the unapproved change in the airport or its facilities except in the case of a relocation or replacement of an existing airport facility due to a change in the Secretary's design standards beyond the control of the airport sponsor.

### 30. Civil Rights.

It will promptly take any measures necessary to ensure that no person in the United States shall, on the grounds of race, creed, color, national origin, sex, age, or disability be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination in any activity conducted with, or benefiting from, funds received from this grant.

- a. Using the definitions of activity, facility and program as found and defined in §§ 21.23 (b) and 21.23 (e) of 49 CFR § 21, the sponsor will facilitate all programs, operate all facilities, or conduct all programs in compliance with all non-discrimination requirements imposed by, or pursuant to these assurances.

#### b. Applicability

- 1) Programs and Activities. If the sponsor has received a grant (or other federal assistance) for any of the sponsor's program or activities, these requirements extend to all of the sponsor's programs and activities.
- 2) Facilities. Where it receives a grant or other federal financial assistance to construct, expand, renovate, remodel, alter or acquire a facility, or part of a facility, the assurance extends to the entire facility and facilities operated in connection therewith.
- 3) Real Property. Where the sponsor receives a grant or other Federal financial assistance in the form of, or for the acquisition of real property or an interest in real property, the assurance will extend to rights to space on, over, or under such property.

#### c. Duration.

The sponsor agrees that it is obligated to this assurance for the period during which Federal financial assistance is extended to the program, except where the Federal financial assistance is to provide, or is in the form of, personal property, or real property, or interest therein, or structures or improvements thereon, in which case the assurance obligates the sponsor, or any transferee for the longer of the following periods:

- 1) So long as the airport is used as an airport, or for another purpose involving the provision of similar services or benefits; or
- 2) So long as the sponsor retains ownership or possession of the property.

- d. Required Solicitation Language. It will include the following notification in all solicitations for bids, Requests For Proposals for work, or material under this grant agreement and in all proposals for agreements, including airport concessions, regardless of funding source:

“The **(Name of Sponsor)**, in accordance with the provisions of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. §§ 2000d to 2000d-4) and the Regulations, hereby notifies all bidders that it will affirmatively ensure that any contract entered into pursuant to this advertisement, disadvantaged business enterprises and airport concession disadvantaged business enterprises will be afforded full and fair opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color, or national origin in consideration for an award.”

- e. Required Contract Provisions.

- 1) It will insert the non-discrimination contract clauses requiring compliance with the acts and regulations relative to non-discrimination in Federally-assisted programs of the DOT, and incorporating the acts and regulations into the contracts by reference in every contract or agreement subject to the non-discrimination in Federally-assisted programs of the DOT acts and regulations.
- 2) It will include a list of the pertinent non-discrimination authorities in every contract that is subject to the non-discrimination acts and regulations.
- 3) It will insert non-discrimination contract clauses as a covenant running with the land, in any deed from the United States effecting or recording a transfer of real property, structures, use, or improvements thereon or interest therein to a sponsor.
- 4) It will insert non-discrimination contract clauses prohibiting discrimination on the basis of race, color, national origin, creed, sex, age, or handicap as a covenant running with the land, in any future deeds, leases, license, permits, or similar instruments entered into by the sponsor with other parties:
  - a. For the subsequent transfer of real property acquired or improved under the applicable activity, project, or program; and
  - b. For the construction or use of, or access to, space on, over, or under real property acquired or improved under the applicable activity, project, or program.
- f. It will provide for such methods of administration for the program as are found by the Secretary to give reasonable guarantee that it, other recipients, sub-recipients, sub-grantees, contractors, subcontractors, consultants, transferees, successors in interest, and other participants of Federal financial assistance under such program will comply with all requirements imposed or pursuant to the acts, the regulations, and this assurance.
- g. It agrees that the United States has a right to seek judicial enforcement with regard to any matter arising under the acts, the regulations, and this assurance.

### 31. Disposal of Land.

- a. For land purchased under a grant for airport noise compatibility purposes, including land serving as a noise buffer, it will dispose of the land, when the land is no longer needed for such purposes, at fair market value, at the earliest practicable time. That portion of the proceeds of such disposition which is proportionate to the United States' share of acquisition of such land will be, at the discretion of the Secretary, (1) reinvested in another project at the airport, or (2) transferred to another eligible airport as prescribed by the Secretary. The Secretary shall give preference to the following, in descending order, (1)

- reinvestment in an approved noise compatibility project, (2) reinvestment in an approved project that is eligible for grant funding under Section 47117(e) of title 49 United States Code, (3) reinvestment in an approved airport development project that is eligible for grant funding under Sections 47114, 47115, or 47117 of title 49 United States Code, (4) transferred to an eligible sponsor of another public airport to be reinvested in an approved noise compatibility project at that airport, and (5) paid to the Secretary for deposit in the Airport and Airway Trust Fund. If land acquired under a grant for noise compatibility purposes is leased at fair market value and consistent with noise buffering purposes, the lease will not be considered a disposal of the land. Revenues derived from such a lease may be used for an approved airport development project that would otherwise be eligible for grant funding or any permitted use of airport revenue.
- b. For land purchased under a grant for airport development purposes (other than noise compatibility), it will, when the land is no longer needed for airport purposes, dispose of such land at fair market value or make available to the Secretary an amount equal to the United States' proportionate share of the fair market value of the land. That portion of the proceeds of such disposition which is proportionate to the United States' share of the cost of acquisition of such land will, (1) upon application to the Secretary, be reinvested or transferred to another eligible airport as prescribed by the Secretary. The Secretary shall give preference to the following, in descending order: (1) reinvestment in an approved noise compatibility project, (2) reinvestment in an approved project that is eligible for grant funding under Section 47117(e) of title 49 United States Code, (3) reinvestment in an approved airport development project that is eligible for grant funding under Sections 47114, 47115, or 47117 of title 49 United States Code, (4) transferred to an eligible sponsor of another public airport to be reinvested in an approved noise compatibility project at that airport, and (5) paid to the Secretary for deposit in the Airport and Airway Trust Fund.
  - c. Land shall be considered to be needed for airport purposes under this assurance if (1) it may be needed for aeronautical purposes (including runway protection zones) or serve as noise buffer land, and (2) the revenue from interim uses of such land contributes to the financial self-sufficiency of the airport. Further, land purchased with a grant received by an airport operator or owner before December 31, 1987, will be considered to be needed for airport purposes if the Secretary or Federal agency making such grant before December 31, 1987, was notified by the operator or owner of the uses of such land, did not object to such use, and the land continues to be used for that purpose, such use having commenced no later than December 15, 1989.
  - d. Disposition of such land under (a) (b) or (c) will be subject to the retention or reservation of any interest or right therein necessary to ensure that such land will only be used for purposes which are compatible with noise levels associated with operation of the airport.

### **32. Engineering and Design Services.**

Engineering and Design Services. If any phase of such project has received Federal funds under Chapter 471 subchapter 1 of Title 49 U.S.C., it will award each contract, or sub-contract for program management, construction management, planning studies, feasibility studies, architectural services, preliminary engineering, design, engineering, surveying, mapping or related services in the same manner as a contract for architectural and engineering services is negotiated under Chapter 11 of Title 40 U. S. C., or an equivalent qualifications-based requirement prescribed for or by the sponsor of the airport.

### **33. Foreign Market Restrictions.**

It will not allow funds provided under this grant to be used to fund any project which uses any product or service of a foreign country during the period in which such foreign country is listed by the United States Trade Representative as denying fair and equitable market opportunities for products and suppliers of the United States in procurement and construction.

### **34. Policies, Standards, and Specifications.**

It will carry out the project in accordance with policies, standards, and specifications approved by the Secretary including, but not limited to, the advisory circulars listed in the Current FAA Advisory Circulars for AIP projects, dated \_\_\_\_\_, and included in this grant, and in accordance with applicable state policies, standards, and specifications approved by the Secretary.

### **35. Relocation and Real Property Acquisition.**

- a. It will be guided in acquiring real property, to the greatest extent practicable under State law, by the land acquisition policies in Subpart B of 49 CFR Part 24 and will pay or reimburse property owners for necessary expenses as specified in Subpart B.
- b. It will provide a relocation assistance program offering the services described in Subpart C and fair and reasonable relocation payments and assistance to displaced persons as required in Subpart D and E of 49 CFR Part 24.
- c. It will make available within a reasonable period of time prior to displacement, comparable replacement dwellings to displaced persons in accordance with Subpart E of 49 CFR Part 24.

### **36. Access By Intercity Buses.**

The airport owner or operator will permit, to the maximum extent practicable, intercity buses or other modes of transportation to have access to the airport; however, it has no obligation to fund special facilities for intercity buses or for other modes of transportation.

### **37. Disadvantaged Business Enterprises.**

The sponsor shall not discriminate on the basis of race, color, national origin or sex in the award and performance of any DOT-assisted contract covered by 49 CFR Part 26, or in the award and performance of any concession activity contract covered by 49 CFR Part 23. In addition, the sponsor shall not discriminate on the basis of race, color, national origin or sex in the administration of its Disadvantaged Business Enterprise (DBE) and Airport Concessions Disadvantaged Business Enterprise (ACDBE) programs or the requirements of 49 CFR Parts 23 and 26. The sponsor shall take all necessary and reasonable steps under 49 CFR Parts 23 and 26 to ensure nondiscrimination in the award and administration of DOT-assisted contracts, and/or concession contracts. The sponsor's DBE and ACDBE programs, as required by 49 CFR Parts 26 and 23, and as approved by DOT, are incorporated by reference in this agreement. Implementation of these programs is a legal obligation and failure to carry out its terms shall be treated as a violation of this agreement. Upon notification to the sponsor of its failure to carry out its approved program, the Department may impose sanctions as provided for under Parts 26 and 23 and may, in appropriate cases, refer the matter for enforcement under 18 U.S.C. 1001 and/or the Program Fraud Civil Remedies Act of 1936 (31 U.S.C. 3801).

### **38. Hangar Construction.**

If the airport owner or operator and a person who owns an aircraft agree that a hangar is to be constructed at the airport for the aircraft at the aircraft owner's expense, the airport owner or

operator will grant to the aircraft owner for the hangar a long term lease that is subject to such terms and conditions on the hangar as the airport owner or operator may impose.

**39. Competitive Access.**

- a. If the airport owner or operator of a medium or large hub airport (as defined in section 47102 of title 49, U.S.C.) has been unable to accommodate one or more requests by an air carrier for access to gates or other facilities at that airport in order to allow the air carrier to provide service to the airport or to expand service at the airport, the airport owner or operator shall transmit a report to the Secretary that-
  - 1) Describes the requests;
  - 2) Provides an explanation as to why the requests could not be accommodated; and
  - 3) Provides a time frame within which, if any, the airport will be able to accommodate the requests.
- b. Such report shall be due on either February 1 or August 1 of each year if the airport has been unable to accommodate the request(s) in the six month period prior to the applicable due date.

GCD is a conservation district duly organized under the Colorado Soil Conservation Act, C.R.S. §35-70-101, *et seq.*, authorized and empowered to undertake certain actions to prevent and remediate the loss of soil and water through wind and water erosion and depletion of subsurface water resources. The boundaries of GCD encompass a substantial portion of Gunnison County.

5. The Gunnison Basin Sage-grouse Strategic Committee is a formal entity of Gunnison County. Administrative and professional support is provided to the Committee by Gunnison County.

## SITE USE AGREEMENT

This Site Use Agreement (“**Agreement**”) is made on 1/28, 2022 (“**Effective Date**”) between The Vail Corporation, a Colorado corporation, or the applicable affiliate (“**Company**”) and Gunnison County (“**Permittee**”).

### BACKGROUND

A. Company owns or operates Crested Butte Ski Resort located in Gunnison County, Colorado (“**Resort**”).

B. Permittee desires to access certain portions of property located at the Resort (the “**Premises**”) as more particularly set forth on **Exhibit A**.

### AGREEMENT

The parties agree:

**1. SCOPE OF USE.** Permittee may access the Premises solely for the purposes described on **Exhibit A** (“**Permitted Use**”). Permittee, with Company’s prior written approval, may erect certain temporary structures as necessary or desirable in connection with the Permitted Use. The Permitted Use is limited to the Premises and does not include any other property owned or operated by Company without Company’s prior written consent. Permittee is specifically prohibited from selling or serving beer, wine or spirituous liquors, unless Permittee has separately contracted with Company food and beverage services. If applicable, Company or its affiliate will be responsible for providing, serving, dispensing, selling or otherwise distributing all alcoholic beverages on the Premises and will be responsible for controlling the Premises in accordance with applicable liquor laws.

**2. PERMITTEE’S OBLIGATIONS.**

2.1. In connection with the Permitted Use, Permittee will use its best efforts to ensure the Premises are maintained in a clean and presentable condition acceptable to Company and the Permitted Use will not interfere in any manner with Company’s use of the Premises. Permittee will comply with all Company instructions with respect to the Permitted Use and will use its best efforts to (i) avoid damage to vegetation and landscaping; and (ii) maintain adequate control of erosion, runoff and drainage. Permittee will not cause or allow disruption of or interference with pedestrian or vehicular traffic within the Premises or the Resort without Company’s prior written approval.

2.2. Permittee will remove, or cause the removal of, all materials, supplies, equipment and other property and items brought onto the Premises by Permittee in connection with this Agreement (including, without limitation, any refuse dumpster and construction fencing).

2.3. Permittee will restore, or cause the restoration of, any affected portions of the Premises to substantially the same condition in which they were found on the Effective Date, including, without limitation, policing of those areas as necessary to remove waste materials, rubbish, debris, or inordinate dirt or dust, and other actions as necessary or appropriate to leave those areas in a good, sightly condition.

2.4. As part of the necessary restorations, and as and to the extent required by the Company, Permittee will complete, or cause the completion of, any remaining replacements of trees, vegetation or other objects removed or damaged in connection with the Permitted Use. Permittee will also repair any paving or other improvements or structures which are damaged or altered in connection with the Permitted Use.

2.5. Permittee understands and acknowledges that hazardous substances are not allowed to be brought onto or discharged at the Premises by Permittee or any other party entering the Premises in connection with the Permitted Use. If any hazardous substances (including without limitation petroleum products) are brought onto or discharged at the Premises in violation of this Section, Permittee will be solely responsible for all clean-up and remediation in accordance with all applicable laws and regulations, including without limitation, environmental laws and regulations. The Permittee will immediately notify the Company if any hazardous substances are brought onto or discharged at the Premises, and will indemnify and defend Company against all claims resulting from the same.

**3. SITE USE FEE; PAYMENT.** Unless otherwise agreed to in writing by the parties, Permittee is responsible for all costs associated with the Permitted Use. Upon execution of this Agreement, Permittee will pay the site use fee (the “**Site Use Fee**”) set forth on **Exhibit A**, if any. If Company incurs any costs related to the Permitted Use, Company will submit an invoice to Permittee, and Permittee will pay the invoice upon receipt. Any invoice not paid when due will accrue interest at the rate of 18% per annum from the date of invoice until the account is paid in full. Permittee will pay all costs and expenses Company may incur in connection with the collection of Permittee’s delinquent account including reasonable attorneys’ fees, court costs and agency fees.

**4. INTELLECTUAL PROPERTY.** Company’s trademarks, names, logos and other intellectual property (collectively, the “**Company IP**”) are the sole property of Company or its subsidiaries and affiliates and, except as specifically authorized by this Agreement, Permittee does not have any right, title or interest in any of the Company IP. Permittee acknowledges that (i) all of the Company IP have great value and good will; and (ii) if Permittee breaches this Section, injury to Company would be irreparable and injunctive relief to protect Company’s interests would be appropriate, without limiting Company’s other remedies allowed by law. Permittee will not use any Company IP without obtaining prior written permission from Company. Any Company trademarks used by Permittee must be accompanied by adequate notification of Company’s ownership including proper usage of the ™ and/or the ® symbols, as appropriate.

## **5. INSURANCE.**

5.1. Permittee will carry and maintain, at its sole cost, the following insurance policies with insurance companies with an AM Best Rating of no less than A- VII and on forms satisfactory to Company:

(i) Commercial general liability insurance in an occurrence format in an amount of \$1,000,000 per occurrence and \$2,000,000 in the aggregate, covering liability arising out of premises operations, personal and advertising injury, products-completed operations, contractual liability and independent contractors. This policy must not contain any participant or spectator exclusions.

(ii) if the Permitted Use requires Permittee’s use of a vehicle other than in a parking lot, commercial or comprehensive auto liability insurance with a limit of insurance no less than \$1,000,000 combined single limit each accident for bodily injury and property damage covering “any auto” whether owned, non-owned, scheduled, leased or hired.

(iii) Workers’ Compensation insurance if required by applicable law.

5.2. Permittee's insurance required by subsections (i) and (ii) will be primary and non-contributory to any insurance held by Company and its affiliates and, except for Workers' Compensation, the policies will include a waiver of subrogation and will name Company and the Forest Service, if applicable, as additional insured. Permittee will (i) provide Company with certificates of insurance evidencing the policies listed above upon execution of this Agreement; and (ii) provide Company with a copy of any carrier notice of cancellation or notice of material changes to policy conditions within five business days after the notice is received.

**6. SUBCONTRACTORS.** If Permittee engages any subcontractors in connection with this Agreement, Permittee will contractually obligate those subcontractors to comply with the terms of this Agreement.

**7. NO WAIVER OF GOVERNMENTAL IMMUNITY**

The parties hereto understand and agree that the County is relying upon, and has not waived, the monetary limitations and all other rights, immunities and protection provided by the Colorado Governmental Immunity Act or otherwise.

**8. LICENSES, APPROVALS AND PERMITS.** Unless otherwise agreed in writing by the parties, Permittee must obtain, at its own cost, all licenses or permits that may be required in connection with the Permitted Use. If the Permitted Use is related to a construction project, the Permittee will secure and provide copies to Company of all licenses, permits and approvals required by law or any governmental or regulatory agencies applicable to the Permitted Use in connection with the construction project. Such licenses, permits and approvals will be in the form and substance reasonably satisfactory to Company. Any violation of this Section will be grounds for immediate termination of this Agreement.

**9. TERM; TERMINATION.** This Agreement starts on the Effective Date and will expire at the conclusion of the Permitted Use as set forth on **Exhibit A** (the "**Term**"). Company may terminate this Agreement for any reason by providing seven days' prior written notice to Permittee. At the end of the Term or upon termination of this Agreement for any reason, Permittee will vacate the Premises. At the end of the Term, at the direction of Company, Permittee will, at its expense, take all action necessary to return the Premises to the condition it was in at the start of the Permitted Use.

**10. EQUIPMENT.** Permittee may use its own equipment in connection with the Permitted Use; provided, that Permittee will bear the burden of all misuse or wear and tear and risks of loss or damage to its equipment used in connection with this Agreement or brought onto the Premises for any purpose.

**11. PERMITTEE CLEANING OBLIGATIONS.** Permittee must at all times maintain the Premises and equipment and materials used for the Permitted Use in a clean, sanitized, and presentable condition in accordance with all applicable laws, including without limitation, any applicable Center for Disease control guidance and recommendations, and all other health care requirements and standards. Upon expiration and/or termination of this Agreement, Permittee must thoroughly clean, sanitize, and disinfect the Premises with a deep, medical grade cleaning in accordance with all laws then in effect, including any Center for Disease control guidance and recommendations and all other health care requirements and standards.

**12. PERMITTEE COMPLIANCE.** Permittee must comply with the following "**Permittee Requirements**":

- a. Comply with all applicable laws, rules, regulations, and orders, including applicable health and safety regulations, as well as Company's policies and procedures applicable to Permittee's use and occupancy of the Premises. Permittee must provide Company with a copy of Permittee's current and valid state and/or local licensure for its Permitted Use and approval to operate prior to Permittee's use or occupancy of the Resort.
- b. Develop its own safety program, which must include a COVID safety operating plan, which is subject to Company's review. Permittee's COVID safety operating plan must comply with the requirements of any applicable State or County health department, and any other regulating agency, including review and approval as applicable, and Permittee must provide Company with written confirmation evidencing the same prior to and during Permittee's use or occupancy of the Premises.

Any review or approval by Company of Permittee's COVID safety operating plan or any other plans, rules, guidelines, or releases of Permittee shall not constitute a representation or warranty that Permittee's release, plans, rules or guidelines are in compliance with any laws, rules, regulations, guidelines, or best practices, and Permittee shall be solely responsible for compliance with the same. In the event of non-compliance with any Permittee Requirements, Permittee must provide Company with immediate notice as set forth in Section 16 of this Agreement. In addition, Permittee must take immediate corrective actions to come into compliance and prevent further non-compliance, taking action within no more than 24 hours of having knowledge of, or receiving notice from anyone, regarding any failure to comply with or anticipated non-compliance of Permittee Requirements. **RE: Tourism Management Grant Application**

Dear Colorado Tourism Grant Committee Members:

I am writing today on behalf of the Gunnison County Board of County Commissioners in support of the Marble Crystal River Chamber's application for the Tourism Management Grant.

We are facing pressure from the residents of the Crystal River Valley to address increased use in the valley. We believe that this grant, and the More Mindful Tourism Project, may help alleviate some of the pressure that the increased off-road vehicle use has caused in the Town of Marble and the surrounding area. By giving residents, and those working closely with the public, the training and tools necessary to educate and inform visitors we hope to provide a more enjoyable, safer and sustainable experience. If we can highlight and educate visitors about all of the opportunities for entertainment and cultural growth in and around Marble we are able to create a more balanced local tourism economy that would benefit a wider range of businesses.

We are confident that the program will flow seamlessly with the work and planning already being done surrounding this important issue under the leadership of Dr. Melanie Armstrong from the Center of Public Lands at Western Colorado University. Her knowledgeable and competent leadership, working as a facilitator with a group of stakeholders from the Lead King Loop Steering Committee, is ensuring that everyone is heard and there is transparency in our work.

Thank you for your time in reviewing the application being submitted by the Marble Crystal River Chamber. We appreciate the work you do for our State and for our valley.

Sincerely,

A handwritten signature in blue ink that reads "Marlene D. Crosby".

Marlene D. Crosby

RE: LUC-22-00001

Mountain Shelters Townhomes

The applicants have applied to change the description of the condominiums to townhomes. They were originally built and classified as condominiums in 1994. Lending restrictions for condominiums have become tighter over the past ten years. The owners seek approval to terminate the condominium regime and replace it with a townhome plat. This will technically divide the land. Through there will be no change in the manner of use.

- Lender consent has been submitted
- Taxes are current
- HOA approval has been submitted
- The CAO has reviewed the application and plat and have approved it for review by the BOCC

**ORDINANCE NO. 18**

TITLE: AN ORDINANCE FOR THE REGULATION OF TRAFFIC BY THE COUNTY OF GUNNISON, COLORADO; ADOPTING BY REFERENCE THE 2020 EDITION OF THE "MODEL TRAFFIC CODE"; REPEALING ALL ORDINANCES IN CONFLICT THEREWITH; AND PROVIDING PENALTIES FOR VIOLATION THEREOF.

BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF THE COUNTY OF GUNNISON, COLORADO:

**Section 1. Adoption.**

Pursuant to part 4 of article 15 of title 30, C.R.S., there is hereby adopted by reference the 2020 edition of the "Model Traffic Code" promulgated and published as such by the Colorado Department of Transportation, Traffic Safety and Engineering Services, 2829 W. Howard Place, Denver, CO 80204. The subject matter of the Model Traffic Code relates primarily to comprehensive traffic control regulations for the County. The purpose of this Ordinance and the Code adopted herein is to provide a system of traffic regulations consistent with state law and generally conforming to similar regulations throughout the state and the nation. Three (3) copies of the Model Traffic Code adopted herein are now filed in the office of the Clerk of the County of Gunnison, Colorado, and may be inspected during regular business hours.

**Section 2. Deletions.**

The 2020 edition of the Model Traffic Code is adopted as if set out at length save and except the following articles and/or sections which are declared to be inapplicable to this county and are therefore expressly deleted: none.

**Section 3. Additions or Modifications.**

The said adopted Code is subject to the following additions or modifications:

A. Parking Violations. Pursuant to C.R.S. §§ 42-4-111(1)(a), (c), (v), and (w):

1. No Owner of a motor vehicle shall allow, or fail to prevent, the parking or standing of that motor vehicle on a public road or highway or in a public road or highway right-of-way which road, highway, or right-of-way is marked to indicate that parking is prohibited or restricted. The Owner of a motor vehicle is liable for any such violation, and it shall not be a defense that the Owner was not the person who placed the motor vehicle in the prohibited or restricted area.

2. For purposes of Section 3.A., “Owner” means a person, business, or corporation that holds legal title of a motor vehicle; or, if a motor vehicle is the subject of an agreement for the conditional sale or lease thereof with the right of purchase upon performance of the conditions stated in the agreement and with an immediate right of possession vested in the conditional vendee or lessee or if a mortgagor of a vehicle is entitled to possession, then such conditional vendee or lessee or mortgagor shall be deemed the owner for purposes herein.

#### **Section 4. Penalties.**

If the penalty for violation of a provision is not otherwise provided in C.R.S. § 42-4-1701 or this Ordinance, the penalty for class A and class B traffic infractions shall be fifteen dollars (\$15.00), and the surcharge shall be ten dollars (\$10.00).

The penalty assessment procedure of C.R.S. § 16-2-201 may be followed by law enforcement officers for violations of this Section, in which case the penalty assessment shall be fifty dollars (\$50.00) for the first violation, one hundred fifty dollars (\$150.00) for the second violation, and three hundred dollars (\$300.00) for each subsequent violation. Each day the motor vehicle remains in violation of this subsection shall constitute a separate and distinct offense for which a separate penalty shall be imposed. ## FORWARD

Because of the significant mobility of today's traffic and the influx of motorists from many areas, every driver has a right to expect the rules governing the movement of vehicles and pedestrians on streets and highways are clearly defined and reasonably uniform throughout the state and the nation.

The General Assembly of the State of Colorado has recognized that conflicts between the state's traffic laws and municipal traffic ordinances lead to inconsistencies in the movement of traffic and has strengthened the requirements for uniformity of traffic regulations in the following terms:

“This article constitutes the uniform traffic code throughout the state and in all political subdivisions and municipalities therein”. (Source: 42- 4-110 (1), C.R.S.)

“All local authorities may, in the manner prescribed in article 16 of title 31, C.R.S., or in article 15 of title 30, C.R.S., adopt by reference all or any part of a model traffic code which embodies the rules of the road and vehicle requirements set forth in this article and such other additional regulations as are provided for in section 42-4-111; except that, in the case of state highways, any such additional regulations shall have the approval of the department of transportation”. (Source: 42-4-110 (1)(b), C.R.S.)

“No local authority shall adopt, enact, or enforce on any street which is a state highway any ordinance, rule, or resolution which alters or changes the meaning of the “rules of the road” or is otherwise in conflict with the provisions of this article. For the purpose of this section, the “rules of the road” shall be construed to mean any of the regulations on the operation of vehicles set forth in this article which drivers throughout the state are required to obey without the benefit or necessity of official traffic control devices as declared in section 42-4-603 (2).” (Source: 42- 4-110(1)(c), C.R.S.)

These provisions leave little doubt that the basic driving rules are expected to be uniform statewide for the protection of Colorado drivers and pedestrians. If state laws and local government traffic codes are to serve their purpose they must complement one another and be given the widest possible publicity as companion documents.

The National Committee on Uniform Traffic Laws and Ordinances points out that it is not the proper purpose of traffic legislation to impose unnecessary or unreasonable restrictions on street or highway traffic, but to ensure, as far as this can be done by law and its enforcement, that traffic shall move smoothly, efficiently and safely; that no legitimate user of the street or highway, whether in a vehicle or on foot, shall be killed, injured or frustrated in such use by the improper behavior of others.

Through the cooperative efforts of both state and local governments, the “Model Traffic Code for Colorado” has been developed to make available a specimen set of motor vehicle and traffic regulations that track state law.

Section 42-4-105, C.R.S., states that all traffic control devices placed or maintained by local authorities shall conform to the most recent edition of the federal “Manual on Uniform Traffic Control Devices” (MUTCD) and the state supplement thereto.

Traffic regulatory areas preempted by state law have not been made part of the Code. Local governments are urged to bring their traffic ordinances into harmony with the current Code.

Local governments that adopt the Code by reference are cautioned not to make any changes or additions which are in conflict with state law. However, the adopting local governments are at liberty to delete any parts, articles, or sections which are deemed to be inapplicable. A specimen ordinance and specimen public notices for adopting the Code by reference will be found in the Appendix.

The following official state documents work in tandem to provide a uniform system of traffic regulation and accepted traffic engineering practices for greater operational efficiency and safety:

- Colorado Revised Statutes (C.R.S.), Title 42, Article 4 - Uniform traffic code for the State of Colorado. Updated periodically to correlate with national model legislation.
- Model Traffic Code for Colorado – Model ordinance embodies provisions of Colorado Law applicable to driving in municipalities and counties in a form that can be adopted by reference.
- Colorado Drivers Manual – Drivers’ handbooks authorized by Colorado statute. Issued by the Colorado Department of Revenue (Division of Motor Vehicles). Traffic control text and illustrations developed by the Colorado Department of Transportation.
- Manual on Uniform Traffic Control Devices (MUTCD) – Manual of Federal Highway Administration approved traffic control devices. Updated periodically and adopted by the Transportation Commission as required by Colorado Law.

(I) Such roadway's lane width is eleven feet or greater;

(II) Such roadway provides two or more lanes in either direction; and

(III) The Colorado department of transportation has determined, in consultation with local government and law enforcement, upon the basis of a traffic investigation, survey, appropriate design standards, or projected volumes, that the operation of a low-speed electric vehicle on the roadway poses no substantial safety risk or hazard to motorists, bicyclists, pedestrians, or other persons.

(2) No person shall operate a low-speed electric vehicle on a limited-access highway.

(3) Any person who violates subsection (1) or (2) of this section commits a class B traffic infraction.

For the purpose of this section, the “rules of the road” shall be construed to mean any of the regulations on the operation of vehicles set forth in this article which drivers throughout the state are required to

obey without the benefit or necessity of official traffic control devices as declared in section 603(2)

(d) In no event shall local authorities have the power to enact by ordinance regulations governing the driving of vehicles by persons under the influence of alcohol or of a controlled substance as defined in section 18-18-102(5), C.R.S., or under the influence of any other drug to a degree that renders any such person incapable of safely operating a vehicle, or whose ability to operate a vehicle is impaired by the consumption of alcohol or by the use of a controlled substance as defined in section 18-18-102(5), C.R.S., or any other drug, the registration of vehicles and the licensing of drivers, the duties and obligations of persons involved in traffic accidents, and vehicle equipment requirements in conflict with the provisions of this article; but said local authorities within their respective jurisdictions shall enforce the state laws pertaining to these subjects, and in every charge of violation the complaint shall specify the section of state law under which the charge is made and the state court having jurisdiction.

(2) The municipal courts have jurisdiction over violations of traffic regulations enacted or adopted by municipalities.

(c) The aggregate amount of fines, penalties, or forfeitures collected pursuant to ordinances or resolutions adopted as authorized in paragraph (a) of this subsection (4) shall be retained by the local jurisdiction in whose name such penalty notice was issued.

(5) The general assembly declares that the adjudication of class A and class B traffic infractions through the county court magistrate system was not intended to create a conflict between the provisions of this article and municipal ordinances covering the same subject matter as this article nor was it intended to require or prohibit the decriminalization of municipal ordinances covering the same subject matter as this article. Municipalities may continue to enforce violations of such ordinances through municipal court even though similar state offenses are enforced through the magistrate system established under this article.

(6) (a) The general assembly hereby finds that the use of automated driving systems will help people who may have difficulty driving, including people who are elderly and people with disabilities, gain access to goods and services essential to daily life. This access requires

traveling across and in multiple jurisdictions. Therefore, the regulation of automated driving systems is a matter of statewide concern.

(b) A state agency or a political subdivision of the state shall not adopt or enforce a policy, rule, or ordinance that sets standards for an automated driving system that are different from the standards set for a human driver.

(1.7)(a) An automated vehicle identification system shall not be used under this subsection (1.7) unless maintenance, repair, or construction is occurring at the time the system is being used.

(2) A local authority may adopt an ordinance authorizing the use of an automated vehicle identification system to detect violations of traffic regulations adopted by the municipality or the local authority may utilize an automated vehicle identification system to detect traffic violations under state law, subject to the following conditions and limitations:

(a) (I) (Deleted by amendment, L. 2002, p. 570, § 1, effective May 24, 2002.

If a penalty assessment notice or summons and complaint for a violation detected using an automated vehicle identification system is personally served, the state, a county, a city and county, or a municipality may only charge the actual costs of service of process that shall be no more than the amount usually charged for civil service of process.

In addition to the red light, flashing, oscillating, or rotating signal lights may be used that emit white or white in combination with red lights. At least one of such signal lamps or combination of signal lamps shall be mounted on the top of the automobile. Said automobiles may be equipped with audible signal systems such as sirens, whistles, or bells. Said lights, together with any signal systems authorized by this subsection (1), may be used only as authorized by subsection (3) of this section or when a member of a fire department is responding to or attending a fire alarm or other emergency or when a member of an ambulance service is responding to an emergency requiring the member's services. Except as authorized in subsection (3) of this section, neither such lights nor such signals shall be used for any other purpose than those set forth in this subsection (1). If used for any other purpose, such use shall constitute a violation of this subsection (1), and the violator commits a class B traffic infraction.

The provisions of this paragraph (c) shall not be applicable to any trailer which does not meet the definition of "commercial vehicle" as that term is defined in section 235 (1) (a) and which is owned by a farmer when transporting agricultural products produced on the owner's farm or supplies back to the farm of the owner of the trailer, tank trailers not exceeding ten thousand pounds gross weight used solely for transporting liquid fertilizer or gaseous fertilizer under pressure, or distributor trailers not exceeding ten thousand pounds gross weight used solely for transporting and distributing dry fertilizer when hauled by a truck capable of stopping within the distance specified in subsection (2) of this section.

(d) Every motor vehicle, trailer, or semitrailer constructed or sold in this state or operated upon the highways shall be equipped with service brakes upon all wheels of every such vehicle; except that:

(I) Any trailer or semitrailer of less than three thousand pounds gross weight, or any horse trailer of a capacity of two horses or less, or any trailer which does not meet the definition of "commercial vehicle" as that term is defined in section 235 (1) (a) and which is owned by a farmer when transporting agricultural products produced on the owner's farm or supplies back to the farm of the owner of the trailer, or tank trailers not exceeding ten thousand pounds gross weight used solely for transporting liquid fertilizer or gaseous fertilizer under pressure, or distributor trailers not exceeding ten thousand pounds gross weight used solely for transporting and distributing dry fertilizer when hauled by a truck capable of stopping with loaded trailer attached in the distance specified by subsection (2) of this section need not be equipped with brakes, and any two-wheel motor vehicle need have brakes on only one wheel.

(II) Any truck or truck tractor, manufactured before July 25, 1980, and having three or more axles, need not have brakes on the wheels of the front or tandem steering axles if the brakes on the other wheels meet the performance requirements of subsection (2) of this section.

windows of said motor vehicle. This section shall apply to all passenger-type motor vehicles, including passenger buses and school buses, but, in respect to camper coaches and trucks, including truck tractors, the requirements as to safety glazing material shall apply only to all glazing material used in required front windshields and that used in doors and windows in the drivers' compartments and such other compartments as are lawfully occupied by passengers in said vehicles.

(2) The term "safety glazing materials" means such glazing materials as will reduce substantially, in comparison with ordinary sheet glass or plate glass, the likelihood of injury to persons by objects from exterior sources or by these safety glazing materials when they may be cracked or broken.

(3) The department shall compile and publish a list of types of glazing material by name approved by it as meeting the requirements of this section, and the department shall not, after January 1, 1958, register any motor vehicle which is subject to the provisions of this section unless it is equipped with an approved type of safety glazing material, and the department shall suspend the registration of any motor vehicle subject to this section which is found to be not so equipped until it is made to conform to the requirements of this section.

(b) Except as provided in paragraph (b.5) of this subsection (2), when the wheels attached to a single axle are equipped with pneumatic tires, twenty thousand pounds;

(b.5) When the wheels attached to a single axle are equipped with pneumatic tires and the vehicle or vehicle combination is a digger derrick or bucket boom truck operated by an electric utility on a highway that is not on the interstate system as defined in section 43-2-101 (2), C.R.S., twenty-one thousand pounds;

(c) When the wheels attached to a tandem axle are equipped with pneumatic tires, thirty-six thousand pounds for highways on the interstate system and forty thousand pounds for highways not on the interstate system.

### **508. Gross weight of vehicles and loads.**

(1) (a) Except as provided in subsection (1.5) of this section, a person shall not move or operate a vehicle or combination of vehicles on any highway or bridge when the gross weight upon any one axle of a vehicle exceeds the limits prescribed in section 507.

(b) Subject to the limitations prescribed in section 507, the maximum gross weight of any vehicle or combination of vehicles shall not exceed that determined by the formula  $W = 1,000(L + 40)$ , where  $W$  represents the gross weight in pounds and  $L$  represents the length in feet between the centers of the first and last axles of such vehicle or combination of vehicles; except that, in computation of this formula, the gross vehicle weight must not exceed eighty-five thousand pounds. For the purposes of this section, where a combination of vehicles is used, a vehicle must not carry a gross weight of less than ten percent of the overall gross weight of the combination of vehicles; except that these limitations shall not apply to specialized trailers of fixed public utilities whose axles may carry less than ten percent of the weight of the combination. The limitations provided in this section must be strictly construed and enforced.

(c) Notwithstanding any other provisions of this section, except as may be authorized under section 510, a person shall not move or operate a vehicle or combination of vehicles on any highway or bridge that is part of the national system of interstate and defense highways, also known as the interstate system, when the gross weight of such vehicle or combination of vehicles exceeds the amount determined by the formula  $W = 500[(LN/N-1) + 12N + 36]$ , up to a maximum of eighty thousand pounds, where  $W$  represents the overall gross weight on any group of two or more consecutive axles to the nearest 500 pounds,  $L$  represents the distance in feet between the extreme of any group of two or more consecutive axles, and  $N$  represents the number of axles in the group.

(d) For the purposes of this subsection (1), where a combination of vehicles is used, a vehicle must not carry a gross weight of less than ten percent of the overall gross weight of the combination of vehicles; except that this limitation does not apply to specialized trailers whose specific use is to haul poles and whose axles may carry less than ten percent of the weight of the combination.

(1.5) The gross weight limits provided in subsection (1) of this section increase, but by no more than two thousand pounds for any vehicle or combination of vehicles if the vehicle or combination of vehicles contains an alternative fuel system and operates on alternative fuel or both alternative and conventional fuel. For the purposes of this subsection (1.5), “alternative fuel” has the same meaning provided in section 25-7-106.8(1)(a), C.R.S.

(2) The department upon registering any vehicle under the laws of this state, which vehicle is designed and used primarily for the transportation of property or for the transportation of ten or more persons, may acquire such information and may make such investigation or tests as necessary to enable it to determine whether such vehicle may safely be operated upon the highways in compliance with all the provisions of this article. The department shall not register any such vehicle for a permissible gross weight exceeding the limitations set forth in sections 501 to 512 and 1407 of this Code. Every such vehicle shall meet the following requirements:

(a) It shall be equipped with brakes as required in section 223;

(b) Every motor vehicle to be operated outside of business and residential district shall have motive power adequate to propel at a reasonable speed such vehicle and any load thereon or be drawn thereby.

(3) If the federal highway administration or the United States congress prescribes or adopts vehicle size or weight limits greater than those now prescribed by the “Federal-Aid Highway Act of 1956”, which limits exceed in full or in part the provisions of section 504 or paragraph (b) or (c) of subsection (1) of this Code, the transportation commission, upon determining that Colorado highways have been constructed to standards which will accommodate such additional size or weight and that the adoption of said size and weight limitations will not jeopardize any distribution of federal highway funds to the state, may adopt size and weight limits comparable to those prescribed or adopted by the federal highway administration or the United States congress and may authorize said limits to be used by owners or operators of vehicles while said vehicles are using highways within this state; but no vehicle size or weight limit so adopted by the commission shall be less in any respect than those now provided for in section 504 or paragraph (b) or (c) of subsection (1) of this section.

(4) Any person who drives a vehicle or owns a vehicle in violation of any provision of this section commits a class 2 misdemeanor traffic offense.

#### **509. Vehicles weighed – excess removed.**

(1) Any police or peace officer, as described in section 16-2.5-101, C.R.S., having reason to believe that the weight of a vehicle and load is unlawful is authorized to require the driver to stop and submit to a weighing of the same by means of either portable or stationary scales or

shall require that such vehicle be driven to the nearest public scales in the event such scales are within five miles.

(2) (a) Except as provided in paragraph (b) of this subsection (2), whenever an officer upon weighing a vehicle and load as provided in subsection (1) of this section determines that the weight is unlawful, such officer shall require the driver to stop the vehicle in a suitable place and remain standing until such portion of the load is removed as may be necessary to reduce the gross weight of such vehicle to such limit as permitted under sections 501 to 512 and 1407. All material so unloaded shall be cared for by the owner or operator of such vehicle at the risk of such owner or operator.

(b) Whenever an officer upon weighing a vehicle and load as provided in subsection (1) of this section determines that the weight is unlawful and the load consists solely of either explosives or hazardous materials as defined in section 102 (32), such officer shall permit the driver of such vehicle to proceed to the driver's destination without requiring the driver to unload the excess portion of such load.

(3) Any driver of a vehicle who fails or refuses to stop and submit the vehicle and load to a weighing or who fails or refuses when directed by an officer upon a weighing of the vehicle to stop the vehicle and otherwise comply with the provisions of this section commits a class 2 misdemeanor traffic offense.

#### **510. Permits for excess size and weight and for manufactured homes - rules.**

(1) (a) Any local authority with respect to highways under its jurisdiction may, upon application in writing and good cause being shown therefor, issue a single trip, a special, or an annual permit in writing authorizing the applicant to operate or move a vehicle or combination of vehicles of a size or weight of vehicle or load exceeding the maximum specified in this Code or otherwise not in conformity with the provisions of this Code upon any highway under the jurisdiction of the party granting such permit and for the maintenance of which said party is responsible; except that permits for the movement of any manufactured home shall be issued as provided in subsection (2) of this section.

(b) (I) The application for any permit shall specifically describe the vehicle and load to be operated or moved and the particular highways for which the permit to operate is requested, and whether such permit is for a single trip, a special, or an annual operation, and the time of such movement. All local permits shall be issued in the discretion of the local authority pursuant to ordinances or resolutions adopted in accordance with section 511. Any ordinances or resolutions of local authorities shall not conflict with this section.

(II) An overweight permit issued pursuant to this section shall be available for overweight divisible loads if:

(A) The vehicle has a quad axle grouping and the maximum gross weight of the vehicle does not exceed one hundred ten thousand pounds; or

(B) The vehicle is operated in combination with a trailer or semitrailer, the trailer has two or three axles, and the maximum gross weight of the vehicle does not exceed ninety-seven thousand pounds; and

(C) The owner and operator of the motor vehicle are in compliance with the federal “Motor Carrier Safety Improvement Act of 1999”, Pub.L. 106-159, as amended, as applicable to commercial vehicles; and

(D) The vehicle complies with rules promulgated by the department of transportation concerning the distribution of the load upon the vehicle’s axles.

(III) A permit issued pursuant to this paragraph (b) shall not authorize the operation or movement of a motor vehicle on the interstate highway in violation of federal law.

(c) (I) A single trip or annual permit shall be issued pursuant to this section for a self-propelled fixed load crane that exceeds legal weight limits if it does not exceed the weight limits authorized by the department of transportation. A boom trailer or boom dolly shall not be permitted unless the boom trailer or boom dolly is attached to the crane in a manner and for the purpose of distributing load to meet the weight requirements established by the department. A self-propelled fixed load crane may be permitted with counterweights when a boom trailer or boom dolly is used if the counterweights do not exceed the manufacturer’s rated capacity of the self-propelled fixed load crane and do not cause the vehicle to exceed permitted axle or gross weight limits. A permit issued pursuant to this paragraph (c) shall not authorize movement on interstate highways if not approved by federal law.

(II) For the purposes of this paragraph (c), “self-propelled fixed load crane” means a self-powered mobile crane designed with equipment or parts permanently attached to the body of the crane. A self-propelled fixed load crane includes, without limitation, the crane’s shackles and slings.

Note: 1.5 & 1.7(2) (a) An authentication of paid ad valorem taxes, after notification of such movement to the county treasurer, may serve as a permit for movement of manufactured homes on public streets or highways under the county’s jurisdiction. An authentication of paid ad valorem taxes from the county treasurer of the county from which the manufactured home is to be moved, after notification of such movement has been provided to the county assessor of the county to which the manufactured home is to be moved, pursuant to section 39-5-205, C.R.S., may also serve as a permit for the movement of manufactured homes from one adjoining county to an adjoining county on streets and highways under local jurisdiction. The treasurer shall issue along with the authentication of paid ad valorem taxes a transportable manufactured home permit. The treasurer may establish and collect a fee, which shall not exceed ten dollars, for issuing the authentication of paid ad valorem taxes and the transportable manufactured home permit. Such transportable manufactured home permit shall be printed on an eleven inch by six inch fluorescent orange card and shall contain the following information: The name and address of the owner of the mobile home; the name and address of the mover; the transport number of the mover, a description of the mobile home including the make, year, and identification or serial number; the county authentication number; and an expiration date. The expiration date shall be

set by the treasurer, but in no event shall the expiration date be more than thirty days after the date of issue of the permit. Such transportable manufactured home permit shall be valid for a single trip only. The transportable manufactured home permit shall be prominently displayed on the rear of the mobile home during transit of the mobile home. Peace officers and local tax and assessment officials may request, and upon demand shall be shown, all moving permits, tax receipts, or certificates required by this subsection (2). Nothing in this section shall require a permit from a county treasurer for the movement of a new manufactured home. For the purposes of this section, a new manufactured home is one in transit under invoice or manufacturer's statement of origin which has not been previously occupied for residential purposes.

(b) All applications for permits to move manufactured homes over state highways shall comply with the following special provisions:

(I) Each such application shall be for a single trip, a special permit, an annual permit, or, subject to the requirements of paragraph (a) of subsection (1.5) of this section, an annual fleet permit. The application shall be accompanied by a certificate or other proof of public liability insurance in amounts of not less than one hundred thousand dollars per person and three hundred thousand dollars per accident for all manufactured homes moved within this state by the permit holder during the effective term of the permit. Each application for a single trip permit shall be accompanied by an authentication of paid ad valorem taxes on the used manufactured home.

(II) Holders of permits shall keep and maintain, for not less than three calendar years, records of all manufactured homes moved in whole or in part within this state, which records shall include the plate number of the towing vehicle; the year, make, serial number, and size of the unit moved, together with date of the move; the place of pickup; and the exact address of the final destination and the county of final destination and the name and address of the landowner of the final destination. These records shall be available upon request within this state for inspection by the state of Colorado or any of its ad valorem taxing governmental subdivisions.

(III) Holders of permits shall obtain an authentication of paid ad valorem taxes through the date of the move from the owner of a used manufactured home or from the county treasurer of the county from which the used manufactured home is being moved. Permit holders shall notify the county treasurer of the county from which the manufactured home is being moved of the new exact address of the final destination and the county of final destination of the manufactured home and the name and address of the landowner of the final destination, and, if within the state, the county treasurer shall forward copies of the used manufactured home tax certificate to the county assessor of the destination county. County treasurers may compute ad valorem manufactured home taxes due based upon the next preceding year's assessment prorated through the date of the move and accept payment of such as payment in full.

(IV) No owner of a manufactured home shall move the manufactured home or provide for the movement of the manufactured home without being the holder of a paid ad valorem tax certificate and a transportable manufactured home permit thereon, and no person shall assist such an owner in the movement of such owner's manufactured home, including a manufactured home dealer. Except as otherwise provided in this paragraph (b), a permit holder who moves any

manufactured home within this state shall be liable for all unpaid ad valorem taxes thereon through the date of such move if movement is made prior to payment of the ad valorem taxes due on the manufactured home moved.

(V) In the event of an imminent natural or man-made disaster or emergency, including, but not limited to, rising waters, flood, or fire, the owner, owner's representative or agent, occupant, or tenant of a manufactured home or the mobile home park owner or manager, lienholder, or manufactured home dealer is specifically exempted from the need to obtain a permit pursuant to this section and may move the endangered manufactured home out of the danger area to a temporary or new permanent location and may move such manufactured home back to its original location without a permit or penalty or fee requirement. Upon any such move to a temporary location as a result of a disaster or emergency, the person making the move or such person's agent or representative shall notify the county assessor in the county to which the manufactured home has been moved, within twenty days after such move, of the date and circumstances pertaining to the move and the temporary or permanent new location of the manufactured home. If the manufactured home is moved to a new permanent location from a temporary location as a result of a disaster or emergency, a permit for such move shall be issued but no fee shall be assessed.

(3) Any local authority is authorized to issue or withhold a permit, as provided in this section, and, if such permit is issued, to limit the number of trips, or to establish seasonal or other time limitations within which the vehicles described may be operated on the highways indicated, or otherwise to limit or prescribe conditions of operation of such vehicles, when necessary to protect the safety of highway users, to protect the efficient movement of traffic from unreasonable interference, or to protect the highways from undue damage to the road foundations, surfaces, or structures and may require such undertaking or other security as may be deemed necessary to compensate for any injury to any highway or highway structure.

(4) The original or a copy of every such permit shall be carried in the vehicle or combination of vehicles to which it refers and shall be open to inspection by any police officer or authorized agent of any authority granting such permit; except that, if a peace officer, as described in section 16-2.5-101, C.R.S., or an authorized agent of the authority that granted a permit may determine that the permit can be electronically verified at the time of contact, a copy of the permit need not be carried in the vehicle or combination of vehicles to which it refers. No person shall violate any of the terms or conditions of such permit.

(5) No vehicle having a permit under this section shall be remodeled, rebuilt, altered, or changed except in such a way as to conform to those specifications and limitations established in sections 501 to 507 and 1407.

(6) Any person who has obtained a valid permit for the movement of any oversize vehicle or load may attach to such vehicle or load or to any vehicle accompanying the same not more than three illuminated flashing yellow signals as warning devices.

(7) No permit shall be necessary for the operation of authorized emergency vehicles, public transportation vehicles operated by municipalities or other political subdivisions of the

state, county road maintenance and county road construction equipment temporarily moved upon the highway, implements of husbandry, and farm tractors temporarily moved upon the highway, including transportation of such tractors or implements by a person dealing therein to such person's place of business within the state or to the premises of a purchaser or prospective purchaser within the state; nor shall such vehicles or equipment be subject to the size and weight provisions of this part 5.

(8) The department of transportation shall have a procedure to allow those persons who are transporting loads from another state into Colorado and who would require a permit under the provisions of this section to make advance arrangements by telephone or other means of communication for the issuance of a permit if the load otherwise complies with the requirements of this section.

(9) No permit shall be necessary for the operation of authorized emergency vehicles, public transportation vehicles operated by municipalities or other political subdivisions of the state, county road maintenance and county road construction equipment temporarily moved upon the highway, implements of husbandry, and farm tractors temporarily moved upon the highway, including transportation of such tractors or implements by a person dealing therein to such person's place of business within the state or to the premises of a purchaser or prospective purchaser within the state; nor shall such vehicles or equipment be subject to the size and weight provisions of this part 5.

(10) Local law enforcement officials shall verify the validity of permits issued under this section whenever feasible. Upon determination by any of such officials or by any personnel of a county assessor's or county treasurer's office indicating that a manufactured home has been moved without a valid permit, the district attorney shall investigate and prosecute any alleged violation as authorized by law.

(11) (a) Any local authority may impose a fee, in addition to but not to exceed the following amounts:

(I) (I) For overlength, overwidth, and overheight permits on loads or vehicles which do not exceed legal weight limits:

(A) Annual permit, two hundred fifty dollars;

(B) Single trip permit, fifteen dollars;

(II) Not applicable.

(III) For overweight permits for vehicles or loads exceeding legal weight limits up to two hundred thousand pounds:

(A) Annual permit, four hundred dollars;

(B) Single trip permit, fifteen dollars plus five dollars per axle;

(C) Annual fleet permits, one thousand five hundred dollars plus twenty-five dollars per vehicle to be permitted. For purposes of this sub-subparagraph (C), "fleet" means any group of two or more vehicles owned by one person. This sub-subparagraph (C) shall apply only to longer vehicle combinations as defined in section 505.

(c) Any local authority may impose a fee for a special permit for structural, oversize, or overweight moves requiring extraordinary action or moves involving weight in excess of two hundred thousand pounds, except that a super-load permit fee is four hundred dollars, the amount of the fee shall not exceed the actual cost of the extraordinary action.

(12) (a) Any person holding a permit issued pursuant to this section or any person operating a vehicle pursuant to such permit who violates any provision of this section, any ordinance or resolution of a local authority, or any standards or rules or regulations promulgated pursuant to this section, except the provisions of subparagraph (IV) of paragraph (b) of subsection (2) of this section, commits a class 2 misdemeanor traffic offense.

(b) Any person who violates the provisions of subparagraph (IV) of paragraph (b) of subsection (2) of this section commits a class 2 petty offense and, upon conviction thereof, shall be fined two hundred dollars; except that, upon conviction of a second or subsequent such offense, such person commits a class 3 misdemeanor and shall be punished as provided in section 18-1.3-501, C.R.S.

(c) A local authority with regard to a local permit may, after a hearing, revoke, suspend, refuse to renew, or refuse to issue any permit authorized by this section upon a finding that the holder of the permit has violated the provisions of this section, any ordinance or resolution of the local authority, or any standards or rules promulgated pursuant to this section.

#### **511. Permit standards - state and local.**

(1) (a) Any permits which may be required by local authorities shall be issued in accordance with ordinances and resolutions adopted by the respective local authorities after a public hearing at which testimony is received from affected motor vehicle owners and operators. Notice of such public hearing shall be published in a newspaper having general circulation within the local authority's jurisdiction. Such notice shall not be less than eight days prior to the date of hearing. The publication shall not be placed in that portion of the newspaper in which legal notices or classified advertisements appear. Such notice shall state the purpose of the hearing, the time and place of the hearing, and that the general public, including motor vehicle owners and operators to be affected, may attend and make oral or written comments regarding the proposed ordinance or resolution. Notice of any subsequent hearing shall be published in the same manner as for the original hearing.

(b) At least thirty days prior to such public hearing, the local authority shall transmit a copy of the proposed ordinance or resolution to the department of transportation for its comments, and said department shall make such comments in writing to the local authority prior to such public hearing.

(c) Any local authority that adopts or has adopted an ordinance or resolution governing permits for the movement of oversize or overweight vehicles or loads shall file a copy of the ordinance or resolution with the department of transportation.

**512. Liability for damage to highway.**

(1) No person shall drive, operate, or move upon or over any highway or highway structure any vehicle, object, or contrivance in such a manner so as to cause damage to said highway or highway structure. When the damage sustained to said highway or highway structure is the result of the operating, driving, or moving of such vehicle, object, or contrivance weighing in excess of the maximum weight authorized by sections 501 to 512 and 1407, it shall be no defense to any action, either civil or criminal, brought against such person that the weight of the vehicle was authorized by special permit issued in accordance with sections 501 to 512 and 1407.

(2) Every person violating the provisions of subsection (1) of this section shall be liable for all damage which said highway or highway structure may sustain as a result thereof. Whenever the driver of such vehicle, object, or contrivance is not the owner thereof but is operating, driving, or moving such vehicle, object, or contrivance with the express or implied consent of the owner thereof, then said owner or driver shall be jointly and severally liable for any such damage. The liability for damage sustained by any such highway or highway structure may be enforced by a civil action by the authorities in control of such highway or highway structure. No satisfaction of such civil liability, however, shall be deemed to be a release or satisfaction of any criminal liability for violation of the provisions of subsection (1) of this section.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

**PART 6  
SIGNALS - SIGNS – MARKINGS**

**601. Local governments to sign highways, where.**

This local government shall place and maintain such traffic control devices, conforming to the "Manual of Uniform Traffic Control Devices" and specifications, upon streets and highways as it deems necessary to indicate and to carry out the provisions of this Code or to regulate, warn, or guide traffic.

**602. Local traffic control devices.**

(1) No local authority shall erect or maintain any stop sign or traffic control signal at any location so as to require the traffic on any state highway to stop before entering or crossing any intersecting highway unless approval in writing has first been obtained from the department of transportation.

(2) Where practical no local authority shall maintain three traffic control signals located on a roadway so as to be within one minute's driving time (to be determined by the speed limit) from any one of the signals to the other without synchronizing the lights to enhance the flow of traffic and thereby reduce air pollution.

**603. Obedience to official traffic control devices.**

(1) No driver of a vehicle shall disobey the instructions of any official traffic control device including any official hand signal device placed or displayed in accordance with the provisions of this Code unless otherwise directed by a police officer subject to the exceptions in this Code granted the driver of an authorized emergency vehicle.

(2) No provision of this Code for which official traffic control devices are required shall be enforced against an alleged violator if at the time and place of the alleged violation an official device is not in proper position and sufficiently legible to be seen by an ordinarily observant person. Whenever a particular section does not state that official traffic control devices are required, such section shall be effective even though no devices are erected or in place.

(3) Whenever official traffic control devices are placed in position approximately conforming to the requirements of this Code, such devices shall be presumed to have been so placed by the official act or direction of lawful authority unless the contrary is established by competent evidence.

(4) Any official traffic control device placed pursuant to the provisions of this Code and purporting to conform to the lawful requirements pertaining to such devices shall be presumed to comply with the requirements of this Code unless the contrary is established by competent evidence.

(5) Any person who violates any provision of this section commits a class A traffic infraction.

**604. Traffic control signal legend.**

(1) If traffic is controlled by traffic control signals exhibiting different colored lights, or colored lighted arrows, successively one at a time or in combination as declared in the traffic control manual adopted by the department of transportation, only the colors green, yellow, and red shall be used, except for special pedestrian-control signals carrying a word or symbol legend as provided in section 802, and said lights, arrows, and combinations thereof shall indicate and apply to drivers of vehicles and pedestrians as follows:

(a) Green indication:

(1) Vehicular traffic facing a circular green signal may proceed straight through or turn right or left unless a sign at such place prohibits such turn; but vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection and to pedestrians lawfully within an adjacent crosswalk at the time such signal is exhibited.

(II) Vehicular traffic facing a green arrow signal, shown alone or in combination with another indication, may cautiously enter the intersection only to make the movement indicated by such arrow or such other movement as is permitted by other indications shown at the same time. Such vehicular traffic shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.

(III) Unless otherwise directed by a pedestrian-control signal as provided in section 42-4-802, C.R.S., pedestrians facing any green signal, except when the sole green signal is a turn arrow, may proceed across the roadway within any marked or unmarked crosswalk.

(b) Steady yellow indication:

(I) Vehicular traffic facing a steady circular yellow or yellow arrow signal is thereby warned that the related green movement is being terminated or that a red indication will be exhibited immediately thereafter.

(II) Pedestrians facing a steady circular yellow or yellow arrow signal, unless otherwise directed by a pedestrian-control signal as provided in section 802, are thereby advised that there is insufficient time to cross the roadway before a red indication is shown, and no pedestrian shall then start to cross the roadway.

(c) Steady red indication:

(I) Vehicular traffic facing a steady circular red signal alone shall stop at a clearly marked stop line but, if none, before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until an indication to proceed is shown; except that:

(A) Such vehicular traffic, after coming to a stop and yielding the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection, may make a right turn, unless state or local road authorities within their respective jurisdictions have by ordinance or resolution prohibited any such right turn and have erected an official sign at each intersection where such right turn is prohibited.

(B) Such vehicular traffic, when proceeding on a one-way street and after coming to a stop, may make a left turn onto a one-way street upon which traffic is moving to the left of the driver. Such turn shall be made only after yielding the right-of-way to pedestrians and other traffic proceeding as directed. No turn shall be made pursuant to this sub-subparagraph (B) if local authorities have by ordinance prohibited any such left turn and erected a sign giving notice of any such prohibition at each intersection where such left turn is prohibited.

(C) To promote uniformity in traffic regulation throughout the state and to protect the public peace, health, and safety, the general assembly declares that no local authority shall have any discretion other than is expressly provided in this subparagraph (I).

(II) Pedestrians facing a steady circular red signal alone shall not enter the roadway, unless otherwise directed by a pedestrian-control signal as provided in section 802.

(III) Vehicular traffic facing a steady red arrow signal may not enter the intersection to make the movement indicated by such arrow and, unless entering the intersection to make such other movement as is permitted by other indications shown at the same time, shall stop at a

clearly marked stop line but, if none, before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until an indication to make the movement indicated by such arrow is shown.

(IV) Pedestrians facing a steady red arrow signal shall not enter the roadway, unless otherwise directed by a pedestrian-control signal as provided in section 802.

(d) Non-intersection signal: In the event an official traffic control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or pavement marking indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made at the signal.

(e) Lane-use-control signals: Whenever lane-use-control signals are placed over the individual lanes of a street or highway, as declared in the traffic control manual adopted by the department of transportation, such signals shall indicate and apply to drivers of vehicles as follows:

(I) Downward-pointing green arrow (steady): A driver facing such signal may drive in any lane over which said green arrow signal is located.

(II) Yellow "X" (steady): A driver facing such signal is warned that the related green arrow movement is being terminated and shall vacate in a safe manner the lane over which said steady yellow signal is located to avoid if possible occupying that lane when the steady red "X" signal is exhibited.

(III) Yellow "X" (flashing): A driver facing such signal may use the lane over which said flashing yellow signal is located for the purpose of making a left turn or a passing maneuver, using proper caution, but for no other purpose.

(IV) Red "X" (steady): A driver facing such signal shall not drive in any lane over which said red signal is exhibited.

(2) Any person who violates any provision of this section commits a class A traffic infraction.

### **605. Flashing signals.**

(1) Whenever an illuminated flashing red or yellow signal is used in conjunction with a traffic sign or a traffic signal or as a traffic beacon, it shall require obedience by vehicular traffic as follows:

(a) When a red lens is illuminated with rapid intermittent flashes, drivers of vehicles shall stop at a clearly marked stop line but, if none, before entering the crosswalk on the near side of the intersection or, if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.

(b) When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed past such signal and through the intersection or other hazardous location only with caution.

(2) This section shall not apply at railroad grade crossings. Conduct of drivers of vehicles approaching railroad crossings shall be governed by the provisions of sections 706 to 708.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

**606. Display of unauthorized signs or devices.**

(b) “Don’t Walk” (steady): While the “Don’t Walk” indication is steadily illuminated, no pedestrian shall enter the roadway in the direction of the signal indication.

(c) “Don’t Walk” (flashing): Whenever the “Don’t Walk” indication is flashing, no pedestrian shall start to cross the roadway in the direction of such signal indication, but any pedestrian who has partly completed crossing during the “Walk” indication shall proceed to a sidewalk or to a safety island, and all drivers of vehicles shall yield to any such pedestrian.

(d) Whenever a signal system provides for the stopping of all vehicular traffic and the exclusive movement of pedestrians and “Walk” and “Don’t Walk” signal indications control such pedestrian movement, pedestrians may cross in any direction between corners of the intersection offering the shortest route within the boundaries of the intersection while the “Walk” indication is exhibited, if signals and other official devices direct pedestrian movement in such manner consistent with section 803 (4).

(6) Any person who violates any provision of this section commits a class A traffic infraction.

### **803. Crossing at other than crosswalks.**

(1) Every pedestrian crossing a roadway at any point other than within a marked crosswalk or within an unmarked crosswalk at an intersection shall yield the right-of-way to all vehicles upon the roadway.

(2) Any pedestrian crossing a roadway at a point where a pedestrian tunnel or overhead pedestrian crossing has been provided shall yield the right-of-way to all vehicles upon the roadway.

(3) Between adjacent intersections at which traffic control signals are in operation, pedestrians shall not cross at any place except in a marked crosswalk.

(4) No pedestrian shall cross a roadway intersection diagonally unless authorized by official traffic control devices; and, when authorized to cross diagonally, pedestrians shall cross only in accordance with the official traffic control devices pertaining to such crossing movements.

(5) Any person who violates any provision of this section commits a class B traffic infraction.

### **804. Pedestrian to use right half of crosswalk. (Repealed)**

### **805. Pedestrians walking or traveling in a wheelchair on highways.**

(1) Pedestrians walking or traveling in a wheelchair along and upon highways where sidewalks are not provided shall walk or travel only on a road shoulder as far as practicable from the edge of the roadway. Where neither a sidewalk nor road shoulder is available, any pedestrian walking or traveling in a wheelchair along and upon a highway shall walk as near as practicable to an outside edge of the roadway and, in the case of a two-way roadway, shall walk or travel only on the left side of the roadway facing traffic that may approach from the opposite direction; except that any person lawfully soliciting a ride may stand on either side of such two-way roadway where there is a view of traffic approaching from both directions.

(2) No person shall stand in a roadway for the purpose of soliciting a ride from the driver of any private vehicle. For the purposes of this subsection (2), "roadway" means that portion of the road normally used by moving motor vehicle traffic.

(3) It is unlawful for any person who is under the influence of alcohol or of any controlled substance, as defined in section 12-22-303 (7), C.R.S., or of any stupefying drug to walk or be upon that portion of any highway normally used by moving motor vehicle traffic.

(4) This section applying to pedestrians shall also be applicable to riders of animals.

(5) This local government may, by ordinance, regulate the use by pedestrians of streets and highways under its jurisdiction to the extent authorized under subsection (6) of this section and sections 110 and 111, but no ordinance regulating such use of streets and highways in a manner differing from this section shall be effective until official signs or devices giving notice thereof have been placed as required by section 111 (2).

(6) No person shall solicit a ride on any highway included in the interstate system, as defined in section 43-2-101 (2), C.R.S., except at an entrance to or exit from such highway or at places specifically designated by the department of transportation; or, in an emergency affecting a vehicle or its operation, a driver or passenger of a disabled vehicle may solicit a ride on any highway.

(7) Pedestrians shall only be picked up where there is adequate road space for vehicles to pull off and not endanger and impede the flow of traffic.

(8) Upon the immediate approach of an authorized emergency vehicle making use of audible or visual signals meeting the requirements of section 213 or of a police vehicle properly and lawfully making use of an audible signal only, every pedestrian shall yield the right-of-way to the authorized emergency vehicle and shall leave the roadway and remain off the same until the authorized emergency vehicle has passed, except when otherwise directed by a police officer. This subsection (8) shall not relieve the driver of an authorized emergency vehicle from the duty to use due care as provided in sections 108 (4) and 807.

(9) Any person who violates any provision of this section commits a class B traffic infraction.

#### **806. Driving through safety zone prohibited.**

No vehicle at any time shall be driven through or within a safety zone. Any person who violates any provision of this section commits a class A traffic infraction.

**807. Drivers to exercise due care.**

Notwithstanding any of the provisions of this Code, every driver of a vehicle shall exercise due care to avoid colliding with any pedestrian upon any roadway and shall give warning by sounding the horn when necessary and shall exercise proper precaution upon observing any child or any obviously confused or incapacitated person upon a roadway. Any person who violates any provision of this section commits a class A traffic infraction.

**808. Drivers and pedestrians, other than persons in wheelchairs, to yield to persons with disabilities.**

(1) Any pedestrian other than a person in a wheelchair, or any driver of a vehicle who approaches an individual who has an obviously apparent disability shall immediately come to a full stop and take such precautions before proceeding as are necessary to avoid an accident or injury to said individual. A disability shall be deemed to be obviously apparent if, by way of example and without limitation, the individual is using a mobility device, is assisted by a service animal as defined in section 24-34-301, C.R.S., is being assisted by another person, or is walking with an obvious physical impairment. Any person who violates any provision of this section commits a class A traffic offense.

**PART 9  
TURNING – STOPPING**

**901. Required position and method of turning.**

(1) The driver of a motor vehicle intending to turn shall do so as follows:

(a) **Right turns.** Both the approach for a right turn and a right turn shall be made as close as practicable to the right-hand curb or edge of the roadway.

(b) **Left turns.** The driver of a vehicle intending to turn left shall approach the turn in the extreme left-hand lane lawfully available to traffic moving in the direction of travel of such vehicle. Whenever practicable, the left turn shall be made to the left of the center of the intersection so as to leave the intersection or other location in the extreme left-hand lane lawfully available to traffic moving in the same direction as such vehicle on the roadway being entered.

(c) **Two-way left-turn lanes.** Where a special lane for making left turns by drivers proceeding in opposite directions has been indicated by official traffic control devices in the manner prescribed in the state traffic control manual, a left turn shall not be made from any other lane, and a vehicle shall not be driven in said special lane except when preparing for or making a left turn from or into the roadway or when preparing for or making a U-turn when otherwise permitted by law.

(2) Local authorities in their respective jurisdictions may cause official traffic control devices to be placed and thereby require and direct that a different course from that specified in this section be traveled by turning vehicles, and, when such devices are so placed, no driver shall turn a vehicle other than as directed and required by such devices. In the case of streets which are a part of the state highway system, the local regulation shall be subject to the approval of the department of transportation as provided in section 43-2-135 (1) (g), C.R.S.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

### **902. Limitations on turning around.**

(1) No vehicle shall be turned so as to proceed in the opposite direction upon any curve or upon the approach to or near the crest of a grade where such vehicle cannot be seen by the driver of any other vehicle approaching from either direction within such distance as is necessary to avoid interfering with or endangering approaching traffic.

(2) The driver of any vehicle shall not turn such vehicle at an intersection or any other location so as to proceed in the opposite direction unless such movement can be made in safety and without interfering with or endangering other traffic.

(3) Local authorities, within their respective jurisdictions, subject to the provisions of section 43-2-135 (1) (g), C.R.S., in the case of streets which are state highways, may erect "U-turn" prohibition or restriction signs at intersections or other locations where such movements are deemed to be hazardous, and, whenever official signs are so erected, no driver of a vehicle shall disobey the instructions thereof.

(4) Any person who violates any provision of this section commits a class A traffic infraction.

### **903. Turning movements and required signals.**

(1) No person shall turn a vehicle at an intersection unless the vehicle is in proper position upon the roadway as required in section 901, or turn a vehicle to enter a private road or driveway, or otherwise turn a vehicle from a direct course or move right or left upon a roadway unless and until such movement can be made with reasonable safety and then only after giving an appropriate signal in the manner provided in sections 608 and 609.

(2) A signal of intention to turn right or left shall be given continuously during not less than the last one hundred feet traveled by the vehicle before turning in urban or metropolitan areas and shall be given continuously for at least two hundred feet on all four-lane highways and other highways where the prima facie or posted speed limit is more than forty miles per hour. Such signals shall be given regardless of existing weather conditions.

(3) No person shall stop or suddenly decrease the speed of a vehicle without first giving an appropriate signal in the manner provided in sections 608 and 609 to the driver of any vehicle immediately to the rear when there is opportunity to give such signal.

(4) The signals provided for in section 608 (2) shall be used to indicate an intention to turn, change lanes, or start from a parked position and shall not be flashed on one side only on a parked or disabled vehicle or flashed as a courtesy or “do pass” signal to operators of other vehicles approaching from the rear.

(5) Any person who violates any provision of this section commits a class A traffic infraction.

## **PART 10 DRIVING - OVERTAKING – PASSING**

### **1001. Drive on right side - exceptions.**

(1) Upon all roadways of sufficient width, a vehicle shall be driven upon the right half of the roadway, except as follows:

(a) When overtaking and passing another vehicle proceeding in the same direction under the rules governing such movement;

(b) When an obstruction exists making it necessary to drive to the left of the center of the highway; but any person so doing shall yield the right-of-way to all vehicles traveling in the proper direction upon the unobstructed portion of the highway within such distance as to constitute an immediate hazard;

(c) Upon a roadway divided into three lanes for traffic under the rules applicable thereon;  
or

(d) Upon a roadway restricted to one-way traffic as indicated by official traffic control devices.

(2) Upon all roadways any vehicle proceeding at less than the normal speed of traffic at the time and place and under the conditions then existing shall be driven in the right-hand lane then available for traffic or as close as practicable to the right-hand curb or edge of the roadway, except when overtaking and passing another vehicle proceeding in the same direction or when preparing for a left turn at an intersection or into a private road or driveway.

(3) Upon any roadway having four or more lanes for moving traffic and providing for two-way movement of traffic, no vehicle shall be driven to the left of the center line of the roadway, except when authorized by official traffic control devices designating certain lanes to the left side of the center of the roadway for use by traffic not otherwise permitted to use such lanes or except as permitted under subsection (1) (b) of this section. However, this subsection (3) does not prohibit the crossing of the center line in making a left turn into or from an alley, private road, or driveway when such movement can be made in safety and without interfering with, impeding, or endangering other traffic lawfully using the highway.

(4) Any person who violates any provision of this section commits a class A traffic infraction.

**1002. Passing oncoming vehicles.**

(1) Drivers of vehicles proceeding in opposite directions shall pass each other to the right, and, upon roadways having width for not more than one lane of traffic in each direction, each driver shall give to the other at least one-half of the main traveled portion of the roadway as nearly as possible.

(2) A driver shall not pass a bicyclist moving in the same direction and in the same lane when there is oncoming traffic unless the driver can simultaneously:

(a) Allow oncoming vehicles at least one-half of the main-traveled portion of the roadway in accordance with subsection (1) of this section; and

(b) Allow the bicyclist at least a three-foot separation between the right side of the driver's vehicle, including all mirrors or other projections, and the left side of the bicyclist at all times.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

**1003. Overtaking a vehicle on the left.**

(1) The following rules shall govern the overtaking and passing of vehicles proceeding in the same direction, subject to the limitations, exceptions, and special rules stated in this section and sections 1004 to 1008:

(a) The driver of a vehicle overtaking another vehicle proceeding in the same direction shall pass to the left of the vehicle at a safe distance and shall not again drive to the right side of the roadway until safely clear of the overtaken vehicle.

(b) The driver of a motor vehicle overtaking a bicyclist proceeding in the same direction shall allow the bicyclist at least a three-foot separation between the right side of the driver's vehicle, including all mirrors or other projections, and the left side of the bicyclist at all times.

(c) Except when overtaking and passing on the right is permitted, the driver of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle on audible signal and shall not increase the speed of the driver's vehicle until completely passed by the overtaking vehicle.

(2) Any person who violates any provision of this section commits a class A traffic infraction.

**1004. When overtaking on the right is permitted.**

(1) The driver of a vehicle may overtake and pass upon the right of another vehicle only under the following conditions:

(a) When the vehicle overtaken is making or giving indication of making a left turn;

(b) Upon a street or highway with unobstructed pavement not occupied by parked vehicles and marked for two or more lanes of moving vehicles in each direction; or

(c) Upon a one-way street or upon any roadway on which traffic is restricted to one direction of movement where the roadway is free from obstructions and marked for two or more lanes of moving vehicles.

(1.5) The driver of a motor vehicle upon a one-way roadway with two or more marked traffic lanes, when overtaking a bicyclist proceeding in the same direction and riding on the left-hand side of the road, shall allow the bicyclist at least a three-foot separation between the left side of the driver's vehicle, including all mirrors or other projections, and the right side of the bicyclist at all times.

(2) The driver of a vehicle may overtake and pass another vehicle upon the right only under conditions permitting such movement in safety. In no event shall such movement be made by driving off the pavement or main-traveled portion of the roadway.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

### **1005. Limitations on overtaking on the left.**

(1) No vehicle shall be driven to the left side of the center of the roadway in overtaking and passing another vehicle proceeding in the same direction unless authorized by the provisions of this Code and unless such left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completed without interfering with the operation of any vehicle approaching from the opposite direction or any vehicle overtaken. In every event the overtaking vehicle must return to an authorized lane of travel as soon as practicable and, in the event the passing movement involves the use of a lane authorized for vehicles approaching from the opposite direction, before coming within two hundred feet of any approaching vehicle.

(2) No vehicle shall be driven on the left side of the roadway under the following conditions:

(a) When approaching or upon the crest of a grade or a curve in the highway where the driver's view is obstructed within such distance as to create a hazard in the event another vehicle might approach from the opposite direction;

(b) When approaching within one hundred feet of or traversing any intersection or railroad grade crossing; or

(c) When the view is obstructed upon approaching within one hundred feet of any bridge, viaduct, or tunnel.

(3) Local authorities are authorized to determine those portions of any highway under their respective jurisdictions where overtaking and passing or driving on the left side of the roadway would be especially hazardous and may by appropriate signs or markings on the roadway indicate the beginning and end of such zones. Where such signs or markings are in place to define a no-passing zone and such signs or markings are clearly visible to an ordinarily observant person, no driver shall drive on the left side of the roadway within such no-passing

zone or on the left side of any pavement striping designed to mark such no-passing zone throughout its length.

(4) The provisions of this section shall not apply:

(a) Upon a one-way roadway;

(b) Under the conditions described in section 1001 (1) (b);

(c) To the driver of a vehicle turning left into or from an alley, private road, or driveway when such movement can be made in safety and without interfering with, impeding, or endangering other traffic lawfully using the highway; or

(d) To the driver of a vehicle passing a bicyclist moving the same direction and in the same lane when such movement can be made in safety and without interfering with, impeding, or endangering other traffic lawfully using the highway.

(5) Any person who violates any provision of this section commits a class A traffic infraction.

#### **1006. One-way roadways and rotary traffic islands.**

(1) Upon a roadway restricted to one-way traffic, a vehicle shall be driven only in the direction designated at all or such times as shall be indicated by official traffic control devices.

(2) A vehicle passing around a rotary traffic island shall be driven only to the right of such island.

(3) Local authorities with respect to highways under their respective jurisdictions may designate any roadway, part of a roadway, or specific lanes upon which vehicular traffic shall proceed in one direction at all or such times as shall be indicated by official traffic control devices. In the case of streets which are a part of the state highway system, the regulation shall be subject to the approval of the department of transportation pursuant to section 43-2-135 (1) (g), C.R.S.

(4) Any person who violates any provision of this section commits a class A traffic infraction.

#### **1007. Driving on roadways laned for traffic.**

(1) Whenever any roadway has been divided into two or more clearly marked lanes for traffic, the following rules in addition to all others consistent with this section shall apply:

(a) A vehicle shall be driven as nearly as practicable entirely within a single lane and shall not be moved from such lane until the driver has first ascertained that such movement can be made with safety.

(b) Upon a roadway which is divided into three lanes and provides for two-way movement of traffic, a vehicle shall not be driven in the center lane except when overtaking and passing another vehicle traveling in the same direction where the roadway is clearly visible and such center lane is clear of traffic within a safe distance, or in preparation for a left turn, or where such center lane is at the time allocated exclusively to the traffic moving in the direction the

vehicle is proceeding and is designated by official traffic control devices to give notice of such allocation. Under no condition shall an attempt be made to pass upon the shoulder or any portion of the roadway remaining to the right of the indicated right-hand traffic lane.

(c) Official traffic control devices may be erected directing specified traffic to use a designated lane or designating those lanes to be used by traffic moving in a particular direction regardless of the center of the roadway, and drivers of vehicles shall obey the directions of every such device.

(d) Official traffic control devices may be installed prohibiting the changing of lanes on sections of roadway, and drivers of vehicles shall obey the directions of every such device.

(2) (a) The department of transportation may designate with signage an area on a roadway not otherwise laned for traffic for use by commercial vehicles, as defined in section 235(1)(a), that are designed to transport sixteen or more passengers, including the driver, and that are operated by a governmental entity or government-owned business that transports the general public or by a contractor on behalf of such an entity or government-owned business. Use of such an area is limited to vehicles authorized by the department operating under conditions of use established by the department but, subject to the conditions of use, the driver of an authorized vehicle has sole discretion to decide whether or not to drive on such an area based on the driver's assessment of the safety of doing so. The department shall consult with the Colorado state patrol before granting authorization for the use of the area and establishing conditions of use. The department shall impose and each authorized user shall acknowledge the conditions for use by written agreement, and the department need not note the conditions of use in roadway signage. An authorized user does not violate this section or section 1004 when operating in accordance with the conditions of use for an area imposed by the department and acknowledged by the user in a written agreement.

(b) The department of transportation shall work with local governmental agencies in implementing the provisions of this subsection (2).

(3) Any person who violates any provision of this section commits a class A traffic infraction.

**1008. Following too closely.**

(1) The driver of a motor vehicle shall not follow another vehicle more closely than is reasonable and prudent, having due regard for the speed of such vehicles and the traffic upon and the condition of the highway.

(2) The driver of any motor truck or motor vehicle drawing another vehicle when traveling upon a roadway outside of a business or residence district and which is following another motor truck or motor vehicle drawing another vehicle shall, whenever conditions permit, leave sufficient space so that an overtaking vehicle may enter and occupy such space without danger; except that this shall not prevent a motor truck or motor vehicle drawing another vehicle from overtaking and passing any like vehicle or other vehicle.

(3) Motor vehicles being driven upon any roadway outside of a business or residence district in a caravan or motorcade, whether or not towing other vehicles, shall be so operated as to allow sufficient space between each such vehicle or combination of vehicles so as to enable any other vehicle to enter and occupy such space without danger. This provision shall not apply to funeral processions.

(4) Any person who violates any provision of this section commits a class A traffic infraction.

**1008.5. Crowding or threatening bicyclist.**

(1) The driver of a motor vehicle shall not, in a careless and imprudent manner, drive the vehicle unnecessarily close to, toward, or near a bicyclist.

(2) Any person who violates subsection (1) of this section commits careless driving as described in section 1402.

**1009. Coasting prohibited.**

(1) The driver of any motor vehicle when traveling upon a downgrade shall not coast with the gears or transmission of such vehicle in neutral.

(2) The driver of a truck or bus when traveling upon a downgrade shall not coast with the clutch disengaged.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

**1010. Driving on divided or controlled-access highways.**

(1) Whenever any highway has been divided into separate roadways by leaving an intervening space or by a physical barrier or clearly indicated dividing section so constructed as to impede vehicular traffic, every vehicle shall be driven only upon the right-hand roadway, unless directed or permitted to use another roadway by official traffic control devices. No vehicle shall be driven over, across, or within any such dividing space, barrier, or section, except through an opening in such physical barrier or dividing section or space or at a crossover or intersection as established, unless specifically prohibited by official signs and markings or by the provisions of section 42-4-902, C.R.S. However, this subsection (1) does not prohibit a left turn across a median island formed by standard pavement markings or other mountable or traversable devices as prescribed in the state traffic control manual when such movement can be made in safety and without interfering with, impeding, or endangering other traffic lawfully using the highway.

(2) (a) No person shall drive a vehicle onto or from any controlled-access roadway except at such entrances and exits as are established by public authority.

(b) Wherever an acceleration lane has been provided in conjunction with a ramp entering a controlled-access highway and the ramp intersection is not designated or signed as a stop or yield intersection as provided in section 703 (1), drivers may use the acceleration lane to attain a safe speed for merging with through traffic when conditions permit such acceleration with safety. Traffic so merging shall be subject to the rule governing the changing of lanes as set forth in section 1007 (1) (a).

(c) Wherever a deceleration lane has been provided in conjunction with a ramp leaving a controlled-access highway, drivers shall use such lane to slow to a safe speed for making an exit turn after leaving the mainstream of faster-moving traffic.

(3) Local authorities may by ordinance consistent with the provisions of section 43-2-135 (1) (g), C.R.S., with respect to any controlled-access highway under their respective jurisdictions, prohibit the use of any such highway by any class or kind of traffic which is found to be incompatible with the normal and safe movement of traffic. After adopting such prohibitory regulations shall install official traffic control devices in conformity with the standards established by sections 601 and 602 at entrance points or along the highway on which such regulations are applicable. When such devices are so in place, giving notice thereof, no person shall disobey the restrictions made known by such devices.

(4) Any person who violates any provision of this section commits a class A traffic infraction.

**1011. Use of runaway vehicle ramps.**

(1) No person shall use a runaway vehicle ramp unless such person is in an emergency situation requiring use of the ramp to stop such person's vehicle.

(2) No person shall stop, stand, or park a vehicle on a runaway vehicle ramp or in the pathway of the ramp.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

**1012. High occupancy vehicle (HOV) and high occupancy toll (HOT) lanes.**

(1) Local authorities, with respect to streets and highways under their respective jurisdictions, may designate exclusive or preferential lanes for vehicles that carry a specified number of persons. The occupancy level of vehicles and the time of day when lane usage is restricted to high occupancy vehicles, if applicable, shall be designated by official traffic control devices.

(2) A motorcycle may be operated upon high occupancy vehicle lanes pursuant to section 163 of Public Law 97-424 or upon high occupancy toll lanes, unless prohibited by official traffic control devices.

(2.5) (a) (I) Except as otherwise provided in paragraph (d) of this subsection (2.5), a motor vehicle with a gross vehicle weight of twenty-six thousand pounds or less that is either an inherently low-emission vehicle or a hybrid vehicle may be operated upon high occupancy vehicle lanes without regard to the number of persons in the vehicle and without payment of a special toll or fee. The exemption relating to hybrid vehicles shall apply only if such exemption does not affect the receipt of federal funds and does not violate any federal laws or regulations.

(II) As used in this subsection (2.5), “inherently low-emission vehicle” or “ILEV” means:

(A) A light-duty vehicle or light-duty truck, regardless of whether such vehicle or truck is part of a motor vehicle fleet, that has been certified by the federal environmental protection agency as conforming to the ILEV guidelines, procedures, and standards as published in the federal register at 58 FR 11888 (March 1, 1993) and 59 FR 50042 (September 30, 1994), as amended from time to time; and

(B) A heavy-duty vehicle powered by an engine that has been certified as set forth in subparagraph (A) of this subparagraph (II).

(III) As used in this subsection (2.5), “hybrid vehicle” means a motor vehicle with a hybrid propulsion system that uses an alternative fuel by operating on both an alternative fuel, including electricity, and a traditional fuel.

(b) No person shall operate a vehicle upon a high occupancy vehicle lane pursuant to this subsection (2.5) unless the vehicle:

(I) Meets all applicable federal emission standards set forth in 40 CFR sec. 88.311-93, as amended from time to time, or, subject to subparagraph (I) of paragraph (a) of this subsection (2.5), is a hybrid vehicle; and

(II) Is identified by means of a circular sticker or decal at least four inches in diameter, made of bright orange reflective material, and affixed either to the windshield, to the front of the side view mirror on the driver’s side, or to the front bumper of the vehicle. Said sticker or decal shall be approved by the Colorado department of transportation.

(c) Local authorities, with respect to streets and highways under their respective jurisdictions, shall provide information via official traffic control devices to indicate that ILEVs

and, subject to subparagraph (I) of paragraph (a) of this subsection (2.5), hybrid vehicles may be operated upon high occupancy vehicle lanes pursuant to this section. Such information may, but need not, be added to existing printed signs, but as existing printed signs related to high occupancy vehicle lane use are replaced or new ones are erected, such information shall be added. In addition, whenever existing electronic signs are capable of being reprogrammed to carry such information, they shall be so reprogrammed by September 1, 2003.

(d) (I) In consultation with the regional transportation district, the department of transportation and local authorities, with respect to streets and highways under their respective jurisdictions, shall, in connection with their periodic level-of-service evaluation of high occupancy vehicle lanes, perform a level-of-service evaluation of the use of high occupancy vehicle lanes by ILEVs and hybrid vehicles. If the use of high occupancy vehicle lanes by ILEVs or hybrid vehicles is determined to cause a significant decrease in the level of service for other bona fide users of such lanes, then the department of transportation or a local authority may restrict or eliminate use of such lanes by ILEVs or hybrid vehicles.

(II) If the United States secretary of transportation makes a formal determination that, by giving effect to paragraph (a) of this subsection (2.5) on a particular highway or lane, the state of Colorado would disqualify itself from receiving federal highway funds the state would otherwise qualify to receive or would be required to refund federal transportation grant funds it has already received, then said paragraph (a) shall not be effective as to such highway or lane.

(3) (a) Any person who uses a high occupancy vehicle lane in violation of restrictions imposed by local authorities commits a class A traffic infraction.

(b) Any person convicted of a third or subsequent offense of paragraph (a) of this subsection (3) committed within a twelve-month period shall be subject to an increased penalty pursuant to section 1701 (4) (a) (I) (K).

### **1013. Passing lane - definitions - penalty.**

(1) A person shall not drive a motor vehicle in the passing lane of a highway if the speed limit is sixty-five miles per hour or more unless such person is passing other motor vehicles that are in a non-passing lane or turning left, or unless the volume of traffic does not permit the motor vehicle to safely merge into a non-passing lane.

(2) For the purposes of this section:

(a) "Non-passing lane" means any lane that is to the right of the passing lane if there are two or more adjacent lanes of traffic moving in the same direction in one roadway.

(b) "Passing lane" means the farthest to the left lane if there are two or more adjacent lanes of traffic moving in the same direction in one roadway; except that, if such left lane is restricted to high occupancy vehicle use or is designed for left turns only, the passing lane shall be the lane immediately to the right of such high occupancy lane or left-turn lane.

(3) A person who violates this section commits a class A traffic infraction.

**PART 11**  
**SPEED REGULATIONS**

**1101. Speed limits.**

(1) No person shall drive a vehicle on a highway at a speed greater than is reasonable and prudent under the conditions then existing.

(2) Except when a special hazard exists that requires a lower speed, the following speeds shall be lawful:

(a) Twenty miles per hour on narrow, winding mountain highways or on blind curves;

(b) Twenty-five miles per hour in any business district, as defined in section 42-1-102(11), C.R.S.;

(c) Thirty miles per hour in any residence district, as defined in section 42-1-102(80), C.R.S.;

(d) Forty miles per hour on open mountain highways;

(e) Forty-five miles per hour for all single rear axle vehicles in the business of transporting trash that exceed twenty thousand pounds, where higher speeds are posted, when said vehicle is loaded as an exempted vehicle pursuant to section 507 (3);

(f) Fifty-five miles per hour on other open highways which are not on the interstate system, as defined in section 43-2-101 (2), C.R.S., and are not surfaced, four-lane freeways or expressways;

(g) Sixty-five miles per hour on surfaced, four-lane highways which are on the interstate system, as defined in section 43-2-101 (2), C.R.S., or are freeways or expressways;

(h) Any speed not in excess of a speed limit designated by an official traffic control device.

(3) No driver of a vehicle shall fail to decrease the speed of such vehicle from an otherwise lawful speed to a reasonable and prudent speed when a special hazard exists with respect to pedestrians or other traffic or by reason of weather or highway conditions.

(4) Except as otherwise provided in paragraph (c) of subsection (8) of this section, any speed in excess of the lawful speeds set forth in subsection (2) of this section shall be prima facie evidence that such speed was not reasonable or prudent under the conditions then existing. As used in this subsection (4), "prima facie evidence" means evidence which is sufficient proof that the speed was not reasonable or prudent under the conditions then existing, and which will remain sufficient proof of such fact, unless contradicted and overcome by evidence bearing upon the question of whether or not the speed was reasonable and prudent under the conditions then existing.

(5) In every charge of violating subsection (1) of this section, the complaint, summons and complaint, or penalty assessment notice shall specify the speed at which the defendant is alleged to have driven and also the alleged reasonable and prudent speed applicable at the specified time and location of the alleged violation.

(6) The provisions of this section shall not be construed to relieve the party alleging negligence under this section in any civil action for damages from the burden of proving that such negligence was the proximate cause of an accident.

(7) Notwithstanding paragraphs (a), (b), and (c) of subsection (2) of this section, any city or town may by ordinance adopt absolute speed limits as the maximum lawful speed limits in its jurisdiction, and such speed limits shall not be subject to the provisions of subsection (4) of this section.

(8) (a) (Deleted by amendment, L. 96, p. 578, § 2, effective May 25, 1996.)

(b) Notwithstanding any other provisions of this section, no person shall drive a vehicle on a highway at a speed in excess of a maximum lawful speed limit of seventy-five miles per hour.

(c) The speed limit set forth in paragraph (b) of this subsection (8) is the maximum lawful speed limit and is not subject to the provisions of subsection (4) of this section.

(d) Local authorities within their respective jurisdictions shall not authorize any speed limit which exceeds seventy-five miles per hour on any highway.

(e) The provisions of this subsection (8) are declared to be matters of both local and statewide concern requiring uniform compliance throughout the state.

(f) In every charge of a violation of paragraph (b) of this subsection (8), the complaint, summons and complaint, or penalty assessment notice shall specify the speed at which the defendant is alleged to have driven and also the maximum lawful speed limit of seventy-five miles per hour.

(g) Notwithstanding any other provision of this section, no person shall drive a low-power scooter on a roadway at a speed in excess of forty miles per hour. Local authorities shall not authorize low-power scooters to exceed forty miles per hour on a roadway.

(9) The conduct of a driver of a vehicle which would otherwise constitute a violation of this section is justifiable and not unlawful when:

(a) It is necessary as an emergency measure to avoid an imminent public or private injury which is about to occur by reason of a situation occasioned or developed through no conduct of said driver and which is of sufficient gravity that, according to ordinary standards of intelligence and morality, the desirability and urgency of avoiding the injury clearly outweigh the desirability of avoiding the consequences sought to be prevented by this section; or

(b) With respect to authorized emergency vehicles, the applicable conditions for exemption, as set forth in section 108, exist.

(10) The minimum requirement for commission of a traffic infraction or misdemeanor traffic offense under this section is the performance by a driver of prohibited conduct, which includes a voluntary act or the omission to perform an act which said driver is physically capable of performing.

(11) It shall not be a defense to prosecution for a violation of this section that:

(a) The defendant's conduct was not performed intentionally, knowingly, recklessly, or with criminal negligence; or

(b) The defendant's conduct was performed under a mistaken belief of fact, including, but not limited to, a mistaken belief of the defendant regarding the speed of the defendant's vehicle; or

(c) The defendant's vehicle has a greater operating or fuel-conserving efficiency at speeds greater than the reasonable and prudent speed under the conditions then existing or at speeds greater than the maximum lawful speed limit.

(12) (a) A violation of driving one to twenty-four miles per hour in excess of the reasonable and prudent speed or in excess of the maximum lawful speed limit of seventy-five miles per hour is a class A traffic infraction.

(b) A violation of driving twenty-five or more miles per hour in excess of the reasonable and prudent speed or in excess of the maximum lawful speed limit of seventy-five miles per hour is a class 2 misdemeanor traffic offense; except that such violation within a maintenance, repair, or construction zone, designated pursuant to section 614, is a class 1 misdemeanor traffic offense.

(c) A violation under subsection (3) of this section is a class A traffic infraction.

### **1102. Altering of speed limits.**

(1)(a) Whenever local authorities determine upon the basis of a traffic investigation or survey or upon the basis of appropriate design standards and projected traffic volumes in the case of newly constructed highways or segments thereof that any speed specified or established as authorized under sections 1101 to 1104 is greater or less than is reasonable or safe under the road and traffic conditions at any intersection or other place or upon any part of a state highway under its jurisdiction, said local authority shall determine and declare a reasonable and safe speed limit thereat which shall be effective when appropriate signs giving notice thereof are erected at such intersection or other place or upon the approaches thereto; except that no speed limit in excess of seventy-five miles per hour shall be authorized by said local authority.

(b) Repealed.

(2) Whenever county or municipal authorities within their respective jurisdictions determine upon the basis of a traffic investigation or survey, or upon the basis of appropriate design standards and projected traffic volumes in the case of newly constructed highways or segments thereof, that any speed specified or established as authorized under sections 1101 to 1104 is greater or less than is reasonable or safe under the road and traffic conditions at any intersection or other place or upon any part of a street or highway in its jurisdiction, said local authority shall determine and declare a reasonable and safe speed limit thereat which shall be effective when appropriate signs giving notice thereof are erected at such intersection or other place or upon the approaches thereto. No such local authority shall have the power to alter the basic rules set forth in section 1101 (1) or in any event to authorize by resolution or ordinance a speed in excess of seventy-five miles per hour.

(3) Local municipal authorities within their respective jurisdictions shall determine upon the basis of a traffic investigation or survey the proper speed for all arterial streets and shall

declare a reasonable and safe speed limit thereon which may be greater or less than the speed specified under section 1101 (2) (b) or (2) (c). Such speed limit shall not exceed seventy-five miles per hour and shall become effective when appropriate signs are erected giving notice thereof. For purposes of this subsection (3), an “arterial street” means any United States or state-numbered route, controlled-access highway, or other major radial or circumferential street or highway designated by local authorities within their respective jurisdictions as part of a major arterial system of streets or highways.

(4) No alteration of speed limits on state highways within cities, cities and counties, and incorporated towns is effective until it has been approved in writing by the department of transportation. Upon the request of any incorporated city or town, the department of transportation shall conduct any traffic investigation or survey that is deemed to be warranted for determination of a safe and reasonable speed limit on any street or portion thereof that is a state highway. In conducting such a traffic investigation, the department may receive and consider traffic and engineering data provided by the city or county engineer of any requesting local government that will be impacted by a proposed alteration of speed limits. Any speed limit so determined by the department becomes effective when declared by the local authority and made known by official signs conforming to the state traffic control manual.

(5) Whenever the local authorities, within their respective jurisdictions, determine upon the basis of a traffic investigation or survey that a reduced speed limit is warranted in a school or construction area or other place during certain hours or periods of the day when special or temporary hazards exist, the department or the concerned local authority may erect or display official signs of a type prescribed in the state traffic control manual giving notice of the appropriate speed limit for such conditions and stating the time or period the regulation is effective. When such signs are erected or displayed, the lawful speed limit at the particular time and place shall be that which is then indicated upon such signs; except that no such speed limit shall be less than twenty miles per hour on a state highway or other arterial street as defined in subsection (3) of this section nor less than fifteen miles per hour on any other road or street, nor shall any such reduced speed limit be made applicable at times when the special conditions for which it is imposed cease to exist. Such reduced speed limits on streets which are state highways shall be subject to the written approval of the department of transportation before becoming effective.

(6) In its discretion, a municipality, by ordinance, or a county, by resolution of the board of county commissioners, may impose and enforce stop sign regulations and speed limits, not inconsistent with the provisions of sections 1101 to 1104, upon any way which is open to travel by motor vehicles and which is privately maintained in mobile home parks, when appropriate signs giving notice of such enforcement are erected at the entrances to such ways. Unless there is an agreement to the contrary, the jurisdiction ordering the regulations shall be responsible for the erection and maintenance of the signs.

(7) Any powers granted in this section to county or municipal authorities may be exercised by such authorities or by any municipal officer or employee who is designated by ordinance to exercise such powers.

**1103. Minimum speed regulation.**

(1) No person shall drive a motor vehicle on any highway at such a slow speed as to impede or block the normal and reasonable forward movement of traffic, except when a reduced speed is necessary for safe operation of such vehicle or in compliance with law.

(2) Whenever the department of transportation or local authorities within their respective jurisdictions determine, on the basis of an engineering and traffic investigation as described in the state traffic control manual, that slow speeds on any part of a highway consistently impede the normal and reasonable movement of traffic, said department or such local authority may determine and declare a minimum speed limit below which no person shall drive a vehicle, except when necessary for safe operation or in compliance with law.

(3) Notwithstanding any minimum speed that may be authorized and posted pursuant to this section, if any person drives a motor vehicle on a highway outside an incorporated area or on any controlled-access highway at a speed less than the normal and reasonable speed of traffic under the conditions then and there existing and by so driving at such slower speed impedes or retards the normal and reasonable movement of vehicular traffic following immediately behind, then such driver shall:

(a) Where the width of the traveled way permits, drive in the right-hand lane available to traffic or on the extreme right side of the roadway consistent with the provisions of section 1001 (2) until such impeded traffic has passed by; or

(b) Pull off the roadway at the first available place where such movement can safely and lawfully be made until such impeded traffic has passed by.

(4) Wherever special uphill traffic lanes or roadside turnouts are provided and posted, drivers of all vehicles proceeding at less than the normal and reasonable speed of traffic shall use such lanes or turnouts to allow other vehicles to pass or maintain normal traffic flow.

(5) Any person who violates any provision of this section commits a class A traffic infraction.

**1104. Speed limits on elevated structures.**

(1) No person shall drive a vehicle over any bridge or other elevated structure constituting a part of a highway at a speed which is greater than the maximum speed which can be maintained with safety to such bridge or structure, when such structure is signposted as provided in this section.

(2) The department of transportation upon request from any local authority shall, or upon its own initiative may, conduct an investigation of any bridge or other elevated structure constituting a part of a highway, and, if it finds that such structure cannot with safety to itself withstand vehicles traveling at the speed otherwise permissible under sections 1101 to 1104, said

department shall determine and declare the maximum speed of vehicles which such structure can withstand and shall cause or permit suitable standard signs stating such maximum speed to be erected and maintained before each end of such structure in conformity with the state traffic control manual.

(3) Upon the trial of any person charged with a violation of this section, proof of said determination of the maximum speed by said department and the existence of said signs shall constitute conclusive evidence of the maximum speed which can be maintained with safety to such bridge or structure.

(4) Any person who violates any provision of this section commits a class A traffic infraction.

**1105. Speed contests - speed exhibitions - aiding and facilitating - immobilization of motor vehicle - definitions.**

(1) (a) Except as otherwise provided in subsection (4) of this section, it is unlawful for a person to knowingly engage in a speed contest on a highway.

(b) For purposes of this section, “speed contest” means the operation of one or more motor vehicles to conduct a race or a time trial, including but not limited to rapid acceleration, exceeding reasonable and prudent speeds for highways and existing traffic conditions, vying for position, or performing one or more lane changes in an attempt to gain advantage over one or more of the other race participants.

(c) A person who violates any provision of this subsection (2) commits a class 2 misdemeanor traffic offense.

(3) (a) Except as otherwise provided in subsection (4) of this section, a person shall not, for the purpose of facilitating or aiding or as an incident to any speed contest or speed exhibition upon a highway, in any manner obstruct or place a barricade or obstruction, or assist or participate in placing any such barricade or obstruction, upon a highway.

(b) A person who violates any provision of this subsection (3) commits, pursuant to section 1703, the offense that the person aided in or facilitated the commission of. Nothing in this subsection (3) shall be construed to preclude charging a person under section 1703 for otherwise being a party to the crime of engaging in a speed contest or engaging in a speed exhibition.

(4) The provisions of this section shall not apply to the operation of a motor vehicle in an organized competition according to accepted rules on a designated and duly authorized race track, race course, or drag strip.

(5) (a) In addition to a sentence imposed pursuant to this section or pursuant to any other provision of law:

(I) Upon the second conviction for an offense specified in subsection (1) or (2) of this section, or any other crime, the underlying factual basis of which has been found by the court to include an act of operating a motor vehicle in violation of subsection (1) or (2) of this section, the court may, in its discretion, order the primary law enforcement agency involved with the case to place an immobilization device on the motor vehicle or motor vehicles so operated for a period of up to fourteen days.

(II) Upon the third or subsequent conviction for an offense specified in subsection (1) or (2) of this section, or any other crime, the underlying factual basis of which has been found by the court to include an act of operating a motor vehicle in violation of subsection (1) or (2) of this section, the court may, in its discretion, order the primary law enforcement agency involved with the case to place an immobilization device on the motor vehicle or motor vehicles so operated for a period of up to thirty days but more than fourteen days.

(b) The period during which a motor vehicle may be fitted with an immobilization device pursuant to paragraph (a) of this subsection (5) shall be in addition to any period during which the motor vehicle was impounded prior to sentencing.

(c) An order issued under this subsection (5) shall state the requirements included in subsections (7) and (8) of this section.

(d) For purposes of this section, “immobilization device” means a device locked into place over a wheel of a motor vehicle that prevents the motor vehicle from being moved. “Immobilization device” includes but is not limited to a device commonly referred to as a “traffic boot” or “boot”.

(6) (a) Except as otherwise provided in subsection (9) of this section, a law enforcement agency that is ordered to place an immobilization device on a motor vehicle pursuant to subsection (5) of this section shall attempt to locate the motor vehicle within its jurisdiction. The law enforcement agency may, in its discretion, attempt to locate the motor vehicle outside of its jurisdiction.

(b) Nothing in this subsection (6) shall be construed to:

(I) Prohibit a law enforcement agency from seeking the assistance of another law enforcement agency for the purpose of placing an immobilization device on a motor vehicle or removing the device in accordance with this section; or

(II) Require a law enforcement agency to expend excessive time or commit excessive staff to the task of locating a motor vehicle subject to immobilization under this section.

(c) The time spent by a law enforcement agency in locating a motor vehicle in accordance with this subsection (6) shall not alter the immobilization period ordered by the court under subsection (5) of this section.

(d) A law enforcement agency that places an immobilization device on a motor vehicle pursuant to this section shall affix a notice to the immobilized motor vehicle stating the information described in subsections (7) and (8) of this section.

(e) A peace officer who locates or attempts to locate a motor vehicle, or who places or removes, or assists with the placement or removal of, an immobilization device in accordance with the provisions of this section shall be immune from civil liability for damages, except for damages arising from willful and wanton conduct.

(7) (a) The owner of a motor vehicle immobilized under this section shall be assessed a fee of thirty-five dollars for each day the motor vehicle is ordered immobilized and, except as otherwise provided in paragraph (d) of this subsection (7), thirty-five dollars for each day up to fourteen days after the immobilization period that the fee for the immobilization period is not paid. The owner shall pay the fee to the law enforcement agency that places the immobilization device on the motor vehicle.

(b) The owner, within fourteen days after the end of the immobilization period ordered by the court, may obtain removal of the immobilization device by the law enforcement agency that placed it by requesting the removal and paying the fee required under paragraph (a) of this subsection (7).

(c) The failure of the owner of the immobilized motor vehicle to request removal of the immobilization device and pay the fee within fourteen days after the end of the immobilization period ordered by the court or within the additional time granted by the court pursuant to paragraph (d) of this subsection (7), whichever is applicable, shall result in the motor vehicle being deemed an “abandoned motor vehicle”, as defined in sections 1802 (1) (d) and 2102 (1) (d), and subject to the provisions of part 18 or 21 of this Code, whichever is applicable. The law enforcement agency entitled to payment of the fee under this subsection (7) shall be eligible to recover the fee if the abandoned motor vehicle is sold, pursuant to section 1809 (2)(b.5) or 2108 (2) (a.5).

If additional time is granted, the court shall notify the law enforcement agency that placed the immobilization device.

(8) (a) A person may not remove an immobilization device that is placed on a motor vehicle pursuant to this section during the immobilization period ordered by the court.

(b) No person may remove the immobilization device after the end of the immobilization period except the law enforcement agency that placed the immobilization device and that has been requested by the owner to remove the device and to which the owner has properly paid the fee required by subsection (7) of this section. Nothing in this subsection (8) shall be construed to prevent the removal of an immobilization device in order to comply with the provisions of part 18 or 21 of this Code.

(c) A person who violates any provision of this subsection (8) commits a class 2 misdemeanor traffic offense.

(9) (a) A law enforcement agency that is ordered to place an immobilization device on a motor vehicle pursuant to subsection (5) of this section shall inform the court at sentencing if it is unable to comply with the court's order either because the law enforcement agency is not yet equipped with an immobilization device or because it does not have a sufficient number of immobilization devices. The court, upon being so informed, shall, in lieu of ordering immobilization, order the law enforcement agency to impound the motor vehicle for the same time period that the court initially ordered the motor vehicle to be immobilized.

(b) If a motor vehicle is ordered to be impounded pursuant to paragraph (a) of this subsection (9), the provisions of subsections (6) to (8) of this section shall not apply.

(6) This local authority, with respect to highways under its jurisdiction, may place official traffic control devices prohibiting, limiting, or restricting the stopping, standing, or parking of vehicles on any highway where it is determined, upon the basis of a traffic investigation or study, that such stopping, standing, or parking is dangerous to those using the highway or where the stopping, standing, or parking of vehicles would unduly interfere with the free movement of traffic thereon. No person shall stop, stand, or park any vehicle in violation of the restrictions indicated by such devices.

(III) The owner of real property with multiple-family dwellings affixed and with reserved parking shall retain the reserved parking as commonly owned for the tenants, owners, or visitors of the individual units within the dwellings. This subparagraph (III) does not prohibit the sale of all commonly owned property so long as the reserved parking is not severed from the other elements.

(IV) A person shall not impose restrictions on the use of disabled parking unless specifically authorized by a statute of Colorado and a resolution of or ordinance of a political subdivision of Colorado and notice of the restriction is prominently posted by a sign clearly visible at the parking space.

(II) An identifying plate or placard obtained under or authorized by section 42-3-204, C.R.S., is displayed in or on the vehicle if the license plate or placard is currently valid or has expired less than one month before the day the person used the reserved parking.

(a.5) A person shall not, while parked in a parking space that requires remuneration, display a remuneration-exempt identifying placard that is not issued to the person. (II) (A) Parking in a time-limited reserved parking space for more than three hours for at least three days a week for at least two weeks creates a rebuttable presumption that the person is violating this paragraph (b).

(B) This subparagraph (II) does not apply to privately owned parking spaces.

(c) A person shall not use reserved parking for a commercial purpose unless:

(I) The purpose relates to transacting business with a business the reserved parking is intended to serve; or

(III) (A) It is an affirmative defense to a violation of this paragraph (d) for the chief operations officer within Colorado that the entity enforces an internal policy controlling access to and use of identifying placards issued to the entity.

(B) If the placard used is expired by operation of section 42-3-204(6)(f), C.R.S., it is an affirmative defense to a violation of this paragraph (d) that the person did not know the placard was expired if the person who used the placard was the person to whom it was issued.

(b) A person who violates this subsection (4) is subject to the penalties in section 42-4-1701(4)(a)(VIII), C.R.S.

(5) Fraud and trafficking. A person is subject to the penalties in section 42-4-1701(4)(a)(X), C.R.S., if the person:

(6) Enforcement of reserved parking.

(a) A peace officer or authorized and uniformed parking enforcement official may check the identification of a person using an identifying plate or placard in order to determine whether the use is authorized.

(b) (I) A peace officer or authorized and uniformed parking enforcement official may confiscate an identifying placard that is being used in violation of this section.

(II) The peace officer or parking enforcement official shall send a confiscated placard to the department unless it is being held as evidence for prosecution of a violation of this section. If the tag is being held as evidence, the peace officer or parking enforcement official shall notify the department of the confiscation and pending charges.

(III) The department shall hold a confiscated placard for thirty days and may dispose of the placard after thirty days. The department shall release the placard to the person with a disability to whom it was issued when the person signs a statement under penalty of perjury that he or she was unaware that the violator used, or intended to use, the placard in violation of this section.

(c) A peace officer and the department may investigate an allegation that a person is violating this section.

(d) A person who observes a violation of this section may submit evidence, including a sworn statement, concerning the violation to any law enforcement agency.

The peace officer shall include in the penalty assessment notice the offense or infraction, the time and place where it occurred, and a statement that the payment of the penalty assessment and a surcharge is due within twenty days after the issuance of the notice. The department receives payment of the penalty assessment by the due date if the payment is received or postmarked by the twentieth day after the vehicle owner received the penalty assessment notice.

(II) If the penalty assessment and surcharge are not paid within twenty days after the date the vehicle owner receives the assessment notice specified in subparagraph (I) of this paragraph (e), the peace officer who issued the original penalty assessment notice shall file a complaint with a court having jurisdiction and issue and serve upon the registered owner of the vehicle a summons to appear in court at the time and place specified.

(f) (I) The entering court shall send certification of the entry of judgment for each violation of paragraph (b), (c), or (d) of subsection (3) of this section to the department.

(II) Upon receipt of certification of an entry of judgment for a violation of paragraph (b), (c), or (d) of subsection (3) of this section, the department shall not register the person's vehicle until all fines imposed for the violations have been paid.

(III) Upon receipt of certification or independent verification of an entry of judgment, the department shall revoke an identifying plate or placard as provided in section 42-3-204(7)(d), C.R.S.

(g) (I) Notwithstanding any other provision of this section to the contrary, a holder is liable for any penalty or fine as set forth in this section or section 42-3-204, C.R.S., or for any misuse of an identifying plate or placard, including the use of such plate or placard by any person other than a holder, unless the holder furnishes sufficient evidence that the identifying plate or placard was, at the time of the violation, in the care, custody, or control of another person without the holder's knowledge or consent.

(II) A holder may avoid the liability described in subparagraph (I) of this paragraph (g) if, within a reasonable time after notification of the violation, the holder furnishes to the prosecutorial division of the appropriate jurisdiction the name and address of the person who had the care, custody, or control of the identifying plate or placard at the time of the violation or the holder reports the license plate or placard lost or stolen to both the appropriate local law enforcement agency and the department.

(h) An employer shall not forbid an employee from reporting violations of this section. A person shall not initiate or administer any disciplinary action against an employee because the employee notified the authorities of a possible violation of this section if the employee has a good-faith belief that a violation has occurred.

(i) A landlord shall not retaliate against a tenant because the tenant notified the authorities of a possible violation of this section if the tenant has a good-faith belief that a violation has occurred.

(j) In order to stop a vehicle from blocking access or illegally using reserved parking, a peace officer may order a vehicle that is used to violate this subsection (4) to be towed to an impound lot or a vehicle storage location. The peace officer shall verify that the vehicle has not been stolen and report the fact of the tow to the department of revenue in accordance with section 42-4-1804, C.R.S.

(k) The local authority issuing a citation under this section, or under any local ordinance defining a substantially equivalent offense, shall transfer one-half of the fine to the state treasurer, who shall credit the fine to the disabled parking education and enforcement fund created in section 42-1-226, C.R.S.

### **1209. Owner liability for parking violations.**

In addition to any other liability provided for in this Code, the owner of a motor vehicle who is engaged in the business of leasing or renting motor vehicles is liable for payment of a parking violation fine unless the owner of the leased or rented motor vehicle can furnish sufficient evidence that the vehicle was, at the time of the parking violation, in the care, custody,

or control of another person. To avoid liability for payment the owner of the motor vehicle is required, within a reasonable time after notification of the parking violation, to furnish to the prosecutorial division of the appropriate jurisdiction the name and address of the person or company who leased, rented, or otherwise had the care, custody, or control of such vehicle. As a condition to avoid liability for payment of a parking violation, any person or company who leases or rents motor vehicles to another person shall attach to the leasing or rental agreement a notice stating that, pursuant to the requirements of this section, the operator of the vehicle is liable for payment of a parking violation fine incurred when the operator has the care, custody, or control of the motor vehicle. Such a request shall be a waiver of any objection the owner or lessee may assert concerning enforcement of this section by peace officers of this state, and such officers are hereby authorized and empowered to so enforce this section, provisions of law to the contrary notwithstanding. When the owner or lessee gives written notice to the board of county commissioners that said request is withdrawn, and the owner or lessee removes all traffic control devices, the provisions of this section shall no longer be applicable.

(II) In all cases where this paragraph (c) prohibits the issuance of a penalty assessment notice, the penalty and surcharge schedule contained in subparagraph (I) of paragraph (a) of subsection (4) of this section shall be inapplicable; except that the penalty and surcharge provided in the schedule contained in sub-subparagraph (B) of subparagraph (I) of paragraph (a) of subsection (4) of this section for any violation of section 121 shall always apply to such a violation. (7) Notwithstanding the provisions of paragraph (b) of subsection (5) of this section, receipt of payment by mail by the department or postmarking such payment on or prior to the twentieth day after the receipt of the penalty assessment notice by the defendant shall be deemed to constitute receipt on or before the date the payment was due.

Any sheriff, undersheriff, deputy sheriff, police officer, marshal, Colorado state patrol officer, or agent of the Colorado bureau of investigation who finds a motor vehicle that such officer has reasonable grounds to believe has been abandoned shall require such motor vehicle to be removed or cause the same to be removed and placed in storage in any impound lot designated or maintained by the law enforcement agency employing such officer.

(b) If an operator is used by the responsible law enforcement agency to tow or impound the motor vehicle pursuant to paragraph (a) of this subsection (1), the operator shall be provided with written authorization to possess the motor vehicle on a document that includes, without limitation, the year, make, model, vehicle identification number, and storage location.

(2) Whenever any sheriff, undersheriff, deputy sheriff, police officer, marshal, Colorado state patrol officer, agent of the Colorado bureau of investigation, or agency employee finds a motor vehicle, vehicle, cargo, or debris, attended or unattended, standing upon any portion of a highway right-of-way in such a manner as to constitute an obstruction to traffic or proper highway maintenance, such officer or agency employee is authorized to cause the motor vehicle, vehicle, cargo, or debris to be moved to eliminate any such obstruction; and neither the officer, the agency employee, nor anyone acting under the direction of such officer or employee shall be liable for any damage to such motor vehicle, vehicle, cargo, or debris occasioned by such removal. The removal process is intended to clear the obstruction, but such activity should create as little damage as possible to the vehicle, or cargo, or both. No agency employee shall cause any motor vehicle to be moved unless such employee has obtained approval from a local law enforcement agency of a municipality, county, or city and county, the Colorado bureau of investigation, or the Colorado state patrol.

(3) The operator shall be responsible for removing the motor vehicle and the motor vehicle debris from the site pursuant to this section, but shall not be required to remove or clean up any hazardous or commercial cargo the motor vehicle carried. The commercial carrier shall be responsible for removal or clean-up of the hazardous or commercial cargo.

**1804. Report of abandoned motor vehicles - owner’s opportunity to request hearing.**

(1)(a) Upon having an abandoned motor vehicle towed, the responsible law enforcement agency shall ascertain, if possible, whether or not the motor vehicle has been reported stolen,

and, if so reported, such agency shall recover and secure the motor vehicle and notify its rightful owner and terminate the abandonment proceedings under this part 18. The responsible law enforcement agency and the towing carrier shall have the right to recover from the owner their reasonable costs and fees for recovering and securing the motor vehicle. Nothing in this section shall be construed to authorize fees for services that were not provided or that were provided by another person or entity.

(b) As soon as possible, but in no event later than ten working days after having an abandoned motor vehicle towed, the responsible law enforcement agency shall report the same to the department by first-class or certified mail, by personal delivery, or by internet communication. The report shall be on a form prescribed and supplied by the department.

(c) The report shall contain the following information:

(I) The fact of possession, including the date possession was taken, the location of storage of the abandoned motor vehicle and the location from which it was towed, the identity of the responsible law enforcement agency, and the business address, telephone number, and name and signature of a representative from the responsible law enforcement agency;

(II) If applicable, the identity of the operator possessing the abandoned motor vehicle, together with the operator's business address and telephone number and the carrier number assigned by the public utilities commission; and

(III) A description of the abandoned motor vehicle, including the make, model, color, and year, the number, issuing state, and expiration date of the license plate, and the vehicle identification number.

(2) Upon its receipt of a report made under subsection (1) or (6) of this section, the department shall search its records to ascertain the last-known owner of record for the abandoned motor vehicle and any lienholder as those persons are represented in department records. In the event the vehicle is determined by the department not to be registered in the state of Colorado, the report required by this section shall state that no Colorado title record exists regarding the vehicle. Within ten working days after such receipt, the department shall complete its search and shall transmit such report, together with all relevant information, to the responsible law enforcement agency.

(3) The responsible law enforcement agency, upon its receipt of the report required under subsection (2) of this section, shall determine, from all available information and after reasonable inquiry, whether the abandoned motor vehicle has been reported stolen, and, if so reported, such agency shall recover and secure the motor vehicle and notify its rightful owner and terminate the abandonment proceedings under this part 18. The responsible law enforcement agency and the operator shall have the right to recover from the owner their reasonable costs to recover and secure the motor vehicle.

(4) (a) If the responsible law enforcement agency, does not use an operator to store the motor vehicle, the responsible law enforcement agency, within ten working days after the receipt of the report from the department within ten working days after the receipt of the report from the department required in subsection (2) of this section, shall notify by certified mail the owner of

record, if ascertained, and any lienholder, if ascertained, of the fact of such report and the claim of any lien under section 1806 and shall send a copy of such notice to the operator. The notice shall contain information that the identified motor vehicle has been reported abandoned to the department, the location of the motor vehicle and the location from which it was towed, and that, unless claimed within thirty calendar days after the date the notice was sent as determined from the postmark on the notice, the motor vehicle is subject to sale.

(b) If the responsible law enforcement agency uses an operator to store the motor vehicle, the responsible law enforcement agency within ten working days after the receipt of the report from the department required in subsection (2) of this section, shall notify by first class mail the owner of record, if ascertained, and any lienholder, if ascertained, of the fact of the report and the claim of any lien under section 1806. The notice shall contain information that the identified motor vehicle has been reported abandoned to the department, the location of the motor vehicle and the location from where it was towed, and that from the postmark on the notice, the motor vehicle is subject to sale.

(c) The responsible law enforcement agency shall include in the notices sent pursuant to either paragraph (a) or (b) of this subsection (4), a statement informing the owner of record of the opportunity to request a hearing concerning the legality of the towing of the abandoned motor vehicle, and the responsible law enforcement agency to contact for that purpose.

(d) If an owner or lienholder requests a hearing, the owner or lienholder shall make the request in writing to the responsible law enforcement agency within ten days after the notice was sent, as determined by the postmark. Such hearing, if requested, shall be conducted pursuant to the provisions of section 24-4-105, C.R.S., if the responsible law enforcement agency is the Colorado state patrol. If a local political subdivision is the responsible law enforcement agency, such hearing shall be conducted pursuant to local hearing procedures. If it is determined at the hearing that the motor vehicle was illegally towed upon request from a law enforcement agency, all towing charges and storage fees assessed against the vehicle shall be paid by such law enforcement agency.

(5) The department shall maintain department-approved notice forms satisfying the requirements of subsection (4) of this section and shall make them available for use by local law enforcement agencies.

(6) (a) (I) Except as provided in subparagraph (II) of this paragraph (a), an operator or its agent shall, no less than two days, but no more than ten days after a motor vehicle has been towed, determine who the owner is and if there is a lienholder and send a notice by certified mail, return receipt requested, to the last address of the owner, and any lienholder, as determined from the records of the department or from a national search performed by the department

(II) If the department conducts a national title search in accordance with paragraph (b) of subsection (2) of this section, each day elapsing between the department being notified and the department returning information on the motor vehicle as a result of the search does not count against the tow operator's ten-day deadline to contact the motor vehicle's owner or any lienholder. This subparagraph (II) does not affect daily storage fees.

(III) The cost of complying with this paragraph (a) is a cost of towing; except that the total of all costs of complying with this section shall not exceed one hundred fifty dollars. To comply with this subsection (6), the notice to the owner and lienholder must be sent within five days after the operator receives the information from the department and must contain the following information:

(A) The fact of possession, including the date possession was taken, the location of storage of the motor vehicle, and the location from which it was towed;

(B) The identity of the operator possessing the abandoned motor vehicle, together with the operator's business address and telephone number and the carrier number assigned by the public utilities commission; and

(C) A description of the motor vehicle, including the make, model, color, and year and the number, issuing state, and expiration date of the license plate, or any other indicia of the motor vehicle's state of origin.

(b) The operator shall not be entitled to recover any daily storage fees from the day the vehicle is towed until the day the owner and lienholder are notified, unless the operator reasonably attempts to notify the owner and lienholder by the date specified in paragraph (a) of this subsection (6). Sending a notice by certified mail, return receipt requested, to the owner and the lienholder as represented in department records shall be deemed a reasonable attempt to notify the owner and the lienholder. Failure to notify the owner and the lienholder due to the receipt of erroneous information from the department or a failure of the law enforcement agency to comply with this section shall not cause the loss of such storage fees accrued from the date the vehicle is towed until the owner and the lienholder receive such notice.

#### **1805. Appraisal of abandoned motor vehicles - sale.**

(1) (a) Abandoned motor vehicles or motor vehicles abandoned in an impound lot subsequent to a tow from public property shall be appraised by a law enforcement officer or an independent motor vehicle dealer and sold by the responsible law enforcement agency at a public or private sale held not less than thirty days nor more than sixty days after the date the notice required by section 42-4-1804(4), C.R.S., was mailed.

(b) Subject to section 1804, the operator may continue to charge for daily storage fees until the responsible law enforcement agency complies with this section.

(2) If the appraised value of an abandoned motor vehicle sold pursuant to this section is three hundred fifty dollars or less, the sale shall be made only for the purpose of junking, scrapping, or dismantling such motor vehicle, and the purchaser thereof shall not, under any circumstances, be entitled to a Colorado certificate of title. The responsible law enforcement agency making the sale shall cause to be executed and delivered a bill of sale, together with a copy of the report described in section 1804 (2), to the person purchasing such motor vehicle. The bill of sale shall state that the purchaser acquires no right to a certificate of title for such vehicle. The responsible law enforcement agency making the sale shall promptly submit a report of sale, with a copy of the bill of sale, to the department and shall deliver a copy of such report of

sale to the purchaser of the motor vehicle. Upon receipt of any report of sale with supporting documents on any sale made pursuant to this subsection (2), the department shall purge the records for such vehicle as provided in section 42-4-1810(1)(b), C.R.S., and shall not issue a new certificate of title for such vehicle. Any certificate of title issued in violation of this subsection (2) shall be void.

(3) If the appraised value of an abandoned motor vehicle sold pursuant to this section is more than three hundred fifty dollars, the sale may be made for any intended use by the purchaser. The responsible law enforcement agency making the sale shall cause to be executed and delivered a bill of sale, together with a copy of the report described in section 1804 (2), and an application for a Colorado certificate of title signed by a legally authorized representative of the responsible law enforcement agency conducting the sale, to the person purchasing such motor vehicle. The purchaser of the abandoned motor vehicle shall be entitled to a Colorado certificate of title upon application and proof of compliance with the applicable provisions of the "Certificate of Title Act", part 1 of Code 6 of this title, within fourteen days after the sale; except that, if such vehicle is less than five years old, including the current year model, and if the department does not provide the name of an owner of record to the law enforcement agency, the purchaser shall apply for a bonded title and the department shall issue such bonded title upon the applicant meeting the qualifications for such title pursuant to rules promulgated by the department.

(4) (a) Transferring the title of a motor vehicle to an operator to satisfy a debt created pursuant to this part 18 shall not be deemed to be the sale of a motor vehicle.

(b) Nothing in this section requires an operator to be licensed pursuant to Part 1 of article 6 of title 12, C.R.S., for purposes of conducting activities under this part 18.

#### **1806. Liens upon towed motor vehicles.**

(1) Whenever an operator who is registered with the department in accordance with subsection (2) of this section recovers, removes, or stores a motor vehicle upon instructions from any duly authorized law enforcement agency or peace officer who has determined that such motor vehicle is an abandoned motor vehicle, such operator shall have a possessory lien, subject to the provisions of section 1804 (6), upon such motor vehicle and its attached accessories or equipment for all fees for recovering, towing, and storage as authorized in section 1809 (2) (a). Such lien shall be a first and prior lien on the motor vehicle, and such lien shall be satisfied before all other charges against such motor vehicle.

(2) (a) No operator shall have a possessory lien upon a motor vehicle described in subsection (1) of this section unless said operator is registered with the department. Such registration shall include the following information:

- (I) The location of the operator's tow business;
- (II) The hours of operation of the operator's tow business;
- (III) The location of the impound lot where vehicles may be claimed by the owner of record; and

(IV) Any information relating to a violation of any provision contained in this part 18 or of any other state law or rule relating to the operation, theft, or transfer of motor vehicles.

(b) The executive director of the department may cancel the registration of any operator if an administrative law judge finds, after affording the operator due notice and an opportunity to be heard, that the operator has violated any of the provisions set forth in this part 18.

**1807. Perfection of lien.**

The lien provided for in section 1806 shall be perfected by taking physical possession of the motor vehicle and its attached accessories or equipment and by sending to the department within ten working days after the time possession was taken a notice containing the information required in the report to be made under the provisions of section 1804. In addition, such report shall contain a declaration by the operator that a possessory lien is claimed for all past, present, and future charges, up to the date of redemption, and that the lien is enforceable and may be foreclosed pursuant to the provisions of this part 18.

**1808. Foreclosure of lien.**

Any motor vehicle and its attached accessories and equipment or personal property within or attached to such vehicle that are not redeemed by the last known owner of record or lienholder after such owner or lienholder has been sent notice of such lien by the operator or responsible law enforcement agency shall be sold in accordance with the provisions of section 1805.

**1809. Proceeds of sale.**

(1) If the sale of any motor vehicle, personal property, and its attached accessories or equipment under the provisions of section 42-4-1805, C.R.S., produces an amount less than or equal to the sum of all charges of the operator who has perfected his or her lien, then the operator shall have a valid claim against the owner for the full amount of such charges, less the amount received upon the sale of such motor vehicle. Failure to register such vehicle in accordance with this title shall constitute a waiver of such owner's right to be notified pursuant to this part 18 for the purposes of foreclosure of the lien pursuant to section 1808. Such charges shall be assessed in the manner provided for in paragraph (a) of subsection (2) of this section.

(2) If the sale of any motor vehicle and its attached accessories or equipment under the provisions of section 1805 produces an amount greater than the sum of all charges of the operator who has perfected his or her lien:

(a) The entity receiving the proceeds shall first satisfy the operator's reasonable fee arising from the sale of the motor vehicle and the cost and fees of towing and storing the abandoned motor vehicle, subject to a maximum charge specified in rules promulgated by the public utilities commission that govern nonconsensual tows by towing carriers.

(b) Any balance remaining after payment pursuant to paragraph (a) of this subsection (2) shall be paid to the responsible law enforcement agency to satisfy the cost of mailing notices,

having an appraisal made, advertising and selling the motor vehicle, and any other costs of the responsible law enforcement agency including administrative costs, taxes, fines, and penalties due.

(b.5) In the case of the sale of an abandoned motor vehicle described in section 42-4-1802(1)(d), C.R.S., any balance remaining after payment pursuant to paragraph (b) of this subsection (2) shall be paid to the law enforcement agency that is owed a fee for the court-ordered placement of an immobilization device on the motor vehicle pursuant to section 1105.

(c) Any balance remaining after payment pursuant to paragraphs (b) and (b.5) of this subsection (2) shall be forwarded to the department, and the department may recover from such balance any taxes, fees, and penalties due and payable to it with respect to such motor vehicle.

(d) Any balance remaining after payment pursuant to paragraph (c) of this subsection (2) shall be paid by the department: First, to any lienholder of record as the lienholder's interest may appear upon the records of the department; second, to any owner of record as the owner's interest may so appear; and then to any person submitting proof of such person's interest in such motor vehicle upon the application of such lienholder, owner, or person. If such payments are not requested and made within one hundred twenty days after the sale of the abandoned motor vehicle, the balance shall be transmitted to the state treasurer, who shall credit the same to the highway users tax fund for allocation and expenditure as specified in section 43-4-205 (5.5)(e), C.R.S.

(3) The provisions of paragraphs (a) and (b) of subsection (2) of this section shall not apply to a responsible law enforcement agency operating under a towing contract.

#### **1810. Transfer and purge of certificates of title.**

(1) Whenever any motor vehicle is abandoned and removed and sold in accordance with the procedures set forth in this part 18, the department shall transfer the certificate of title or issue a new certificate of title or shall purge such certificate of title in either of the following cases:

(a) Upon a person's submission to the department of the necessary documents indicating the abandonment, removal, and subsequent sale or transfer of a motor vehicle, the department shall transfer the certificate of title or issue a new certificate of title for such abandoned motor vehicle.

(b) Upon a person's submission of documents indicating the abandonment, removal, and subsequent wrecking or dismantling of a motor vehicle, including all sales of abandoned motor vehicles with an appraised value under three hundred fifty dollars that are conducted pursuant to section 1805 (2), the department shall keep the records for one year and then purge the records for such abandoned motor vehicle; except that the department shall not be required to wait before purging the records if the purchaser is a licensed motor vehicle dealer.

#### **1811. Penalty.**

Unless otherwise specified in this part 18, any person who knowingly violates any of the provisions of this part 18 commits a class 2 misdemeanor and shall be punished as provided in section 18-1.3-501, C.R.S.

**1812. Exemptions.**

(1) Nothing in this part 18 shall be construed to include or apply to the driver of any disabled motor vehicle who temporarily leaves such vehicle on the paved or improved and main-traveled portion of a highway, subject, when applicable, to the emergency lighting requirements set forth in section 230.

(2) Nothing in this part 18 shall be construed to include or apply to authorized emergency motor vehicles while such vehicles are actually and directly engaged in, coming from, or going to an emergency.

**1813. Local regulations.**

(1) The state or any county, municipality as defined in section 31-1-101 (6), C.R.S., or other governmental entity of the state may execute a contract or contracts for the removal, storage, or disposal of abandoned motor vehicles within the area of its authority to effectuate the provisions of this part 18.

(2) The provisions of this part 18 may be superseded by ordinance or resolution of a municipality, as defined in section 31-1-101, C.R.S., or any county that sets forth procedures for the removal, storage, and disposal of abandoned or illegally parked motor vehicles on public property; except that such ordinance or resolution shall not deprive an operator of a lien attached and perfected under this part 18.

**1814. Violation of motor vehicle registration or inspection laws - separate statutory provision.**

Owners of motor vehicles impounded by the Colorado state patrol for violation of motor vehicle registration or inspection laws shall receive notice and the opportunity for a hearing pursuant to the provisions of section 42-13-106, C.R.S. If such a motor vehicle is found to be abandoned in accordance with the provisions of said section 42-13-106, C.R.S., the notice and hearing provisions to owners of motor vehicles under other sections of this part 18 shall be deemed to have been met for purposes of proper disposition of the motor vehicle under the terms of this part 18. Nevertheless, the notice and hearing provisions of the other sections of this part 18 as to lienholders are applicable and shall not be deemed to have been met by the provisions of section 42-13-106, C.R.S., or this section.

(II) A school bus shall be exempt from the provisions of subparagraph (I) of this paragraph (b) when stopped for the purpose of discharging or loading passengers who require the assistance of a lift device only when no passenger is required to cross the roadway. Such buses shall stop as far to the right off the roadway as possible to reduce obstruction to traffic.

## **APPENDIX**

### **PART E.**

#### **INSTRUCTIONS FOR AMENDING MODEL TRAFFIC CODE PREVIOUSLY ADOPTED BY REFERENCE**

(Based on parts 1 and 2 of article 16 of title 31, as amended, and section 43-2-135 (1)(g), C.R.S.)

##### **1. Amending Ordinance:**

Colorado law provides that whenever a Code is amended by the agency which originally promulgated or adopted it, any municipality which has previously adopted the Code by reference may also adopt the amendments by reference through the same procedure as required for the adoption of the original Code; or an ordinance may be enacted in regular manner, setting forth the entire text of the amendments. The instructions which follow apply to the latter method.

##### **2. Form and Content:**

The form and content of the amending ordinance should conform to the requirements set forth in part 1 of article 16 of title 31, Colorado Revised Statutes, as amended.

Amendments pertaining to sections of the Code which are inapplicable to the municipality should be deleted in the amending ordinance.

##### **3. Public Hearing:**

No hearing is required if an ordinance is enacted setting forth the entire text of the amendments.

##### **4. Publication or Posting:**

Publication or posting requirements for the amending ordinance are the same as for any other ordinance adopted by a City or Town. Publication or posting procedures are described in Part D of this Appendix.

##### **5. Colorado Department of Transportation Approval:**

Colorado Department of Transportation approval of the amended regulations is required before any regulations pertaining to streets which are state highways become effective. This approval will take the form of a written certification signed by the Chief Engineer or designee.

**6. Effective Date:**

The amending ordinance will take effect upon adoption and compliance with requirements for the mayor's approval or thirty days after publication as provided by law. The procedure in each case is described in item no. 10 Part A of this Appendix.

**7. Public Record:**

After passage of the amending ordinance the City or Town Clerk should continue to keep on file at least three copies of the adopted code, for public inspection in the manner shown in item no. 11 in Part A of this Appendix.

## **APPENDIX**

### **PART F.**

#### **LISTING OF AMENDMENTS FOR UPDATING PREVIOUS EDITION OF MODEL TRAFFIC CODE ADOPTED BY REFERENCE**

Colorado statutes grant municipalities the option of enacting an ordinance in the regular manner for the purpose of amending a code previously adopted by reference. To accomplish this, however, the entire text of the amendments must be set forth in such an ordinance. Local Governments that desire to follow this procedure instead of adopting the current edition of the Code by reference may obtain a listing and description of all pertinent changes from the Colorado Department of Transportation. The procedure for amending a code directly rather than by reference is set forth in Part E of this Appendix.

Whenever possible, municipalities are urged to adopt the latest edition of the Code by reference instead of resorting to an amending ordinance. This procedure has several important advantages:

- (1) It avoids the problem of relating the various revisions and additions in an amending ordinance to the adopted edition of the Code;
- (2) It enables a city or town to have on record the latest references to applicable State statutes and national recommendations as well as informative and current editorial notes relating to the various traffic regulations; and
- (3) It facilitates the task of drafting the municipal ordinance pertaining to the Code.

**A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF GUNNISON  
COUNTY, COLORADO PERTAINING TO OPEN FIRE BANS AND THE IMPOSITION

**WHEREAS**, the Board of County Commissioners of Gunnison County (“Board”), pursuant to C.R.S. §§ 30-11-101(2) and 30-15-401, *et seq.* has the general enabling power to adopt ordinances, resolutions, rules and other regulations as may be necessary for the control or licensing of those matters of purely local concern, and to do all acts which may be necessary or expedient to promote the health and welfare of the citizens and residents of Gunnison County (“County”); and

**WHEREAS**, the Board may adopt ordinances to ban open fires and impose fire restriction stages within those portions of the unincorporated areas of the County where the danger of forest or grass fires is found to be high, pursuant to C.R.S. § 30-15-401(1)(n.5); and

**WHEREAS**, the Board is authorized to prohibit the sale, use, and possession of fireworks, including permissible fireworks, within those portions of the unincorporated areas of the County, pursuant to C.R.S. § 30-15-401(1)(n.7); and

**WHEREAS**, the Board acknowledges that from time-to-time fire conditions resulting from extended hot, dry and windy weather in the area make it prudent to impose restrictions on open fires, open burning and sale, use and possession of fireworks in order to reduce the danger of wildfire in the unincorporated areas of the County; and

**WHEREAS**, the Board specifically finds that in certain high fire-danger conditions such restrictions are in the best interests of the citizens and residents of the County in order to preserve the health, safety and welfare of the citizens and residents; and

**WHEREAS**, the Gunnison County Sheriff (“Sheriff”) is authorized pursuant to C.R.S. §§ 30-10-512 and 30-10-513, to act as fire warden of the County and is responsible for coordination of fire suppression efforts in case of prairie, forest or wildland fires or wildfires occurring in unincorporated areas of the County outside the boundaries of a fire protection district or that exceeds the capabilities of the fire protection district to control; and

Re: EIAF grant

**Memo**

Board Members,

I would like to apply for an EIAF grant to support the construction of housing at S. 14<sup>th</sup>. This grant would help pay for high efficiency air source heat pump HVAC systems for the initial 18 units as well as a solar array for each unit that would be capable of producing enough power for all energy needs for the homes. Air source heat pumps have been used in our climate by a few homes but are not yet widely used. This project would be an opportunity to study the effectiveness of air source heat pumps at a larger scale. The homes would have a secondary heat source of electric resistance heaters as well.

The total cost would be: Solar \$270,000 Heat pumps, ductwork, and air exchange systems \$132,450  
Total: \$402,750

The grant is a 50/50 match and has a limit of \$200,000 for Tier 1 grants. We would request \$200,000.

The EIAF grant application requires a certification that the board has taken "Official Action Approving the Submission of the Grant Application". I request approval of the board to submit for this grant.

Thank you,

John Cattles, Assistant County Manager for Sustainability and Operations

**Memorandum of Understanding for an Assessment of Town Water and Sanitary Sewer Infrastructures Capabilities to serve the Whetstone Workforce Housing Development between the Town of Crested Butte and Gunnison County.**

**March \_\_\_\_\_, 2022**

This Memorandum of Understanding (“MOU”) memorializes understandings between the Town of Crested Butte, Colorado (the “Town”) and Gunnison County, Colorado (the “County”). Collectively, the parties shall be referred to as the “MOU Parties.”

**Recitals**

A. Gunnison County currently owns a parcel legally described as a tract of land situated in the NW1/4SE1/4 of Section 12, Township 14 South, Range 86 West, 6<sup>th</sup> p.m. at 25115 Hwy 135 (“Whetstone Parcel”).

B. The Whetstone Parcel is approximately 13.25 acres and is more particularly described in the survey prepared by Erik E. Bjornstad, Professional Land Surveyor, as shown on the “Existing Conditions Map,” dated August 19, 2021.

C. The Gunnison County Board of County Commissioners have identified the goal of developing 200 new workforce housing units in their 2019 Strategic Plan.

D. The Town of Crested Butte, Colorado Town Council has adopted Resolution No. 11, Series 2021, “A Resolution of the Town Council of the Town of Crested Butte, Colorado Declaring a Local Disaster Emergency,” which identifies “it is hereby determined that the lack of available, affordable workforce housing constitutes a local disaster emergency that warrants the mobilizing of emergency response and the furnishing of aid and assistance by the Town of Crested Butte...”

E. The Gunnison County Strategic Plan identifies that the need to increase the availability of attainable workforce housing is and remains a County policy priority.

F. Gunnison County has engaged with Trestle Strategy Group and Williford Consulting to develop a concept plan for workforce housing for the Whetstone Parcel, which has included public and stakeholder engagement. The concept plan reflects community and stakeholder input.

G. Both the County and the Town agree that the Whetstone workforce housing project’s provision of deed-restricted workforce-housing units meets both the Town’s and the County’s policy priorities.

H. The County's utilization of the Town of Crested Butte's water and/or sanitary sewer infrastructure is one of the options capable of providing needed services to the workforce housing project on the Whetstone Parcel.

I. If feasible, extending water and/or sanitary sewer utility services from the Town to serve the needs of the proposed housing project on the Whetstone Parcel benefits the Project, by providing lower infrastructure costs.

NOW THEREFORE, the MOU Parties intend to mutually work to achieve the following:

### **Agreement**

*A. Intent of the Parties to this MOU.*

1. The MOU Parties agree that there is a clear need to provide deed-restricted workforce housing for Gunnison County residents, and that the County's plans for the Whetstone Parcel helps meet this need.

2. The MOU Parties agree that there are potential mutual benefits to both parties and to the community through extension of municipal water and/or sanitary sewer infrastructure to the Whetstone Parcel.

3. The MOU Parties agree that there are community and environmental benefits for connection of the Whetstone Parcel to the Town's water supply and sanitary sewer treatment systems.

4. The MOU Parties intend to explore the feasibility of extension of municipal water and sanitary sewer infrastructure to the Whetstone Parcel.

5. Should any disagreement arise regarding this MOU, the County and the Town agree, either through staff or through their elected officials, to meet and confer to negotiate in good faith any disagreement, in recognition of the need to work collaborative as community partners to address the current workforce housing emergency.

*B. Water and Sewer.*

1. Gunnison County and the Town have mutually selected the Colorado-licensed engineer Carollo Engineers, to perform a water and sewer capacity study to confirm the capacity of the Town of Crested Butte water and sanitary sewer infrastructure to serve the Whetstone Parcel.

2. Gunnison County shall provide and fund the water and sanitary sewer capacity study.

3. Gunnison County shall provide volumetric and organic sewage estimates of the Whetstone project to the Town of Crested Butte.

4. The Town of Crested Butte shall provide information, if available, regarding the operational specifications and current conditions of the Town's water and sanitary sewer system to aid in the capacity analysis.

5. The MOU parties agree that should the efforts set forth in Paragraphs 1 through 4 in this Section B demonstrate, to the reasonable satisfaction of the MOU Parties, adequate water and sanitary sewer capacity in the Town of Crested Butte's water and sanitary sewer systems for the Whetstone project, the parties will present the findings of the study to the Town Council for the purpose of the Town's consideration of water and sanitary sewer infrastructure extension to the Whetstone Parcel.

*C. General Provisions*

1. This MOU is not intended to, and nothing contained herein shall, create any partnership, joint venture or other arrangement between the Parties. No term or provision of this MOU is intended to, or shall be for the benefit of any person, firm, corporation or other entity not a party hereto (including, without limitation, any broker or member of the public), and no such party shall have any right or cause of action hereunder. There shall be no third-party beneficiaries of this MOU.

2. The MOU Parties do not intend this MOU to have any effect on the past, present or future liability of the MOU Parties or any other related entity, as no such liability has been determined as a matter of law and none is to be implied by or inferred from this MOU. This MOU lacks requisite material terms and binding obligations; it is a guide for drafting and negotiating any necessary material terms moving forward.
