---

Mike opened the meeting, and the group skipped reviewing the minutes from the last meeting due to lack of a quorum.

Zoe told the group that the Western Colorado University students working on the Somerset project have had to push their next work effort back a month.

Regarding the 2024 historical agricultural significance award, LeeAnn said she is waiting to hear from a member of the Allen family who is working on the write up. Also, LeeAnn said she will contact Johnathan about coordinating the presentation to the family.

The group decided not to work on the resolution update due to the small number of members available. However, LeeAnn did say that she liked the idea of having alteration certificates triggered by the requirement for a building permit. Shelley said she appreciated the additional feedback given by Lindsey Flewelling, with History Colorado.

Zoe told the group that she was just about finished with the Somerset Exhibit she has been working on. It is located in the History Department at Kelley Hall on the Western Colorado University campus.

The meeting adjourned at 5:20.
