UNHEATED-UTILITY STRUCTURES BUILDING PERMIT PACKET: APPLICATION AND GUIDE

BUILDING PERMITS REQUIRED FOR BUILDINGS AND ADDITIONS CONSTRUCTED IN THE UNINCORPORATED AREAS OF GUNNISON COUNTY. A building permit is required to construct, enlarge, alter, repair, move or change the occupancy of a building or structure. One-story, detached, accessory structures without utilities less than 200 square feet in floor area are exempt from the building permit requirements provided that it is accessory to and incidental to that of a dwelling that is constructed and located on the same parcel. An exemption from a building permit can be requested for agricultural structures when part of an agricultural operation and the parcel is classified as agricultural by the Gunnison County Assessor’s Office.

NO EXCAVATION FOR A FOUNDATION CAN BE STARTED WITHOUT THE BUILDING PERMIT ISSUED. Any person who commences work before obtaining the necessary permits shall be subject to 100 percent (100%) of the usual permit fee in addition to the required permit fees.

GUNNISON SAGE-GROUSE. Gunnison County regulations require that the location of buildings, On-site Wastewater Treatment Systems and accesses be designed to avoid and mitigate potential impacts to Gunnison Sage-grouse. All applications for improvements on lands within Sage-grouse occupied habitat will be reviewed by the Gunnison County Gunnison Wildlife Conservation Coordinator to determine if there are any impacts to Sage-grouse or Sage-grouse habitat. Landowners may request a pre-application conference to review Sage-grouse issues and identify potential solutions.

OTHER PERMITS REQUIRED. Other permits may be required before any construction work begins. They include:

- Gunnison County **Driveway Access Permit** or **Waiver**, available from the Gunnison County Public Works Department.
- **Highway Access Permit** from the Colorado Department of Transportation, if a parcel is located on a state or federal highway.
- Gunnison County **Reclamation Permit**, available from the Gunnison County Public Works Department.
- **Electrical Permit**, available from the Colorado Electrical Board. A state Electrical Inspector is located in Gunnison.
- A **Land Use Change Permit** may be required before a Building Permit can be issued, or conditions of an existing Land Use Change Permit may affect building locations or sizes, and other features.

(A list of other permitting agencies is included in this handout, and is also available on our website.)

INFORMATION INCLUDED IN THIS PACKET. This packet includes the following information to help you as you design your plans:

- Setback Distances Information Sheet (page 6)
- Exterior Lighting Information Sheet (page 7-8)
- Building Permit Application form (page 10-11)

STEPS FOR OBTAINING A BUILDING PERMIT IN UNINCORPORATED GUNNISON COUNTY:

1. **COMPLETE AND SUBMIT APPLICATION.** Submit a completed Building Permit application to the Community Development Department. Make sure you have completed and submitted the following, which are included in this packet:
 - The Building Permit Application Form (pages 10-11).
 - “Agreement and Consent of Property Owners” form for projects where a designated person will be representing the property owner, such as a contractor or project manager, for submittal and permitting purposes (Page 13)
2. **PERMITS REQUIRED FROM THE GUNNISON COUNTY PUBLIC WORKS DEPARTMENT: These two permits must be obtained from the Gunnison County Public Works Department before the Community Development Department may issue a Building Permit. Permits may be obtained by calling the Public Works Department at 641-0044:**
 - **DRIVEWAY ACCESS PERMIT IS REQUIRED BEFORE A BUILDING PERMIT CAN BE ISSUED.** Any site excavation or construction of an access may not begin until a Driveway Access Permit has been issued OR Public Works has granted a written waiver.
 - **A RECLAMATION PERMIT IS REQUIRED BEFORE A BUILDING PERMIT CAN BE ISSUED.** Any site excavation or access construction may not begin until a Reclamation Permit has been issued. Any of the following requires a Reclamation Permit:
 1. Road cutting or construction
 2. Homesite clearing
 3. Berm construction
 4. An activity that is part of an approved Land Use Change Permit
3. **INSPECTION OF THE DRIVEWAY CONSTRUCTION IS REQUIRED BEFORE THE BUILDING OFFICE CAN SCHEDULE A FRAME INSPECTION.** Public Works driveway construction inspection is required BEFORE scheduling a frame inspection. Contact the Public Works Department (970) 641-0044 directly to schedule the driveway construction inspection.

CODES AND REGULATIONS AFFECTING BUILDING IN GUNNISON COUNTY:

Building Codes: The 2015 *International Codes* have been adopted and amended by the Gunnison County Board of County Commissioners. A copy of each of the *Codes* is available to review in the Community Development Department, or you can purchase copies from the International Code Council, Product Orders, 1-(800)-786-4452, or from the Council's website: www.iccsafe.org. Copies of the Gunnison County amendments to the *Codes* are available in the Community Development Department and on our website, www.gunnisoncounty.org/planning.

Gunnison County Land Use Resolution: The *Resolution* governs most land development, and includes standards for setbacks, building heights, sizes of residences, design, location on ridgelines, building in geologic hazard areas, floodplains and wetlands, and other requirements that will affect where your building site can be located.

The **Gunnison County Specifications for Road and Bridge Construction** includes standards for designing and constructing a driveway and accessing onto county roads. An Access Permit or waiver is required from the Gunnison County Public Works Department before a Building Permit can be issued.

Colorado state electrical codes. Gunnison County does not perform electrical inspections. Electrical Permits are issued, and inspections are conducted by a **State Electrical Inspector**. A state issued electrical permit is required when installing, remodeling or making additions to existing electrical wiring, installation or repairing electrical apparatus and equipment for light, heat and power. Information about contacting the state and securing permits online is available from the **Colorado Electrical Board**.

BUILDING PERMIT AND RELATED FEES:

Building Permit Fees: Building permit fees are calculated during the plan review process and must be paid at the time of permit issuance. Project valuations are calculated according to the Building Valuation Data Schedule as set forth in the most recent issue of the Building Safety Journal, published by the International Code Council. Alternatively, the applicant may provide the project valuation. The project valuation for utility structures shall include the total itemized value of the work for which a permit is being issued. This includes materials and labor for the structure including excavation work. Architectural and engineering design fees, landscaping, and development mitigation fees are not included in the total. The Building Permit fee is calculated using the project valuation and the table found in Appendix L of the 2015 International Residential Code. Please call the Gunnison County Community Development Department for a building permit fee quote.

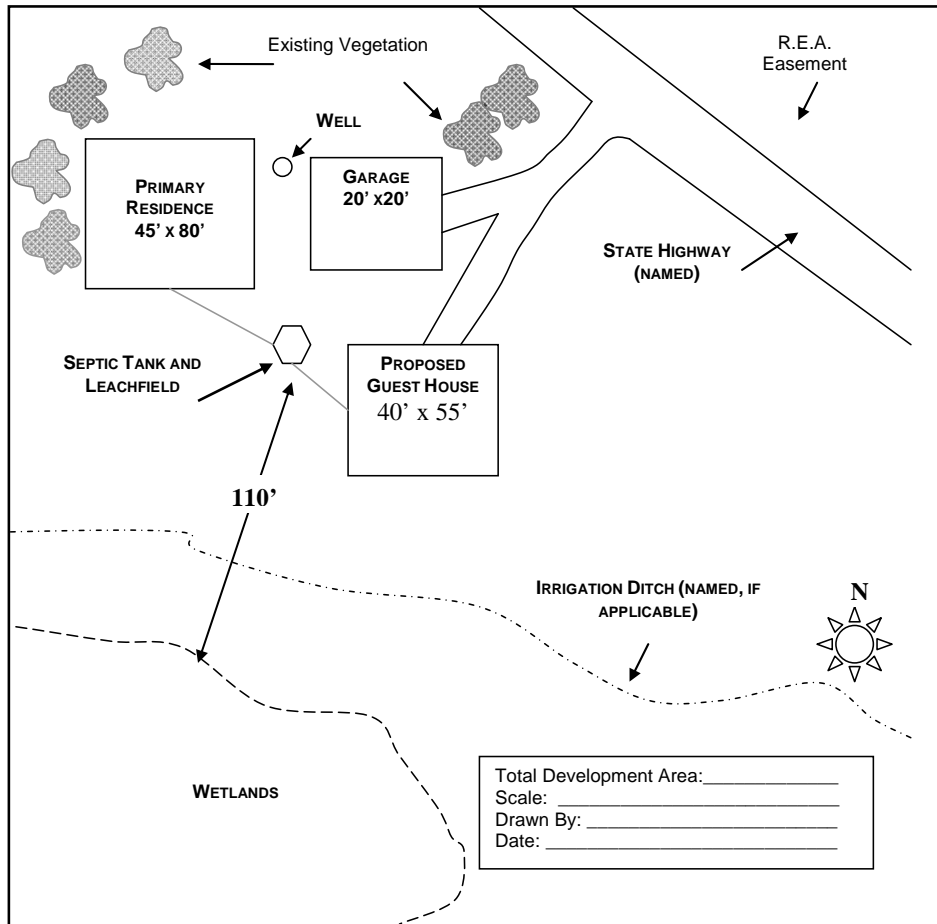

Building Plan Review Fees: For residential structures and accessory residential structures a plan review fee will be calculated as 30% of the building permit fee. For commercial structures a plan review fee will be calculated as 65% of the building permit fee.

MINIMUM REQUIREMENTS FOR A UTILITY BUILDING PERMIT:

1. **LEGALLY SUBDIVIDED LOT.** The building site must be on a legally subdivided lot. Only one residence may be built on a parcel, unless a Land Use Change Permit allowing more than one residence has been approved by the Planning Commission or the Board of Commissioners.
2. **EXTERIOR LIGHTING.** An exterior lighting plan showing locations and types of all exterior lights must be submitted with any Building Permit application. All exterior lighting must comply with *Gunnison County Land Use Resolution* Section 13-114: *Exterior Lighting* (a copy of which is included in this packet).
3. **FLOODPLAIN DEVELOPMENT PERMITS.** In flood hazard areas, a Floodplain Development Permit is required in addition to a Building Permit, and before construction can begin. The lowest floor must be one foot above base flood elevations, and the structure must be designed and constructed in compliance with the *Gunnison County Land Use Resolution* and all other applicable state and federal regulations. A copy of the Permit application and the Floodplain Development Information Sheet are available in the Community Development Department, or on the Department's website.
4. **GEOTECHNICAL STUDY.** In areas with unstable soils, or which are located in geologic hazard areas, a geotechnical study may be required in compliance with the *Gunnison County Land Use Resolution*. Foundations and structures shall be designed in accordance with the findings and recommendations of the geotechnical study, and those plans may be required to be reviewed by the Colorado Geological Survey.

GENERAL SUBMITTAL REQUIREMENTS. The following are items that are required to be submitted with your Building Permit application:

1. **ONE SET OF BUILDING CONSTRUCTION PLANS.** One full set of building construction plans must be submitted. The plans will be reviewed for compliance with the Gunnison County's Building and Land Use Regulations. Approved plans will be scanned and returned when the building permit is issued. Building construction plans need to bear the seal of a **Colorado licensed professional engineer or architect.**
 - _____ **FOUNDATION PLAN:** Include detail of size, height and reinforcement used in footers and foundation walls. Size and spacing of concrete pads should also be included.
 - _____ **COMPLETE FLOOR PLAN:** Include dimensions and uses of each room, and window and door locations and sizes. Please provide the Gross Floor Area per story measured from the interior of the exterior walls.
 - _____ **FRAMING PLAN/CROSS SECTION:** Include structural component makeup of proposed building, including species and grade of lumber, size and spacing of rafters, joists, studs, construction materials, and thickness of walls and roofs. Design roof live load and wind load need to be included on the plans.
 - _____ **ELEVATION PLAN:** Show finished grade and all sides of the structure.

2. **ONE SITE PLAN (representative drawings of the parcel or lot):** Include location and distance from lot lines to existing and proposed structures, well, irrigation ditches, and on-site wastewater treatment systems (OWTS). Indicate the exact distances or provide the indicated scale on the site plan. It must be legible, signed and dated by whoever draws it and must show the following:
- SETBACKS.** With some exceptions, which can be identified by the Building Inspector, all elements of the plan must meet setback requirements (a copy of setback requirements is included in this packet). Additionally, a subdivision's protective covenants may be more restrictive, in which case the setbacks required by the covenants should be followed.
 - ROADS AND EASEMENTS.** Existing roads; rights-of-way and easements, including their widths.
 - WATERBODIES.** Include streams, rivers, wetland areas, lakes, etc.
 - STRUCTURES.** Proposed and existing structures, their location and sizes.
 - DITCHES.** Irrigation ditches.
 - DRAINAGE.** Drainage patterns on and off your property.
 - EXISTING AND PROPOSED UTILITIES.** All existing and proposed utility lines that will serve the property, including water lines, sewer lines, power lines (overhead and/or buried).
 - ADJACENT OWNERS AND USES.** Adjacent land owners and uses.
 - PROPERTY BOUNDARIES.** Site plans shall show the entire property boundaries (for large parcels please include the entire property boundary and also a close-up of the proposed development area)
 - WELLS.** Existing and proposed well locations.
 - SEWAGE TREATMENT.** Existing or proposed on-site wastewater treatment system locations.
 - PARKING.** Parking areas.
 - GEOLOGIC HAZARD AREAS AND FLOODPLAINS.** The Community Development Department will geologic hazard and flood plain maps. If your building site is located in any of those hazard areas, include a copy in your application of the hazard area map showing the site location .

3. **WARRANTY DEED.** A copy of the recorded Warranty Deed for your property (can be obtained from the Gunnison County Clerk and Recorder's Office).
4. **EXTERIOR LIGHTING PLAN:** Show locations of all exterior lights, a description of the lighting fixtures, and information on how the lighting complies with *Gunnison County Land Use Resolution Section 13-114: Exterior Lighting*. **All applicants must sign the attached Acknowledgement and Agreement to Comply With Exterior Lighting Requirements** on the Building Permit Application Form.

OTHER SUBMITTAL REQUIREMENTS AS APPLICABLE:

1. **SNOWLOAD.** Snowfall amounts vary widely in Gunnison County, and structural design may differ depending upon snowload for particular elevations. All new construction placed in unincorporated Gunnison County shall be constructed so as to meet the snow load requirements at the proposed building site. The value of ground snow loads at building sites shall be determined through "2016 Colorado Design Snowloads", Prepared by the Structural Engineers Association of Colorado Snow Load Committee. The report can be found at: <https://seacolorado.org/publications/>. The report provides the recommended design ground snowloads which are intended to be used with ASCE 7 procedures for structural design. Once the ground snowload at the building site is determined, it must then be converted to roof snow loads according to ASCE 7, with appropriate treatment of exposure to wind, thermal properties of the roof, roof slope, unbalanced snow loads, drifting, and risk exposure. Please contact the Building Office at 641-7688 if you need assistance in determining the snow load at your proposed building site. Snowfall amounts vary widely in Gunnison County, and structural design may differ depending upon snowload for particular elevations. The snow load for any location should be determined by the Building Office before you have your final plans drawn.
2. **HOMEOWNER'S ASSOCIATION APPROVAL.** If the parcel is located in a subdivision that has a homeowners' association, written approval by the association.
3. **LETTER OF OWNER'S CONSENT.** A letter from the owner acknowledging that a person other than the owner may apply for permits.

INFORMATION SHEET: SETBACKS

SETBACK TYPE	MINIMUM PROPERTY LINE SETBACK
RESIDENTIAL SETBACKS	
Single family	Front: 25 Side/Rear: 15
Townhomes, condominiums and other multiple family buildings	Front: 25 feet Side/Rear: 15 feet Separate multiple-family buildings within a single Project may be constructed a minimum of ten feet from other buildings within the single Project.
Zero Lot Line developments	Residences may be constructed on the property line, pursuant to Section 13-104: C: Zero Lot Line Developments
BUSINESS AND COMMERCIAL SETBACKS	
Adjoining all other non-residential	15 feet
Adjoining residential	50 feet
Outdoor Vending Operation	35 feet from a residential property boundary
INDUSTRIAL SETBACKS	
Adjoining other industrial	15 feet
Adjoining business or commercial	100 feet
Adjoining residential areas, agricultural areas or public lands	300 feet
LIGHT INDUSTRIAL SETBACKS	
Adjoining residential	50 feet
Adjoining business and commercial	15 feet
Adjoining other light industrial	15 feet
Adjoining industrial	15 feet
SETBACKS FROM ROADS:	
When width of right-of-way is known, measurement shall be from edge of right-of-way; when unknown, measurement shall be from the road center line, and an additional 40 feet added to the requirements for setbacks from roads.	
Federal highways	40 feet
State highways	40 feet• Land uses that access onto either federal or state highways shall comply with the Colorado Highway Access Code
County and other public roads	40 feet
Platted subdivision development roads	25 feet

Information Sheet: EXTERIOR LIGHTING

Gunnison County residents and visitors enjoy the dark skies of our mostly-rural landscape. Regulations for the unincorporated areas of Gunnison County are included within a section of the *Gunnison County Land Use Resolution* and are intended to protect those dark skies while ensuring that property owners are able to have lighting systems that provide adequate security. The following section from the *Resolution* regulates locations, types and sizes of lighting fixtures.

SECTION 13-114: EXTERIOR LIGHTING

- A. PURPOSE.** The purpose of this Section is to provide standards for exterior lighting that assure the safety, utility and security appropriate to development and that prevent night lighting that adversely impacts adjacent properties and neighborhoods or unduly illuminates the night sky enjoyed by residents and visitors of Gunnison County. A secondary purpose is to avoid exterior night lighting that distracts and interferes with safe, quick and accurate vision of drivers and pedestrians. (Illustrations in this Section are courtesy of Dark Sky, International, and the New England Light Pollution Advisory Group (NELPAG).)
- B. APPLICABILITY.**
- 1. GENERAL.** Except as otherwise exempted by this Section, the requirements of this Section shall apply to all land uses in Gunnison County, subject to Section 1-106: *Partially Exempted Land Use Changes*, and Section 1-108: *Nonconforming Uses*.
 - 2. EXEMPTIONS.** The following uses are exempted from the requirements and review standards of this Section:
 - a. AGRICULTURAL OPERATIONS.** Exterior lighting whose primary purpose is essential to the efficient functioning or security of an agricultural operation shall be exempted from the standards of this Section, though agricultural operations are encouraged to comply.
 - b. FEDERAL, STATE AND COUNTY CONSTRUCTION PROJECTS.** Federal, state and County construction projects, during the course of construction.
 - c. SPECIAL EVENTS.** Lighting that is temporarily installed or operated as part of a special event, pursuant to Section 9-501: **Special Events**.
 - d. EMERGENCY LIGHTING.** Lighting fixtures used temporarily for emergency purposes.
 - e. SPECIALIZED LIGHTING.** Lighting necessary for public safety, such as runway lighting of airports, and traffic control signals.
- C. NONCONFORMING FIXTURES.** Fixtures that were nonconforming as of July 1, 2004, shall be replaced when:
- 1. LIGHT IS DAMAGED BEYOND REPAIR.** When the light fixture is damaged beyond repair and must be replaced, it shall comply with the standards of this Section.
 - 2. STRUCTURE IS EXPANDED OR REPLACED.** When a structure is replaced, or expanded by 50 percent or more of square footage as calculated by the applicable building code adopted by Gunnison County, all light fixtures shall be replaced and shall comply with the standards of this Section.

D. **STANDARDS.** Exterior lighting shall meet the following standards:

1. **EXTERIOR LIGHTING FIXTURES SHALL BE FULL CUTOFF/FULLY-SHIELDED, SHIELDED BY ROOF ELEMENT OR EFFECTIVELY RECESSED.** Except as otherwise restricted in this Section, all exterior lighting fixtures, including those used to illuminate roadways, parking lots, walkways and buildings, used for residential, commercial, or industrial purposes shall be of the full cutoff/fully-shielded type or be shielded by a roof element so that there is the effect of a full cutoff/ fully-shielded light fixture. All fixtures that are installed in recessed locations shall maintain this full-cutoff/fully-shielded characteristic.
2. **EXTERIOR LIGHTING LIMITED TO FUNCTIONAL USES.** Exterior lighting shall be limited to functional applications such as illumination of doorways, garage doors, decks, terraced levels, walkways or hot tubs and recreational areas when in use.
3. **MOTION SENSOR LIGHTS ALLOWED FOR COMMERCIAL, INDUSTRIAL OR RESIDENTIAL ACCESS FOR SECURITY PURPOSES.** A maximum of two motion sensor fixtures is allowed as reasonably required to provide lighting for access security. These are permitted where the sensor will be triggered by activity only within the owner's property lines.
4. **FLOOD LIGHTING LIMITED.** Floodlighting is only permitted when it is down-directed (45 degrees or less from vertical as illustrated in Figure 10: *Examples of Floodlighting*) so that the light source is not visible from adjacent and/or neighboring properties, and shall be full cutoff/fully shielded. Ground-mounted floodlighting of a structure is prohibited.
5. **HEIGHT LIMITATION FOR POLE-MOUNTED FIXTURES.** Pole-mounted fixtures (as measured from grade to the bottom face of a fixture) shall be no higher than 35 feet and the fixture shall be a full cutoff/fully shielded, non-adjustable and directed down.
6. **ILLUMINATION OF BUILDING FAÇADE AND LANDSCAPING PROHIBITED.** Lights that are used for the primary purpose of illuminating a building façade or landscaping are prohibited except for illuminating a building entrance, or for other purposes required by the **National Electrical Code**.
7. **BLINKING, FLASHING AND LIGHTS OF CHANGING INTENSITY PROHIBITED.** Blinking, flashing or exterior lights that change in intensity are prohibited, except for temporary holiday displays, traffic control devices authorized by a federal, state or local government, or lights required by regulations of the Federal Aviation Administration for air traffic control and warning purposes.
8. **INTERFERENCE WITH SAFE MOVEMENT OF MOTOR VEHICLES PROHIBITED.** No exterior lighting shall be installed or used in any way that interferes with the safe movement of motor vehicles. The following are prohibited:
 - a. **LIGHTING NOT DESIGNED FOR ROADWAY OR PEDESTRIAN WAY.** Any exterior lighting not designed for roadway or pedestrian way illumination that produces incident or reflected light that could be disturbing to the operator of a motor vehicle; and
 - b. **LIGHTING THAT MAY BE CONFUSED WITH TRAFFIC CONTROL DEVICES.** Any exterior lighting that may be confused with, or may be construed to be a traffic control device, except as authorized by a state, federal or local government.
9. **MERCURY VAPOR LIGHT FIXTURES.** Installation of new mercury vapor light fixtures is prohibited, and replacement of mercury vapor light fixtures existing as of July 1, 2004 with fixtures that comply with the standards of this Section is encouraged.
10. **TEMPORARY HOLIDAY DISPLAYS.** Winter holiday lighting shall be allowed between November 15 and March 30. All other lighting associated with any national, local or religious holiday or celebration shall be allowed two weeks before the holiday, and extinguished within two weeks after the holiday. A waiver from these time restrictions may be requested from the Board, which may elect to conduct a public hearing on the request before making its decision. The applicant shall be billed and shall be responsible for paying for the actual cost of publication of all applicable public hearing notices as required pursuant to Section 3-112: *Notice of Public Hearing*.

NOTICE REGARDING U.S. FISH AND WILDLIFE SERVICE DETERMINATION THAT GUNNISON SAGE-GROUSE IS A THREATENED SPECIES

- The U.S. Fish and Wildlife Service has determined, effective December 22, 2014, threatened species status under the Endangered Species Act of 1973, as amended, for the Gunnison Sage-grouse.
- Gunnison County approval of this County permit is not U.S. Fish and Wildlife Service approval of any activity described or authorized by this County permit.
- Gunnison County is not and does not act as your representative with regard to consultation with the U.S. Fish and Wildlife Service or performance of U.S. Fish and Wildlife Service requirements.
